Revision Log

Date	Version No.	Description	Author
19 Mar. 2012 – 4 Nov. 2022	1.0 – 7.1	Previous Contractor Updates	JB
6 Feb. 2024	8.0	Redesign of the user guide template, fonts, images, and tables for 508 compliances.	JL
6 Mar. 2024	8.1	Addition of Multiple Document Download procedure and screenshots.	JL
22 July 2024	8.2	Adjust Appendices A-E	JL
24 July 2024	8.3	Removed references of MAX.gov and replaced with Login.gov	JL
June 2026	9.0	Updated format, added screenshots, and clarified information. Entire document is 508 Compliant.	HG

User Authentication

User Log In

Go to the ROCIS website (www.rocis.gov) or the ROCIS Training website (training.rocis.gov) to log in to the system.

Note: The ROCIS Production and Training sites have identical functionality; however, the Training site is designed for ROCIS users to practice using the system, and data entered in the ROCIS Training site is not transferred to the ROCIS Production site.

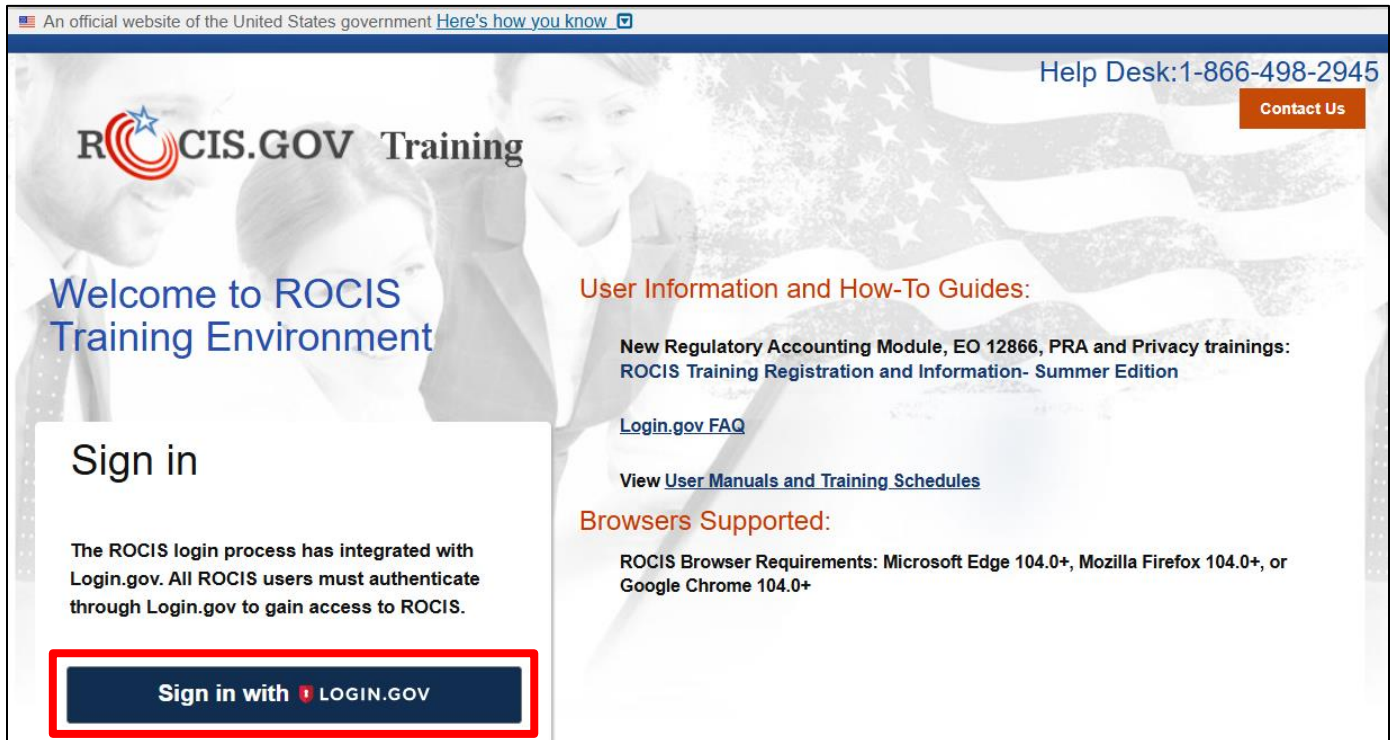

Figure 1: ROCIS.gov Training Site 'Sign In' Page with 'Sign In with Login.gov' Button

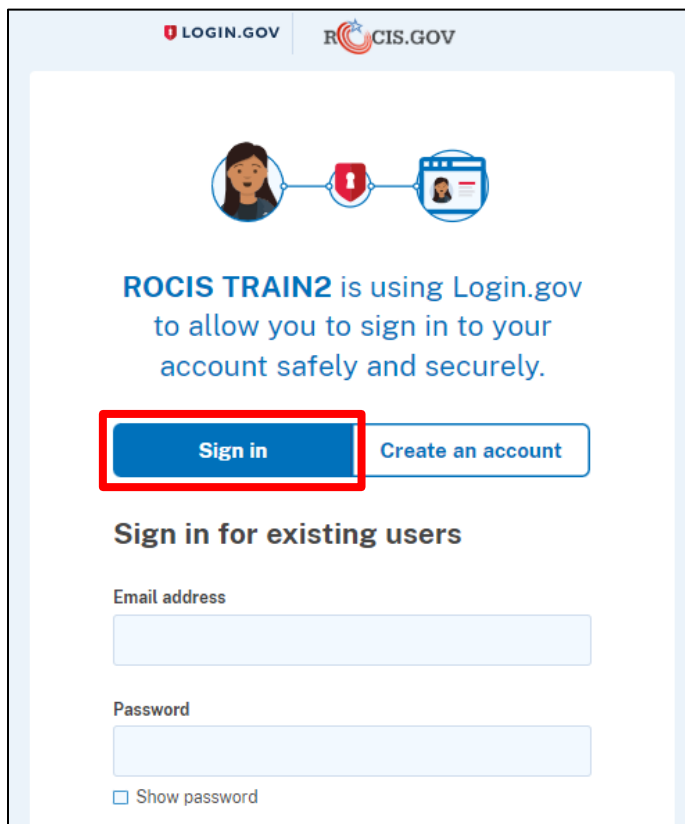

Login.gov provides user identity authentication services to ROCIS, including ID/password validation, 2-factor authentication, and PIV/CAC card access. If you do not have a login.gov account, register at the Login.gov website: https://secure.login.gov/sign_up/enter_email.

For detailed instructions on how to set up a Login.gov account, review the Login.gov Account Creation Reference Guide on the 'User and Training Resources' page: <https://www.rocis.gov/rocis/viewResources.do>.

Click on the 'Create an Account' button, enter your email address in the 'Enter your email address' text box, select your language preference, check the box to indicate that you have read and accept the Login.gov Rules of Use, and click the 'Submit' button. Follow the directions to complete the account creation.

Figure 2: Login.gov 'Create an Account' Page

Once you have registered on Login.gov, click the 'Sign in with Login.gov' button on ROCIS.gov to verify your identity with Login.gov. Click the 'Sign in' button to begin this process.

LOGIN.GOV ROCIS.GOV

ROCIS TRAIN2 is using Login.gov
to allow you to sign in to your
account safely and securely.

Figure 4: Login.gov – Username and Password or ID Sign-in Options

After successfully logging in to Login.gov, the system will navigate to the ROCIS 'Welcome' page. Click the 'Arrow' icon in the 'PRA' module box to begin working or click the 'Arrow' icon in the 'Admin' module box to access user tools and information.

Figure 5: 'PRA' Module and 'Admin' Module Boxes with 'Arrow' Icons

User Log Out

Click the 'Logout' link in the top, right corner of any ROCIS page to log out.

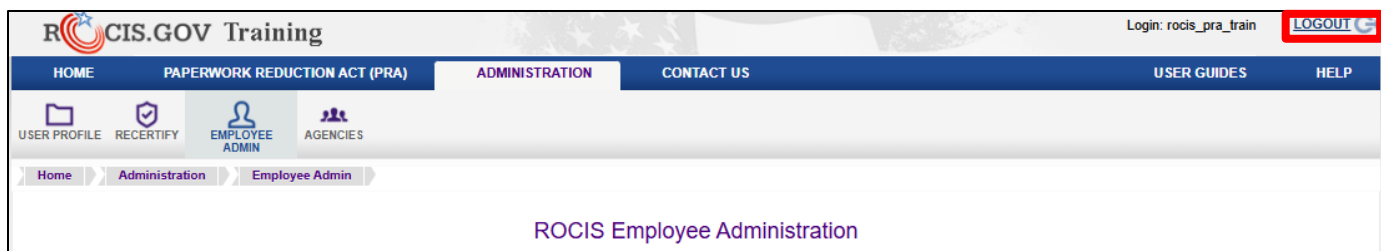

Figure 6: 'Logout' Link

Logging out of ROCIS does not automatically log you out of Login.gov. The Login.gov session may still be active, so you can log back into ROCIS without re-verifying your identity on Login.gov. To protect your privacy, close all browser windows when you are finished, especially if you are using a public computer. By taking these steps, you ensure the security and privacy of your agency's data in ROCIS.

Once you have logged out of ROCIS, the system will require you to log back into Login.gov before your next access to ROCIS.

Click the 'ROCIS Login' button to log back into ROCIS.

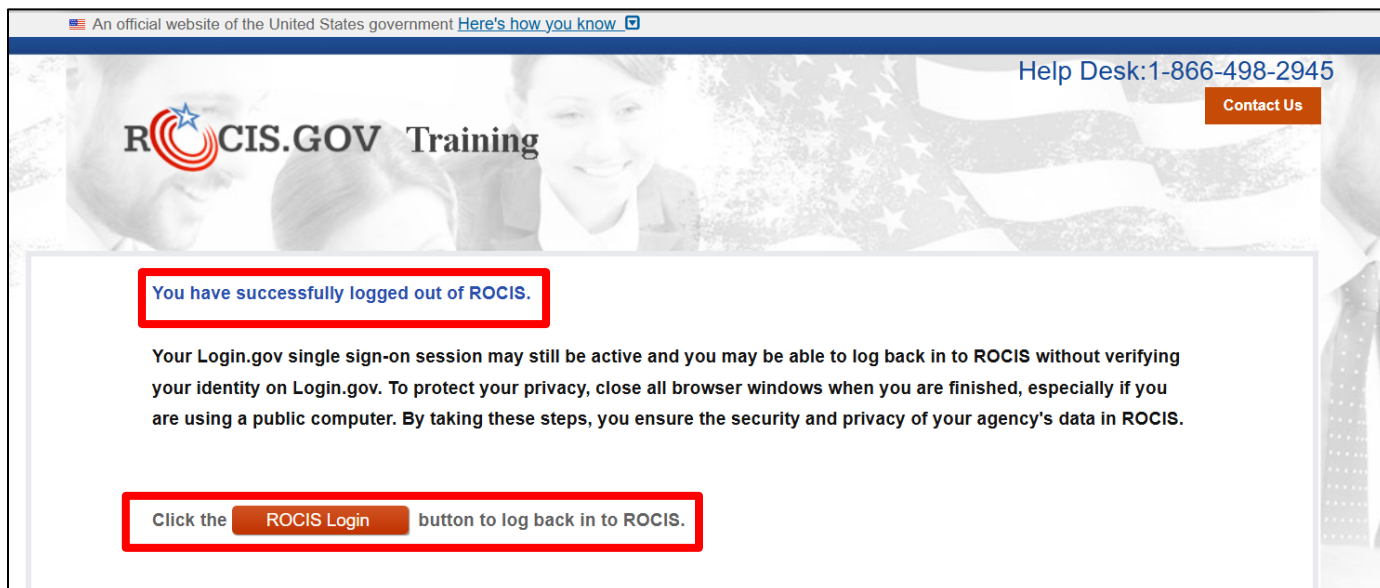

Figure 7: 'Logout' Page and 'ROCIS Login' button

User Information and Tools

User Profile

The 'User Detail' page provides a place to view and update user contact information. Users should regularly review and update this page to ensure accuracy. To do this, click the 'Administration' tab and then click the 'User Profile' icon in the Navigation Toolbar.

Verify the information and make any necessary changes. To save the changes, click the 'Save' button.

Your profile will also display the role(s) assigned to your user ID. A list of the PRA roles can be found in [Appendix C](#).

To leave the 'User Detail' page, scroll to the bottom and click the 'Save' button if you have made any changes or click the 'Cancel' button to navigate to the. You will be navigated to the 'ROCIS Employee Administration' page.

The screenshot displays the 'User Detail' page within the ROCIS PRA Module. The top navigation bar includes 'HOME', 'PAPERWORK REDUCTION ACT (PRA)', 'ADMINISTRATION' (highlighted with a red box), and 'CONTACT US'. Below this, a secondary navigation bar shows 'USER PROFILE' (highlighted with a red box), 'RECEIPTIFY', 'EMPLOYEE ADMIN', and 'AGENCIES'. The main content area is titled 'User Detail' and contains two sections: 'Personal Information' and 'Account Information'. The 'Personal Information' section includes fields for Prefix, First Name (ROCIS PRA), Middle Name, Last Name (Trainer), Suffix, Title, and Agency / Sub Agency (HHS). The 'Account Information' section includes fields for Employee Number (1540598), User Login (roctrainer), Login.gov Email (heldi.griffith@gsa.gov), and Annual Reauthorization Date (04/09/2026). A note indicates that an asterisk (*) denotes a required field.

Figure 8: 'Administration' Tab, 'Employee Admin' Icon, and 'ROCIS Employee Administration' Page

User/Contact Search

On the 'ROCIS Employee Administration' page, ROCIS users can locate other users by entering criteria in the fields and clicking on the 'Search' button.

If you are the agency's Clearance Officer, it is important to periodically check the authorized users for your agency. Select the desired role (CO, CL, APC, and/or PDEC) from the 'Role' drop-down menu and the desired agency and sub-agency, if needed, from the 'Assigned Role Agency' and 'Assigned Role SubAgency' drop-down menus and click the 'Search' button. If there are any contacts in the search results who have left the agency but still have active accounts, contact the ROCIS Help Desk to have the accounts deactivated and locked.

When you have completed the necessary ROCIS administrative functions, click on the 'Paperwork Reduction Act' tab to return to the 'Created Request List' page.

The screenshot displays the 'ROCIS Employee Administration' page. At the top, there is a navigation bar with links for HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, CONTACT US, USER GUIDES, and HELP. Below this is a secondary navigation bar with icons for USER PROFILE, RECERTIFY, EMPLOYEE ADMIN (highlighted with a red box), and AGENCIES. The main content area is titled 'ROCIS Employee Administration' and contains several search fields: User ID, Last Name, First Name, Employee Number, Profile Agency, SubAgency, Role, Assigned Role Agency, and Assigned Role SubAgency. Below these fields are radio buttons for 'Search Range' with options: Users (selected), Contacts, and Both Users and Contacts. At the bottom of the search section, there is a 'SEARCH' button (highlighted with a red box) and a 'CREATE A NEW CONTACT' button. Below the search section is a table with columns: Agency, Name, Emp No, User ID, Phone Number, Email, Account Status, and Lock Status. The table currently shows 'No data available in table' and 'Showing 0 to 0 of 0 entries'.

Figure 9: 'ROCIS Employee Administration' Page and 'Search' Button

User Recertification

To acquire a ROCIS production account, users must sign the RISC Security Agreement. The ROCIS system requires users to recertify the terms of the security agreement annually.

Two weeks before your security agreement anniversary date, ROCIS will send you daily reminder emails notifying you of the need to recertify. To navigate to the 'User Recertification' page, click the 'Recertify' icon located in the 'Administration' Module.

The latest version of the 'ROCIS Security Agreement for System Users' is displayed on the 'User Recertification' page.

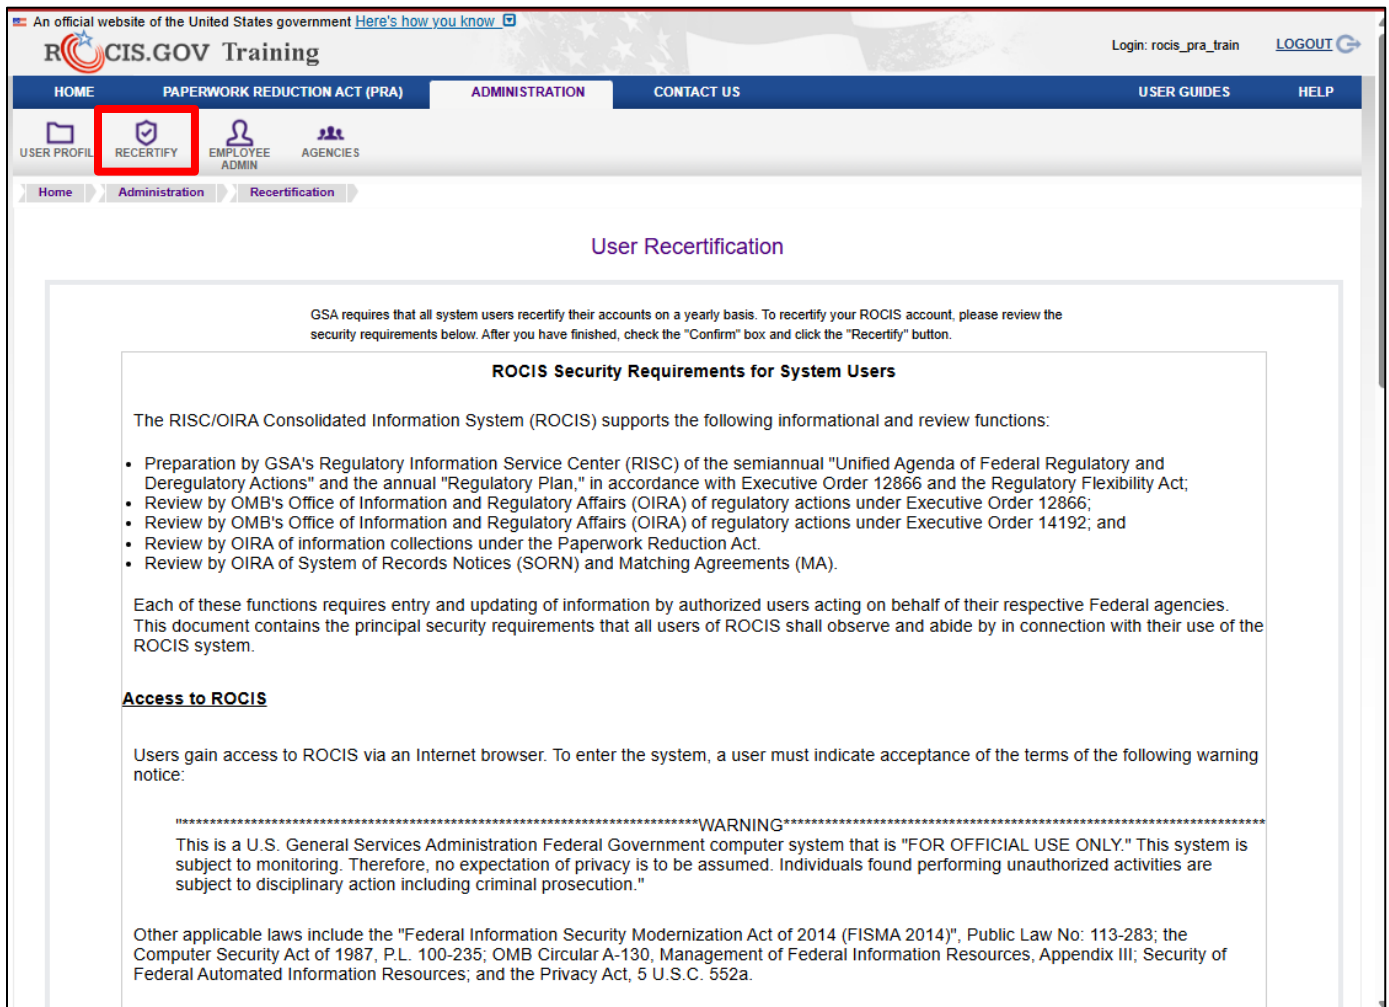

Figure 10: 'Recertify' Icon and 'User Recertification' Page

If you do not recertify your account BEFORE your anniversary date, ROCIS will automatically send you to the 'User Recertification' page the next time you log in. If you do not recertify, you will be logged out. This process will be repeated until you complete the Recertification process.

After reviewing the security agreement, check the 'Confirm' checkbox, and then click the 'Recertify' button. ROCIS will automatically log you out, and once you log back in, your recertification anniversary date will be updated.

In addition, ROCIS maintains user data containing information about agencies and employees, mailing lists, access privileges and user level access assignments, which must be protected. Some of the information within ROCIS will be published and made available directly to the general public through the Internet. The public will not have access to sensitive or proprietary information in the system. Rules for Behavior All authorized governmental and contractor users of ROCIS will be responsible for data protection, including maintaining the confidentiality and integrity of sensitive data from unauthorized or accidental disclosure, misuse, or alteration. Users will be held accountable for their interactions with ROCIS and its data. Compliance with these rules will be enforced through sanctions commensurate with the level of infraction. For infraction violations, disciplinary actions may include a verbal or written warning, removal of system access for a specific period of time, reassignment to other duties, or termination, depending on the severity of the violation. General Requirements: • Users shall be familiar with the ROCIS security and operational policies and practices and with any corresponding requirements of their agency. Users must promptly notify GSA-IT, RISC, OIRA and, if appropriate, other Federal agency security personnel, of any security incident(s) related to ROCIS. • Users must attend ROCIS training and their agency's security instruction as required. Users must maintain an awareness of threats to the ROCIS application, server hardware, or data. Users must maintain familiarity with the functionality and proper use of ROCIS. • ROCIS will track actions of users through audit trails. Individuals will be held accountable for their actions on the system and for any accesses made with their user names and passwords. • Users shall not upload data into ROCIS from files created on other systems unless they have first been scanned by an antivirus protection system. • Users shall report security incidents via procedures outlined within the GSA IT Security Procedural Guide: Incident Response, CIO-IT Security-01-02. Use and Protection of Data: • Users must access ROCIS only through authorized interfaces. • Users shall not attempt to view, change, or delete data, or to perform any other actions in ROCIS, unless authorized to do so. • Users must control access to their personal computers whenever they are logged into ROCIS. Users should terminate their connections to ROCIS immediately upon completion of their work in the system and whenever their personal computers will be unattended. Personally Identifiable Information (PII): • DO NOT enter any personally identifiable information (PII) into ROCIS. • This includes data entered in ROCIS fields and the content of documents uploaded to ROCIS. • Most ICR data entered and documents uploaded into ROCIS are displayed on Reginfo.gov (public website).

Confirm: ☐

RECERTIFY **CANCEL**

Figure 11: Recertification 'Confirm' Checkbox, 'Recertify' Button, and 'Cancel' Button

A successful recertification confirmation message will be displayed on the ROCIS 'Welcome' page.

An official website of the United States government [Here's how you know.](#)

Help Desk: 1-866-498-2945 [Contact Us](#)

ROCIS.GOV Training

Welcome to ROCIS Training Environment

You have successfully recertified your ROCIS account.

Help Desk toll free telephone number: 1-866-498-2945. This help desk services all of GSA and Federal Agencies using GSA applications such as ROCIS. If your question cannot be answered immediately, it will be referred to the ROCIS technical team. Be sure to document your call number and the name of your help desk contact for follow-up.

Figure 12: Account Recertification Confirmation Message

Reauthorization

Any user acquiring a ROCIS production account must be authorized by their agency. The ROCIS system requires agencies to reauthorize user access every year. The system will send users and authorizers daily email reminders 10 days before their annual reauthorization deadline. If a user's account is not reauthorized before the deadline, their ROCIS access will be suspended. Each email will include the agency authorizer's name, email address, and phone number.

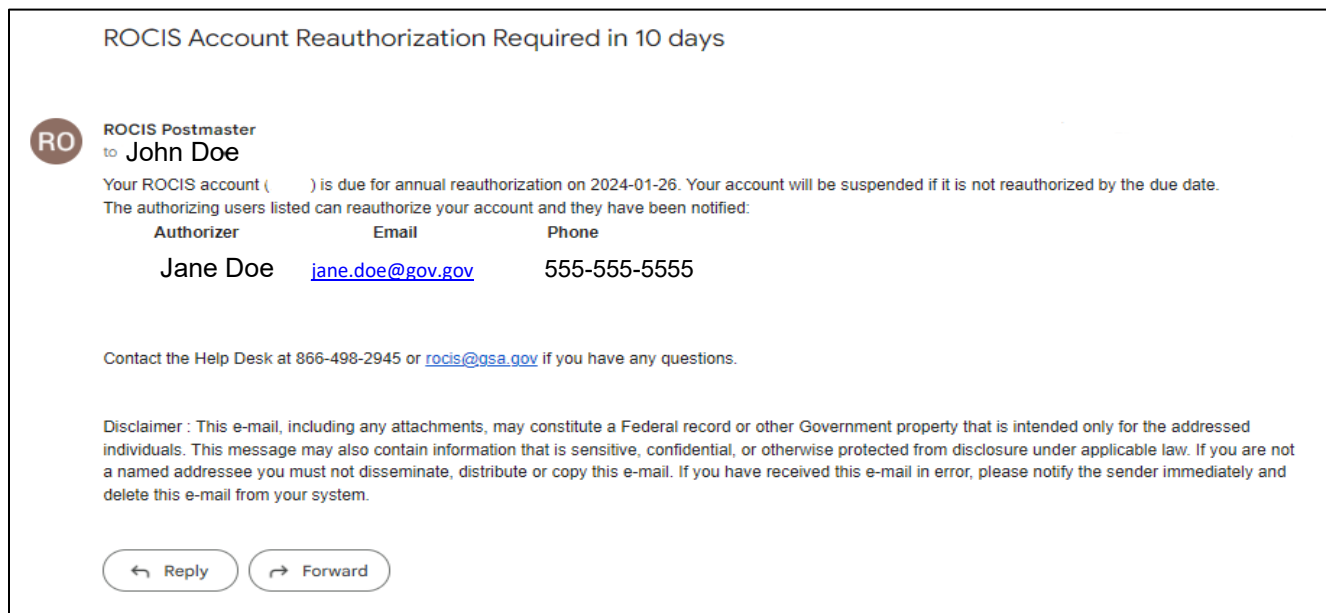

Figure 13: Reauthorization Required Email (User)

Authorizers will also receive daily email notifications when users require reauthorization. This email contains the user's name, email, and phone number.

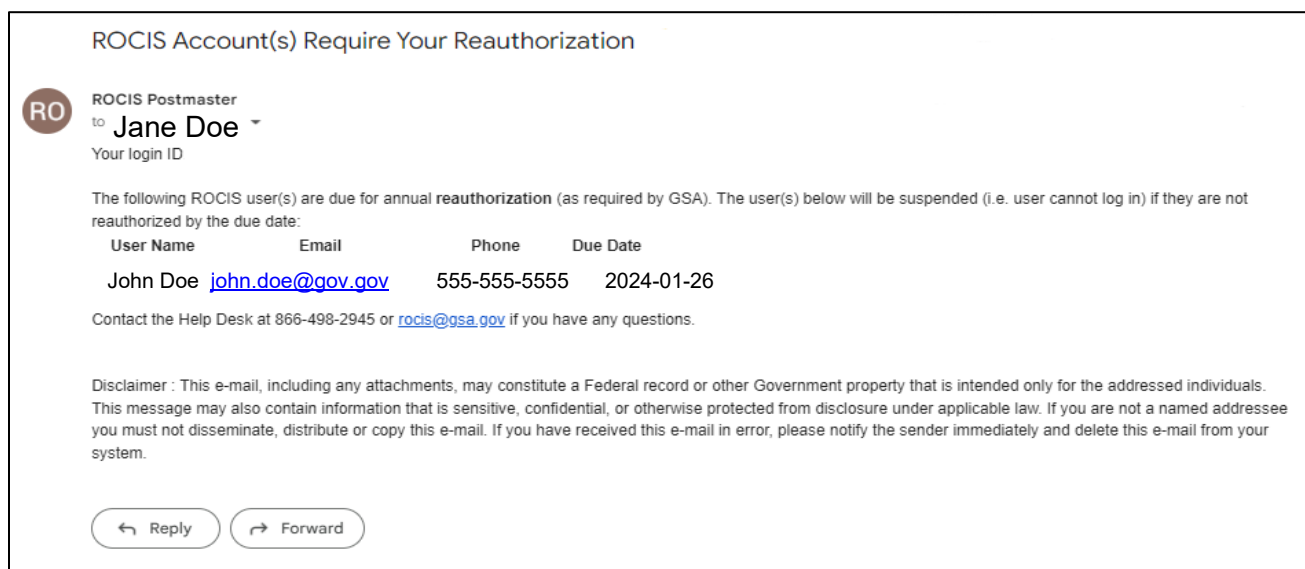

Figure 14: Reauthorization Required Email (Authorizer)

The 'User Reauthorization Warning' pop-up window will display when the user logs into ROCIS. Click on the 'List of Reauthorizing Users' link to navigate to the 'Reauthorizing Users' page.

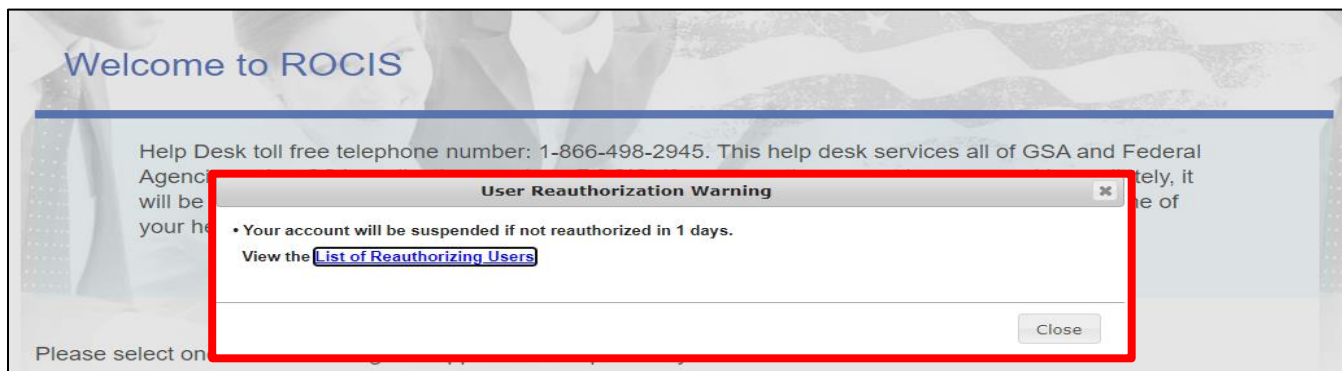

Figure 15: 'User Reauthorization Warning' Pop-up Window

The agency's reauthorizing users and their contact information will be displayed on the 'Reauthorizing Users' page.

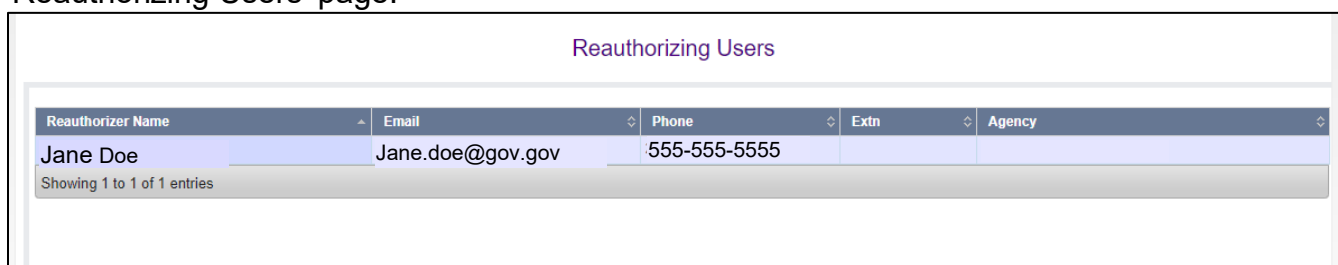

Figure 16: 'Reauthorizing Users' Page

Users who attempt to log in after their account has been suspended, a 'Login denied' error message will display and provide the reauthorizer's contact information.

Figure 17: Login Denied Message

Agency authorizers must regularly review ROCIS user access to verify that users still have a business need to access ROCIS. Authorizers will receive daily warnings when there are users whose access will be suspended in 10 days or less. Authorizers can perform authorizations by clicking the 'Annual Reauthorizers Page' link in the 'User Reauthorization Warning' message or by clicking the 'Annual Reauth' icon in the 'Administration' Module.

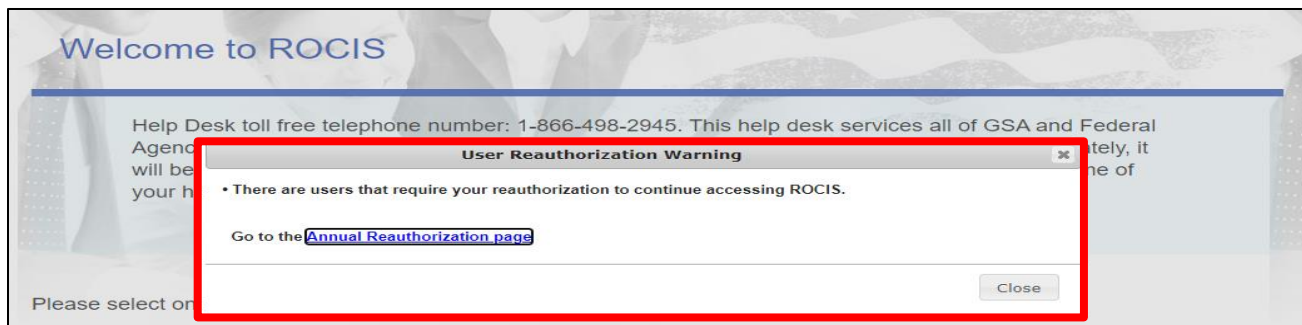

Figure 18: 'User Reauthorization Warning' Pop-up Window (Authorizer)

Only authorizers will have access to the 'Annual Reauth' icon. Select one or more checkboxes from the following options to filter the user list: 'Within 60 Days', 'With more than 60 days', 'Suspended', or 'Declined' to filter the user list. To reauthorize or decline a user's account, click the 'Reauthorize' or 'Decline' button at the end of the user's row. To reauthorize or decline multiple users at once, select the users' rows by clicking the checkboxes in the 'Select' column, then clicking the 'Reauthorize' or 'Decline' button located above the table.

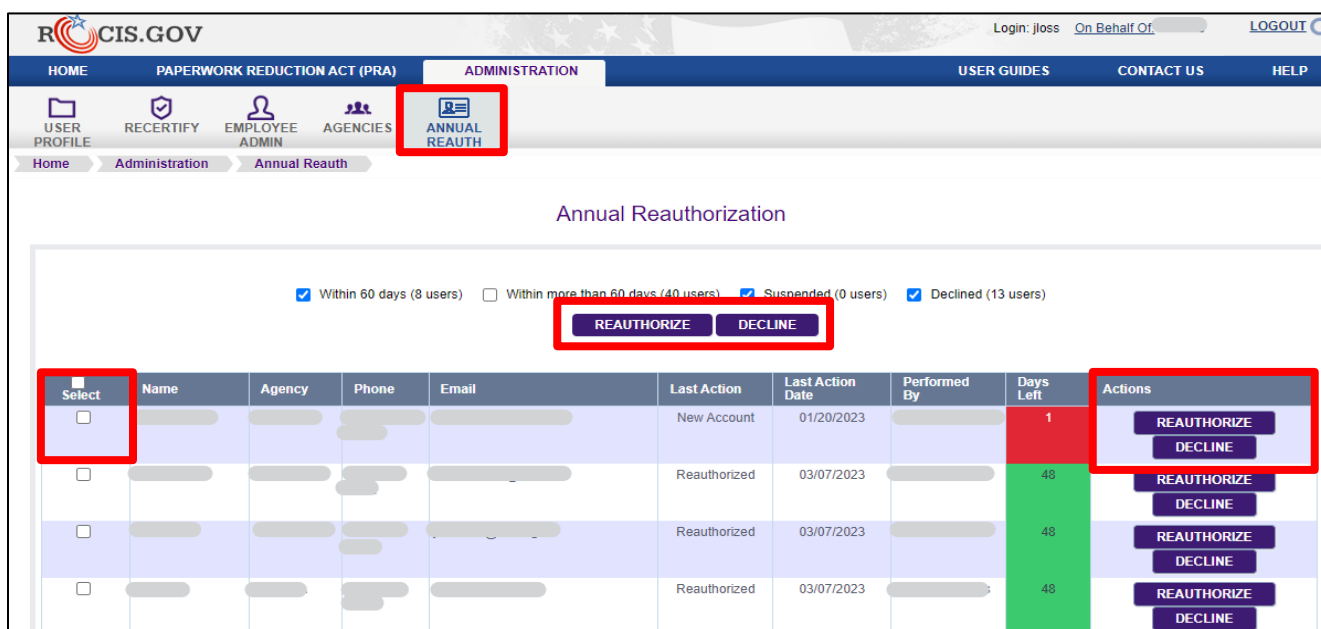

Figure 19: 'Annual Reauthorization' Page

Navigation Toolbar Icons

Agency Inbox and the Navigation Toolbar

At the top of every page, there is a tab for each ROCIS Module to which you have access. Each module has its own set of tabs, icons, and drop-down menus called the Navigational Toolbar. Hover the cursor over a tab or icon to view the drop-down menu options. If there are no drop-down menu options displayed, click the tab or icon to navigate to that location.

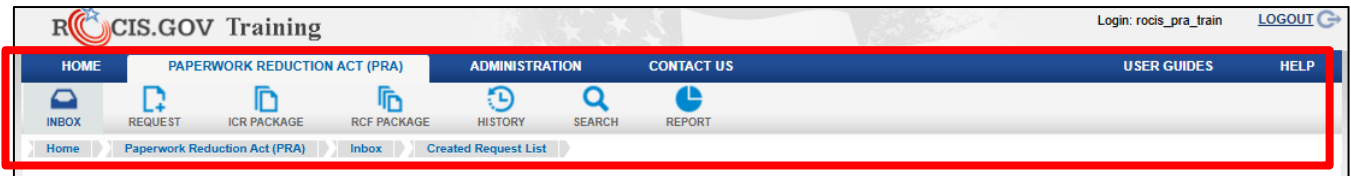

Figure 20: Navigation Toolbar

ROCIS provides all users with an 'Inbox' for tracking the progress of Regulatory Accounting requests. The menu includes different lists. Hover the cursor over the 'Inbox' icon in the Navigation Toolbar to access the drop-down menu options.

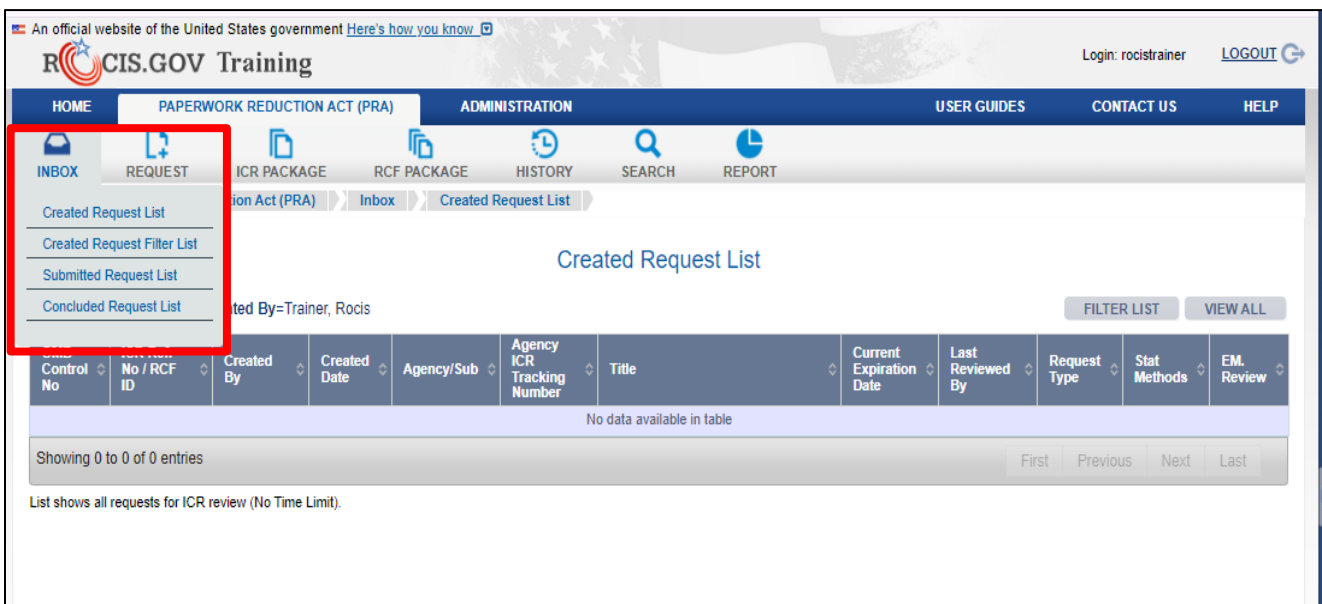

Figure 21: 'Inbox' Icon Drop-down Menu Options

Each list in your 'Inbox' has a 'Filter List' page. Click the 'Filter List' button to view the available filtering criteria.

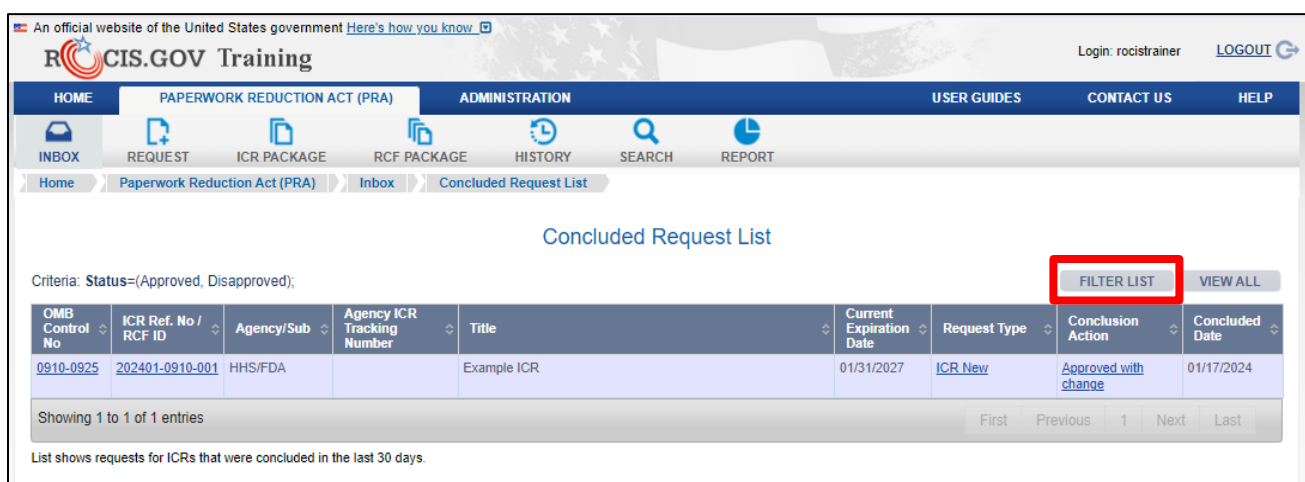

'Created Request List': Includes requests that have been created in ROCIS but have not been submitted to OIRA for review. These requests may also be deleted from ROCIS (not reversible, cannot be recovered).

'Submitted Request List': Includes requests that have been submitted to OIRA for review. It also includes requests that OIRA has opened for amendment.

'Concluded Request List': Includes requests for which OIRA has completed its review. This list displays the last 30 days of conclusions by default.

Throughout the PRA Module, you can sort any table by any of its columns. The first time a user clicks on the column header, the column data is sorted in ascending order. Click the column header again to reverse the sort order.

Each Inbox list has a 'Filter List' page. Click the 'Filter List' button on any list page to view the fields by which you can filter that list.

Figure 24: 'Concluded Request List' Page with 'View All' Button

Creating an ICR Package

There are three ways to create an ICR Package:

1. Use the 'Request' icon to select the 'Information Collection Request (ICR)' option from the drop-down menu.
2. On the 'Concluded Request List' page, click the link in the 'IC Ref. No/RCF ID' column to begin a new ICR.
3. Search for an OMB Control Number or ICR Reference Number of an existing ICR to view it and begin a new ICR.

Create an ICR from the Request Menu

Hover over the 'Request' icon and select the 'Information Collection Request (ICR)' option from the drop-down menu.

Figure 25: 'Request' Icon: 'Information Collection Request (ICR)' Option

After selecting the 'ICR' option, the system will navigate to the 'Create New ICR Package' page.

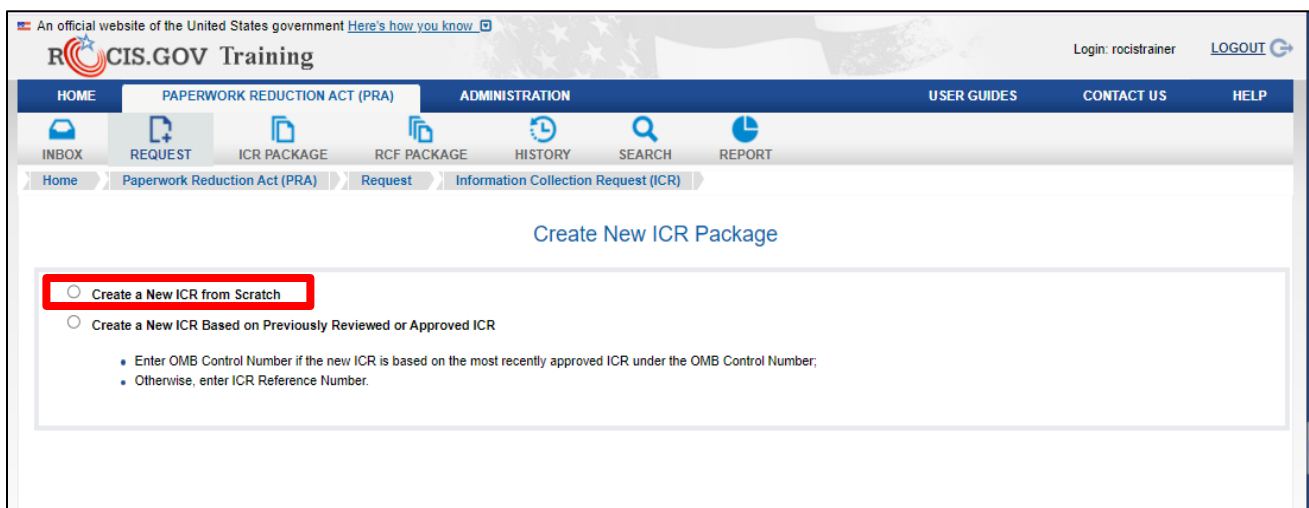

Figure 26: 'Create New ICR Package' Page

If there is no existing OMB Control Number (or previously begun ICR Package), select the 'Create a New ICR from Scratch' radio button and additional fields will display. Select the agency and sub-agency, if needed, from the 'Agency' and 'Sub-agency' drop-down menus.

Populate the 'Title' text box.

Populate the 'Abstract' text box.

'Will this ICR Sponsor a Common Form?' Click the checkbox if your agency would like to share the ICR with other agencies so they can create RCFs.

'Will this ICR be generic?' Click the checkbox if your agency would like to make the ICR generic.

Click the 'Create' button to generate the new ICR, and the system navigated to the 'Edit ICR' page.

The screenshot displays the 'Create New ICR Package' form within the ROCIS.GOV Training application. The interface includes a top navigation bar with links for HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, CONTACT US, USER GUIDES, and HELP. Below this is a secondary navigation bar with icons for INBOX, REQUEST, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. The main content area shows the 'Create New ICR Package' form. The 'Create a New ICR from Scratch' radio button is selected and highlighted with a red box. The form includes fields for '* Agency' and 'Sub Agency', both with search or select dropdown menus. Below these are checkboxes for 'Will this ICR sponsor common form(s)?' and 'Will this ICR be generic?'. There are text input fields for '* Title' and '* Abstract'. At the bottom of the form, the 'CREATE' button is highlighted with a red box, along with 'CHECK SPELLING' and 'CANCEL' buttons. A second radio button option, 'Create a New ICR Based on Previously Reviewed or Approved ICR', is also visible at the bottom of the form.

Figure 27: 'Create a New ICR from Scratch' Radio Button and 'Create' Button

If the 'Create a New ICR from Scratch' radio button was selected, the 'Edit ICR' page will be blank except for the agency, sub-agency, title, and abstract fields. An ICR Reference Number is assigned by the system upon creation to uniquely identify the ICR throughout its history.

If an OMB Control Number already exists, select the 'Create a New ICR Based on Previously Reviewed or Approved ICR' radio button and additional criteria will display.

The screenshot shows the 'Create New ICR Package' form in the ROCIS.GOV Training interface. The 'Create a New ICR Based on Previously Reviewed or Approved ICR' radio button is selected and highlighted with a red box. Below it are checkboxes for 'Will this ICR sponsor common form(s)?' and 'Will this ICR be generic?'. There are also input fields for 'OMB Control Number' and 'ICR Reference Number' with 'Or' between them. 'CREATE' and 'CANCEL' buttons are at the bottom.

Figure 28: 'Create a New ICR Based on Previously Reviewed or Approved ICR' Radio Button

'Will this ICR Sponsor a Common Form?' Click the checkbox if your agency would like to share the ICR with other agencies so they can create RCFs.

'Will this ICR be generic?' Click the checkbox if your agency would like to make the ICR generic.

Enter either an OMB Control Number or ICR Reference Number in the appropriate text box.

If the OMB Control Number is entered, ROCIS will assign an ICR Reference Number and populate the page from the most recently approved ICR under that OMB Control Number.

If an ICR Reference Number is entered, ROCIS will populate the page with the information from that ICR Reference Number. For a Final Rule, enter the ICR reference number for the ICR reviewed at the proposed rule stage when creating the ICR.

Click the 'Create' button to navigate to the 'Edit ICR' page.

INBOX REQUEST ICR PACKAGE RCF PACKAGE HISTORY SEARCH REPORT

Home Paperwork Reduction Act (PRA) Request Information Collection Request (ICR)

Create New ICR Package

☐ Create a New ICR from Scratch

☒ Create a New ICR Based on Previously Reviewed or Approved ICR

- Enter OMB Control Number if the new ICR is based on the most recently approved ICR under the OMB Control Number;
- Otherwise, enter ICR Reference Number.

Will this ICR sponsor common form(s) ? ☐

Will this ICR be generic ? ☐

OMB Control Number: - Or ICR Reference Number: - -

CREATE **CANCEL**

Figure 29: 'Create New ICR Package' Page and 'Create' Button

Note: Common Form ICRs and Generic ICRs are created differently than regular ICRs. If you check one of the boxes to indicate that you are creating a Common Form or Generic ICR, refer to the appropriate instructions in this user guide on how to create an ICR that hosts Common Forms or a Generic ICR and associated Generic ICs.

Create an ICR from a Previously Reviewed ICR

You can create an ICR from a previously reviewed request from the 'Concluded Request List' page. Click the link of the desired ICR in the 'ICR Reference No/RCF ID' column. The 'Concluded Request List' page table only displays requests from the last 30 days, so click the 'Filter List' button to locate additional requests.

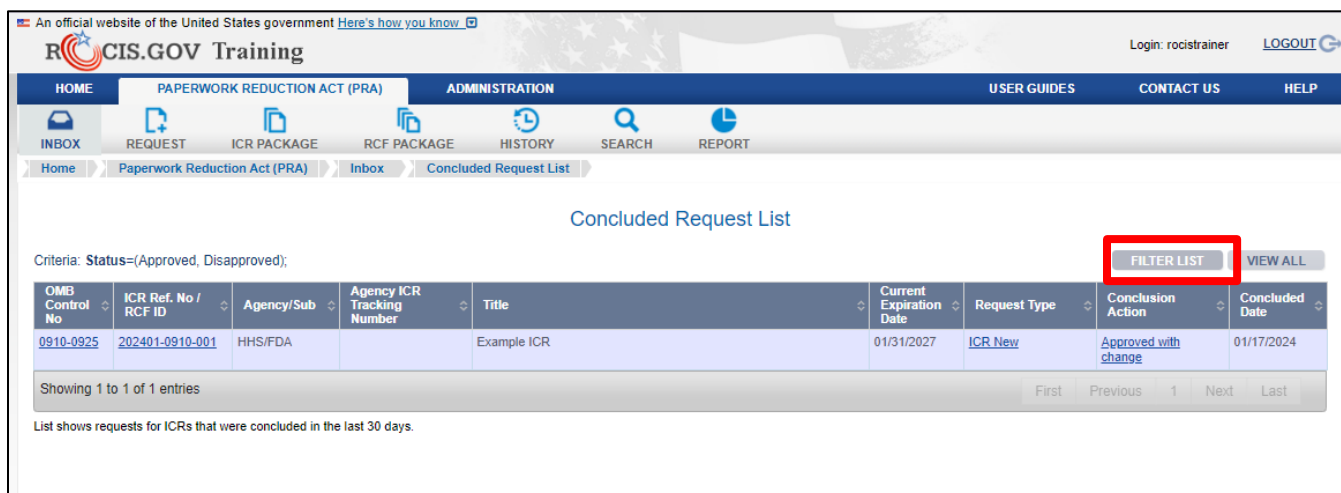

Figure 30: 'Concluded Request List' Page with 'Filter List' Button

The system will navigate to the 'Agency Concluded Request List Filter' page. Enter the desired filter criteria and click on the 'Submit' button.

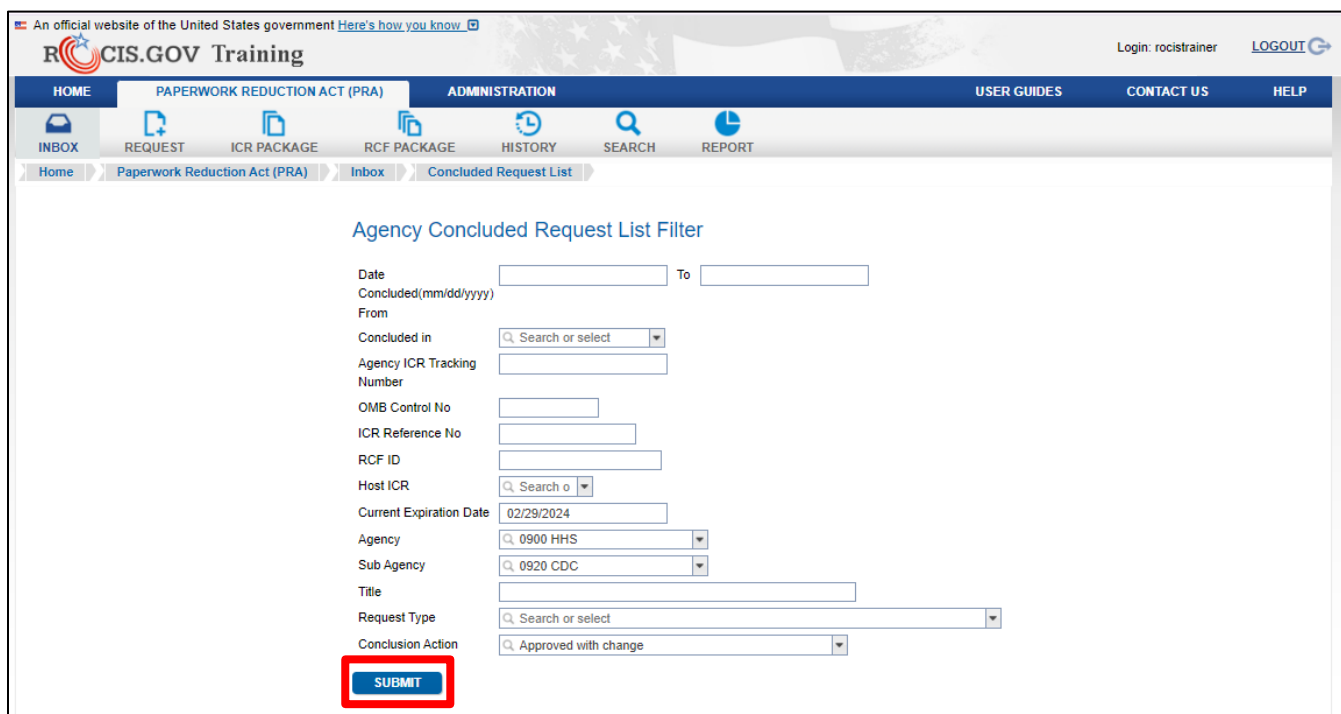

Figure 31: 'Agency Concluded Request List Filter' Page

The system will return to the 'Concluded Request List' page. To view the ICR, click the link in either the 'ICR Reference No/RCF ID' or the 'Conclusion Action' column, and the system will navigate to the 'View ICR- OIRA Conclusion' page.

Search: Simple Search

You can create an ICR by first locating an OMB Control Number, ICR Reference Number, RCF ID, or Agency Tracking Number using the 'Search' feature. Hover over the 'Search' icon and then select the 'Simple Search' option from the drop-down menu.

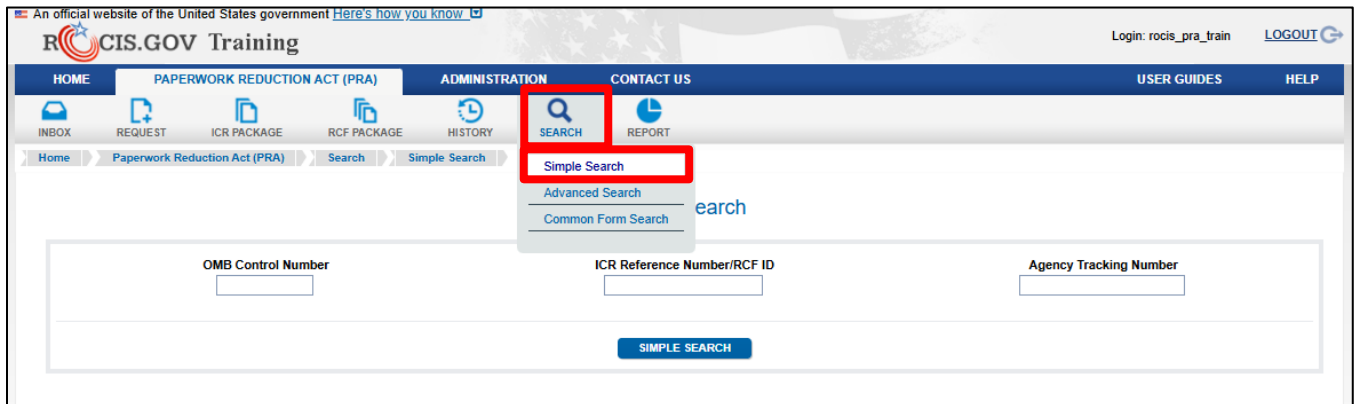

Figure 34: 'Search' Icon: 'Simple Search' Option

On the 'Simple Search' page, enter the appropriate number in either the 'OMB Control Number', 'ICR Reference Number/RCF ID' or 'Agency Tracking Number' text box and click the 'Simple Search' button.

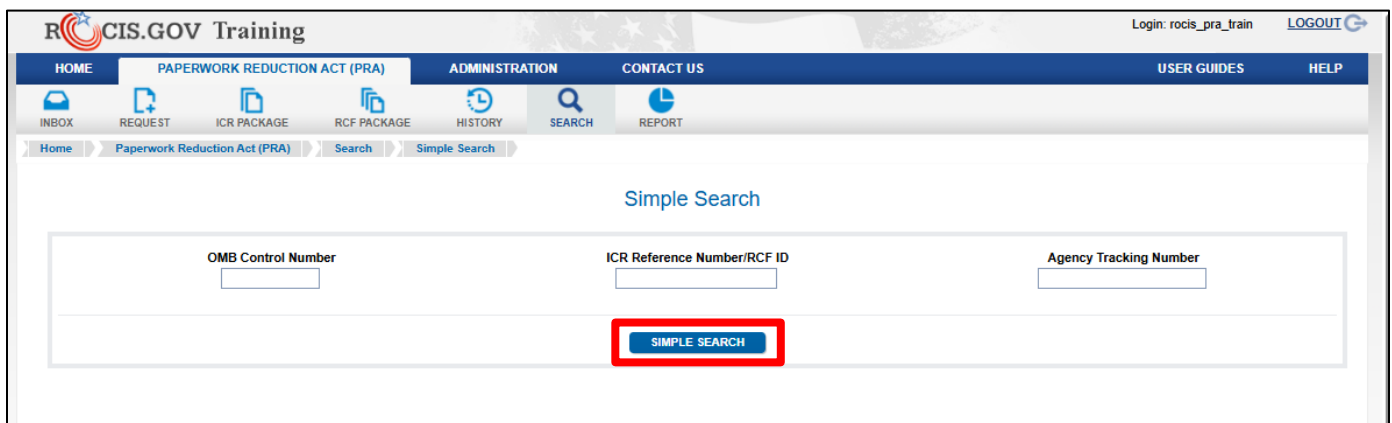

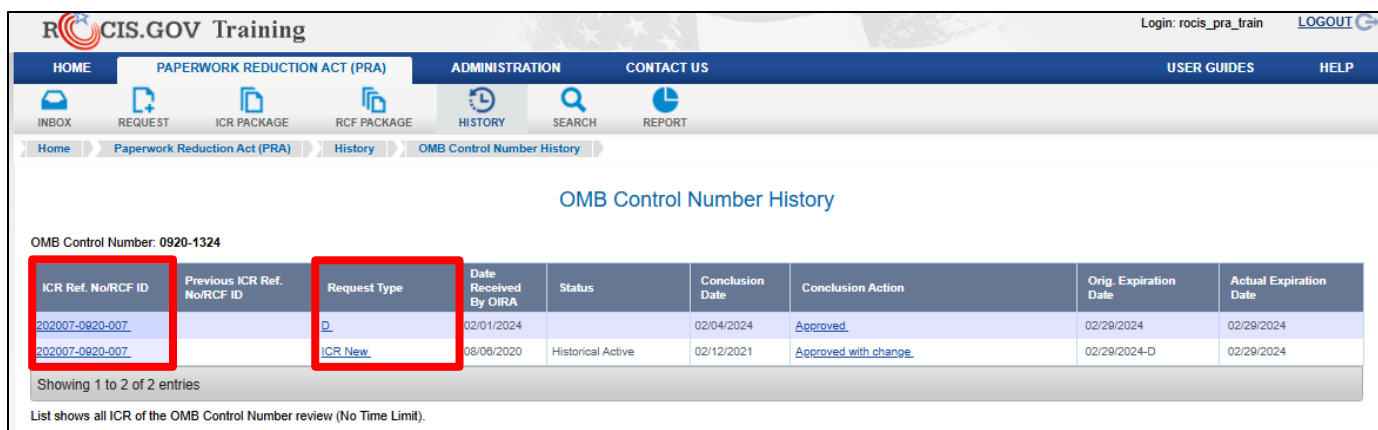

Figure 35: 'Simple Search' Page with 'Simple Search' Button

On the 'OMB Control Number History' page, locate the desired ICR. It may be either the most recently approved ICR or the most recently reviewed ICR—even if it was not approved. Click the link in the 'ICR Reference No/RCF ID' or the 'Request Type' column, and the system will navigate to the 'View ICR - OIRA Conclusion' page.

Note: Change requests must always be based on the active (currently approved) ICR.

Figure 37: 'View ICR- OIRA Conclusion' Page with 'Create ICR Package' Button

Updating an ICR Package

The ICR package contains four elements:

1. ICR Data (equivalent to the former 83I document)
2. IC (Information Collection) form(s), survey(s), or other collection instrument(s) and/or CFR Citation(s) requiring collections. There must be at least one IC or CFR Citation per ICR.
3. ICR Documents
 - Supporting Statement A
 - Supporting Statement B (when statistical)
 - Supplementary Documents
 - Draft (not published) Proposed Rule
 - Draft (not published) Final Rule
 - Draft Federal Register Notice
 - Justification for a No Material/Non-substantive Change (former 83C document)
 - Supplementary Documents
 - Public Comments
4. ICR Certification (back of the former 83I document) signifying adherence to provisions of the PRA

While working on the Current ICR package on the 'Edit ICR' page, use the 'ICR Package' and 'History' icons to navigate to the different sections of the package.

Note: At any time before submitting the ICR request, an Authorized Paperwork Contact (APC) can lock the request, preventing all users from making edits until it is unlocked.

Figure 38: 'Edit ICR' Page: 'Brief' Section

Completing the Fields on the EDIT ICR Page

These instructions should be used in conjunction with 5 CFR 1320, which provides information on coverage, definitions, and other procedural and interpretive matters under the Paperwork Reduction Act of 1995.

Note: DO NOT enter any Personally Identifiable Information (PII) into ROCIS. This includes data entered in ROCIS fields and the content of documents uploaded to ROCIS. Essentially, all ICR data entered, and documents uploaded to ROCIS, are displayed on Reginfo.gov, which is a public-facing website.

‘Brief’ Section

‘Agency’: The four-digit agency code for the agency or sub-agency originating the request is displayed. For most cabinet-level agencies, a sub-agency designation is also displayed. For non-cabinet agencies, the sub-agency designation is generally unassigned.

‘OMB Control Number’: If the Information Collection in this request has been assigned an OMB Control Number previously, the OMB Control Number will be displayed. If the Information Collection in this request has not been assigned an OMB Control Number, the field will remain blank until an OMB Control Number is assigned upon OIRA's conclusion of the review. The OMB Control Number format is: 0123-0001.

- 0123 = Agency/Sub-agency code
- 0001 = 4-digit sequential number assigned per request

‘Agency Tracking Number’: This field is used by agencies to distinguish ICRs. For instance, agencies without sub-agency codes can use the Agency Tracking Number to identify ICRs by division, branch, or individuals. This field may be used as criterion for an advanced search. ‘ICR Reference Number’ and ‘Previous ICR Reference Number’ The ICR Reference Number is assigned by the ROCIS system at ICR creation.

The ICR Reference Number format is: YYYYMM-0123-001

- YYYYMM – the year and month of origin
- 0123 = Agency/Sub-agency code
- 001 = 3-digit sequential number assigned per creation per month

‘Title’: Enter the official title of the Information Collection Request. If an official title does not exist, provide a description that will distinguish the ICR and enable text searches on titles.

Note: There is a 200-character limit.

‘Type of Information Collection’ (select one option from the drop-down menu):

- Select the **‘New Collection’** option when the collection has not previously been used or sponsored by the agency.
- Select the **‘Revision’** option when the collection is currently approved by OMB, and the agency request includes a material change to the collection instrument, instructions, its frequency of collection, or the use of the information.
- Select the **‘Extension’** option when the collection is currently approved by OMB, and the agency wishes only to extend the approval past the current expiration date without making any material change in the collection instrument, instructions, frequency of collection, or of the information.
- Select the **‘Reinstatement without Change’** option when the collection previously had OMB approval, but the approval expired or was discontinued before this submission was made, and there is no change to the collection.
- Select the **‘Reinstatement with Change’** option when the collection previously had OMB approval, but the approval expired or was discontinued before this submission was made, and there is some change to the collection.
- Select the **‘Existing Collection in use without OMB Control Number’** option when the collection is currently in use but does not have an OMB Control Number.
- Select the **‘Nonmaterial/Non-substantive Change’** option to perform the function of the former 83C Change Sheet. Upload the explanation of the requested change in

Supplemental Documents and be sure to select the Document Type 'Justification' option.

'Type of Review Requested' (select one option from the drop-down menu):

- Select the **'Regular'** option when the collection is submitted under 5 CFR 1320.10, 1320.11, or 1320.12 with a standard 60-day review schedule.
- Select the **'Emergency'** option when the agency needs to submit the request under 5 CFR 1320.13 for emergency processing and provides the required supporting material. Provide the date by which the agency requests approval and the justification in the text box presented upon selection of the Emergency option.
- Select the **'Delegated'** option when the agency is submitting the collection under the delegated authority conditions OMB has granted the agency.

'Requested Expiration Date' (select one option from the drop-down menu):

- Select the **'Three Years'** option if the agency requests three-year approval for the collection.
- Select the **'Other'** option if the agency requests approval for less than three years.
 - Specify the month and year of the requested expiration date.
 - The maximum request for an Emergency ICR is 6 months.

'Does this ICR contain surveys, censuses, or employ statistical methods?'

- Select the 'Yes' radio button if the Information Collection uses statistical methods such as sampling or imputation. Generally, select the 'No' radio button for applications and audits (unless a random auditing scheme is used).
- Select the 'Yes' radio button for statistical collections, most research collections, and program evaluations using scientific methods. For other types of data collection, the use of sampling, imputation, or other statistical estimation techniques should dictate the response for this item. If the 'Yes' radio button is selected, ensure that Supporting Statement B is provided on the 'Manage ICR Documents' page.

'Does this ICR request any Personally Identifiable Information (PII)?'

Consult with the agency's privacy program when making this determination. If you select the 'Yes' radio button, address it in 'Supporting Statement A'. To learn more about PII, click the 'OMB Circular No. A-130' link.

'Does this ICR include a form that requires a Privacy Act Statement?'

Consult with your agency's privacy program when making this determination. If you select the 'Yes' radio button, address it in 'Supporting Statement A'. To learn more about Privacy Act Statements, click the '5 U.S.C. § 552a(e)(3)' link.

'Is this ICR related to the Pandemic Response?'

If this ICR is related to the [COVID-19] Pandemic Response, select the 'Yes' radio button. Otherwise, select the 'No' radio button.

'Is this ICR related to the Affordable Care Act? [PPACA, P.L. 111-148 & 111-152]'

If this ICR is related to the Affordable Care Act, select the 'Yes' radio button. Otherwise, select the 'No' radio button.

‘Is this ICR related to the Affordable Dodd-Frank Act?’ [Dodd-Frank Wall Street Reform and Consumer Protection Act, P.L. 111-203] If this ICR is related to the Dodd-Frank Act, select the ‘Yes’ radio button. Otherwise, select the ‘No’ radio button.

‘Is this ICR related to the American Recovery and Reinvestment Act of 2009? (ARRA)’
If this ICR is related to the ARRA, select the ‘Yes’ radio button. Otherwise, select the ‘No’ radio button.

‘Agency Contact’

The Agency Contact is the person who will be able to answer questions regarding the content of this submission. This name is published on the Reginfo.gov website, so consider using the agency’s Clearance Officer’s name.

The ‘Agency Contact’ drop-down menu lists people who were previously included as Agency Contacts. If the user’s name is in the drop-down menu, select it. If the user’s name is not in the drop-down menu, you will need to add the individual as an Agency Contact. To do that, click the ‘Add New Contact’ button.

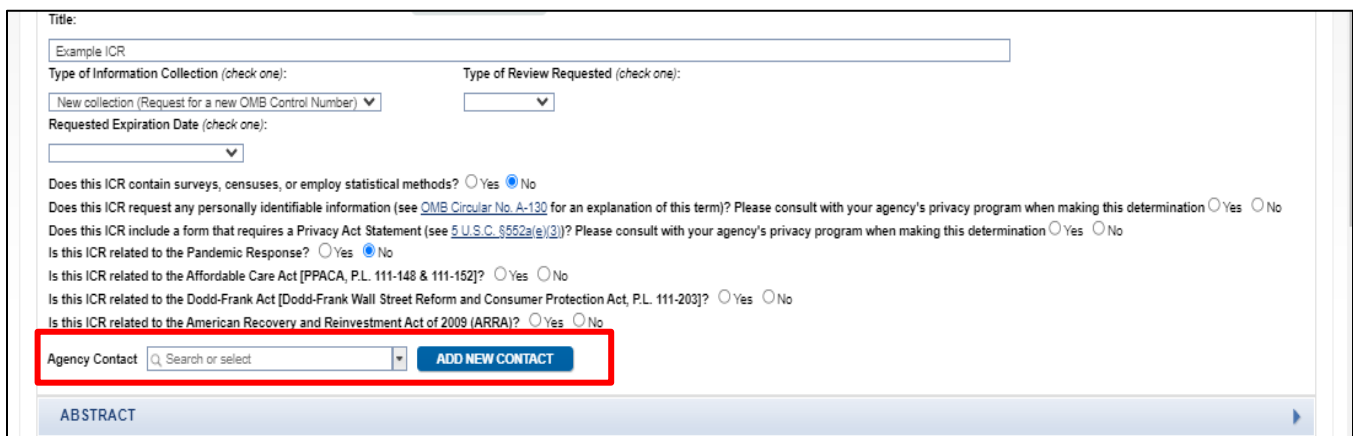

The image is a screenshot of a web form titled "Edit ICR". At the top, there is a "Title:" field with the placeholder text "Example ICR". Below this, there are two sections: "Type of Information Collection (check one):" with a dropdown menu showing "New collection (Request for a new OMB Control Number)", and "Type of Review Requested (check one):" with an empty dropdown menu. Below these is a "Requested Expiration Date (check one):" dropdown menu. The form then contains several yes/no questions with radio buttons: "Does this ICR contain surveys, censuses, or employ statistical methods?" (No selected), "Does this ICR request any personally identifiable information (see OMB Circular No. A-130 for an explanation of this term)? Please consult with your agency's privacy program when making this determination" (No selected), "Does this ICR include a form that requires a Privacy Act Statement (see 5 U.S.C. §552a(e)(3))? Please consult with your agency's privacy program when making this determination" (No selected), "Is this ICR related to the Pandemic Response?" (No selected), "Is this ICR related to the Affordable Care Act [PPACA, P.L. 111-148 & 111-152]?" (No selected), "Is this ICR related to the Dodd-Frank Act [Dodd-Frank Wall Street Reform and Consumer Protection Act, P.L. 111-203]?" (No selected), and "Is this ICR related to the American Recovery and Reinvestment Act of 2009 (ARRA)?" (No selected). At the bottom of the form, there is an "Agency Contact" dropdown menu with a search icon and the text "Search or select", and a blue button labeled "ADD NEW CONTACT". A red rectangle highlights the "Agency Contact" dropdown menu and the "ADD NEW CONTACT" button. At the very bottom of the form, there is a tab labeled "ABSTRACT".

Figure 39: ‘Edit ICR’ Page: ‘Agency Contact’ Drop-down Menu and ‘Add New Contact’ Button

The system will navigate to the 'ROCIS Contact Administration' page. Enter the last name of the individual that you want to add, and then click the 'Search' button. The search result table will include all matching agency contacts in the Agenda Module, the Agenda/Regs Module, the Regulatory Accounting Module, the PRA Module, and the Privacy Module.

If the name of the person that you want to add as an agency contact is in the search results table, click on the link in the 'Name' column.

The screenshot shows the ROCIS Contact Administration page. At the top, there's a header with 'ROCIS.GOV Training' and a login field. Below the header is a navigation bar with tabs for 'HOME', 'PAPERWORK REDUCTION ACT (PRA)', 'ADMINISTRATION', 'USER GUIDES', 'CONTACT US', and 'HELP'. The 'ADMINISTRATION' tab is active, and the 'Employee Admin' sub-tab is selected. The main content area is titled 'ROCIS Contact Administration'. It features a search form with a 'Last Name' field containing 'Fungi', a 'SEARCH' button, and a 'CANCEL' button. Below the search form, there's a note: 'Note: In order to add a new contact you must first search on the Last Name.' and a warning: 'Please ensure that the contact you want to create is not one of the existing contacts displayed below.' Below the warning are 'ADD' and 'CANCEL' buttons. The search results are displayed in a table with columns: Agency, Name, Phone Number, Email, and Emp No. The table shows three entries for 'Fungi' from '0900 HHS'. The 'Name' column contains links: 'Fungi_Ura', 'Fungi_Nota', and 'Fungi_Ima'. The 'Name' column is highlighted with a red box. At the bottom of the table, it says 'Showing 1 to 3 of 3 entries' and has pagination controls: 'First', 'Previous', '1', 'Next', 'Last'.

Agency	Name	Phone Number	Email	Emp No
0900 HHS	Fungi_Ura	555 555-5555		445049
0900 HHS	Fungi_Nota	555 555-5555		447581
0900 HHS	Fungi_Ima	555 555-5555		447582

Figure 40: 'ROCIS Contact Administration' Page: 'Search' Results Table

On the 'Edit Contact Detail' page, the 'Regulatory Accounting Contact' checkbox and the 'Active' radio button will be automatically selected. Click the 'Save' button, and the system will navigate to the 'Edit Regulatory Accounting Request' page.

Figure 42: 'ROCIS Contact Administration' Page with 'Add' Button

On the 'New Contact Detail' page, enter all the required information indicated by an asterisk (*). Although entering the 'Email' field is not required, it is highly recommended.

Select the appropriate agency and, if applicable, sub-agency. This is a crucial decision if the user is affiliated with a cabinet agency (except the VA) or EPA. These agencies have an agency-level code that ends in '00' and includes several sub-agencies. If the agency contact is associated only with the agency code, they will display in the 'Agency Contact' drop-down menu for the agency and all its sub-agencies. If they are associated with a sub-agency, they will only be displayed in the 'Agency Contact' drop-down menu for that sub-agency.

Click the 'Create Contact' button and in the 'Confirm' pop-up window, click the 'Ok' button to confirm the addition. The new agency contact will be saved, and the system will navigate to the 'Edit ICR' page.

Figure 43: 'New Contact Detail' Page with 'Create Contact' Button

‘Abstract’ Section

Provide a statement, limited to 4,000 characters, explaining the agency's need for the information, its use, and a brief description of the respondents. You may want to include keywords (descriptors) from the "Federal Register Thesaurus of Indexing Terms" that describe the subject area(s) of the Information Collection in the title and abstract.

The screenshot displays the 'Edit ICR' page within the ROCIS.GOV Training interface. The page header includes the ROCIS.GOV logo, a login status for 'rootstrainer', and a 'LOGOUT' link. A navigation bar at the top contains links for HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, USER GUIDES, CONTACT US, and HELP. Below this, a secondary navigation bar shows icons for INBOX, REQUEST, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. The main content area is titled 'Edit ICR' and includes a breadcrumb trail: Home > Paperwork Reduction Act (PRA) > ICR Package > Current ICR Package > ICR Data. The page features several expandable sections: BRIEF, ABSTRACT, LEGAL STATUTES, RULEMAKING, FR NOTICES / COMMENTS, IC LIST, and BURDEN. The 'ABSTRACT' section is currently expanded, showing a text input field with the placeholder text 'Information about collection here...'. Below the input field, there are buttons for CHECK SPELLING, IC LIST, AGENCY REVIEW, SAVE, CHECK FOR COMPLETENESS, LOCK, SUBMIT, DELETE, CANCEL, and PRINT TO PDF.

Figure 44: ‘Edit ICR’ Page: ‘Abstract’ Section

'Legal Statutes' Section

Provide the statute that is the source of the ICR or the source of the associated rulemaking, whichever is more appropriate. If neither is appropriate, provide the authorizing statute for the program or for the agency or leave the field blank. Add additional legal statutes by clicking the 'Add Another Authorizing Statute' button.

The screenshot shows the 'Edit ICR' page in the CIS.GOV Training system. The page has a top navigation bar with links for HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, USER GUIDES, CONTACT US, and HELP. Below this is a secondary navigation bar with icons for INBOX, REQUEST, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. The main content area is titled 'Edit ICR' and includes links for 'Edit Information Collection (IC) List', 'Add/Edit Supporting Statement and Other Documents', and 'Collapse All'. The 'LEGAL STATUTES' section is highlighted with a red box. It contains a dropdown menu for 'Authorizing Statute(s)', a 'REMOVE' button, and an 'ADD ANOTHER AUTHORIZING STATUTE' button. Below this section are other expandable sections: RULEMAKING, FR NOTICES / COMMENTS, IC LIST, and BURDEN. At the bottom of the page are buttons for CHECK SPELLING, IC LIST, AGENCY REVIEW, SAVE, CHECK FOR COMPLETENESS, LOCK, SUBMIT, DELETE, CANCEL, and PRINT TO PDF.

Figure 45: 'Edit ICR' Page: 'Legal Statutes' Section

'Rulemaking' Section

Select either the 'Proposed Rule', 'Interim Final or Final Rule', or 'Not Associated with Rulemaking' radio button. Click the checkbox for the 'Other Documents for OIRA Review' option, if the ICR involves a guidance document. For more information on Guidance Documents, refer to the [OMB Memo on Good Guidance Practices](#).

If the ICR is associated with a current rulemaking, populate the 'RIN', the 'Federal Register Citation', and the 'Citation Date' text boxes. For a proposed rule, OMB will not consider an ICR complete until the Notice of Proposed Rulemaking has been published.

If the rule has not been published yet, check the appropriate stage of rulemaking option and upload the draft rule on the 'Manage ICR Documents' page. Be sure to select the 'Proposed Rule' or 'Final Rule' option in the 'Document Type' drop-down menu. For ICRs associated with Interim Final Rules that are not significant under EO 12866, upload a draft of the Federal Register Notice. More information on uploading documents can be found in the [Uploading ICR Documents](#) section.

An ICR associated with a final rule can be submitted for regular review without 60-day or 30-day notices if a previous ICR under the same OMB Control Number for the same RIN was concluded as a Comment Filed on the proposed rule.

The screenshot displays the 'Edit ICR' page within the ROCIS.PRA system. The page features a navigation bar with links for HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, USER GUIDES, CONTACT US, and HELP. Below the navigation bar, there are tabs for INBOX, REQUEST, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. The main content area is titled 'Edit ICR' and includes a sub-header 'Edit Information Collection (IC) List' and 'Add/Edit Supporting Statement and Other Documents'. A list of categories (BRIEF, ABSTRACT, LEGAL STATUTES, RULEMAKING) is shown on the left. The 'RULEMAKING' section is highlighted with a red box and contains the following information:

Associated Rulemaking Information

RIN:
[View RIN](#)

Stage of Rulemaking (check one):

- ☐ Proposed Rule
- ☐ Interim Final or Final Rule
- ☒ Not associated with rulemaking
- ☐ Other Documents for OIRA Review

For a Proposed Rule, OMB will not consider an ICR complete until the Notice of Proposed Rulemaking has been published.
For ICRs associated with Interim Final rules that are not significant under EO, please upload a draft of the Federal Register notice as a Supplementary Document in the Manage ICR Documents Section.

Below the rulemaking section, there are links for FR NOTICES / COMMENTS, IC LIST, and BURDEN. At the bottom of the page, there are buttons for CHECK SPELLING, IC LIST, AGENCY REVIEW, SAVE, CHECK FOR COMPLETENESS, LOCK, SUBMIT, DELETE, CANCEL, and PRINT TO PDF.

Figure 46: 'Edit ICR' Page: 'Rulemaking' Section

‘Federal Register Notices/Comments’ Section: In the appropriate text boxes, enter the ‘Federal Register Citation’ and ‘Citation Date’ of the 60- and 30-day notices for the ICR. You do not need to provide a copy of the FR Notice. However, if you wish to provide a draft Federal Register Notice for a request for an Emergency ICR, for instance, upload it on the ‘Manage ICR Documents’ page. Be sure to clearly indicate that the document is a draft Federal Register Notice. Unless the request is submitted as an ‘Emergency’ or ‘Associated with Rulemaking’ request, OMB will not consider an ICR complete without the 30-day Federal Register Notice Citation.

‘Did the Agency receive public comments on this ICR?’: If comments were not received, select the ‘No’ radio button. If comments have been received, select the ‘Yes’ radio button. The user can summarize the public comments received and describe the agency actions taken in response to these comments in the ‘Supporting Statement A’ document.

Specifically address comments received on cost and hour burden. Describe efforts to consult with people outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported. Consultation with representatives of those from whom information is to be obtained or from those who must compile records should occur at least once every 3 years - even if the collection of information activity is the same as in prior periods. There may be circumstances that preclude consultation in a specific situation. These circumstances should be explained.

Public comments may be uploaded on the ‘Manage ICR Documents’ page, especially if the comments are not available through the Federal Docket Management System (FDMS) or other electronic means that can be made available to the OIRA Desk Officer. Comments received by OIRA in response to the 30-day notice will be uploaded to ROCIS by OIRA. Refer to the [Uploading ICR Documents](#) section for information on uploading comments. When providing multiple comments, it is adequate to provide a representative comment document.

The screenshot displays the 'Edit ICR' page in the ROCIS.GOV system. The page is titled 'Edit ICR' and includes a navigation bar with links to 'HOME', 'PAPERWORK REDUCTION ACT (PRA)', 'ADMINISTRATION', 'USER GUIDES', 'CONTACT US', and 'HELP'. Below the navigation bar, there are tabs for 'INBOX', 'REQUEST', 'ICR PACKAGE', 'RCF PACKAGE', 'HISTORY', 'SEARCH', and 'REPORT'. The 'ICR PACKAGE' tab is selected, and the 'Current ICR Package' is displayed. The 'FR Notices / Comments' section is highlighted with a red box. This section contains the following fields:

- BRIEF**
- ABSTRACT**
- LEGAL STATUTES**
- RULEMAKING**
- FR NOTICES / COMMENTS** (highlighted with a red box)
 - Federal Register Notices & Comments**
 - 60-day Notice:** Federal Register Citation: [] FR [] Citation Date: []
 - 30-day Notice:** Federal Register Citation: [] FR [] Citation Date: []
 - Did the Agency receive public comments on this ICR?**
 - ☐ Yes
 - ☒ No
 - Unless submitted as an Emergency or Associated with Rulemaking, OMB will not consider an ICR complete until the 30-day notice has been published.
 - Annual Cost to Federal Government:** \$ []
- IC LIST**
- BURDEN**

At the bottom of the page, there are buttons for 'CHECK SPELLING', 'IC LIST', 'AGENCY REVIEW', 'SAVE', 'CHECK FOR COMPLETENESS', 'LOCK', 'SUBMIT', 'DELETE', 'CANCEL', and 'PRINT TO PDF'.

Figure 47: ‘Edit ICR’ Page: ‘FR Notices/ Comments’ Section

‘Annual Cost to Federal Government’: Provide the estimated annualized cost to the Federal government, if any, for implementing the collection in the ‘Annual Cost to Federal Government’ text box. In the ‘Supporting Statement A’ document, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expense that would not have been incurred without this collection of information. Do not use commas or a dollar (\$) sign in the text box.

If the ICR is a Common Form Host ICR, include only costs incurred by the Host Agency. Other agencies who use the Common Form will submit their own costs for collecting the information.

The screenshot shows the 'Edit ICR' page in the ROCIS.GOV Training system. The page has a header with the ROCIS.GOV logo and navigation tabs. The main content area includes sections for 'BRIEF', 'ABSTRACT', 'LEGAL STATUTES', 'RULEMAKING', and 'FR NOTICES / COMMENTS'. The 'FR NOTICES / COMMENTS' section contains form fields for '60-day Notice' and '30-day Notice', including 'Federal Register Citation' and 'Citation Date'. A red box highlights the 'Annual Cost to Federal Government' text box, which is currently empty. The page also includes a sidebar with expandable sections and a bottom bar with buttons for 'CHECK SPELLING', 'IC LIST', 'AGENCY REVIEW', 'SAVE', 'CHECK FOR COMPLETENESS', 'LOCK', 'SUBMIT', 'DELETE', 'CANCEL', and 'PRINT TO PDF'.

Figure 48: ‘Edit ICR’ Page: ‘Annual Cost to Federal Government’ Text Box

'IC List' Section

An Information Collection (IC) is a set of information collected by an agency that is associated with a given affected public, obligation to respond, and line of business. The set of information may be defined by the instrument (e.g., a form), an activity (e.g., loans, filing taxes), or any other logical grouping determined by the agency, and will provide explicit burden estimates for the affected public, the obligation to respond, and the line of business.

To add or edit an IC, the user must navigate to the 'Add/Edit Information Collection' page. There are different ways to navigate to the page:

- Click the number "0" in the 'IC List' section on the 'Edit ICR' page.
- Click the 'IC List' button at the bottom of the 'Edit ICR' page.
- Click the 'Edit Information Collection (IC) List' link at the top of the 'Edit ICR' page.
- Hover over the 'ICR Package' icon and hover over the 'Current ICR Package' option. Click the 'IC List' option from the drop-down menu.

The screenshot shows the 'Edit ICR' page with a navigation bar at the top containing links like HOME, AGENDA/REGS, AGENDA REVIEW, REGULATORY ACCOUNTING, PAPERWORK REDUCTION ACT (PRA), PRIVACY, ADMINISTRATION, CONTACT US, USER GUIDES, and HELP. Below the navigation bar is a sub-navigation bar with links like INBOX, OIRA INBOX, REQUEST, OIRA WORKSHEET, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. The main content area is titled 'Edit ICR' and includes a link 'Edit Information Collection (IC) List'. Below this is a table with columns 'IC Title', 'Form No.', and 'Form Name'. The table contains one row with the value 'IC Example'. The 'IC List' section is highlighted with a red box. At the bottom of the page are buttons for 'CHECK SPELLING', 'IC LIST', 'AGENCY REVIEW', 'SAVE', 'CHECK FOR COMPLETENESS', 'LOCK', 'SUBMIT', 'DELETE', 'CANCEL', and 'PRINT TO PDF'.

Figure 49: 'Edit ICR' Page: 'IC List' Section

Creating an Information Collection

On the 'Add/Edit Information Collections' page, click the 'Add IC' button.

The screenshot shows the 'Add/Edit Information Collections' page with a navigation bar at the top containing links like HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, USER GUIDES, CONTACT US, and HELP. Below the navigation bar is a sub-navigation bar with links like INBOX, REQUEST, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. The main content area is titled 'Add/Edit Information Collections' and includes a table with columns 'Remove', 'Duplicate', 'IC Title', 'Status', 'Responses', 'Hours', 'Dollars', 'Document Type', 'Form No.', and 'Form Name'. The table is empty. Below the table is a button labeled 'ADD IC', which is highlighted with a red box. At the bottom of the page is a link 'To edit an IC, click on IC Title.'

Figure 50: 'Add/Edit Information Collections' Page with 'Add IC' Button

If editing a previously approved IC, click the 'Remove' radio button to remove it from the current ICR (it shows as 'Removed' until the next ICR for the same OMB Control Number is created).

Click the 'Duplicate' radio button to copy the desired IC (including data, instruments, and documents) to a new IC in the same ICR.

To edit an IC, click on IC Title.

ADD IC

Figure 51: 'Add/Edit Information Collections' Page with 'Remove' and 'Duplicate' Radio Buttons

On the 'Edit IC' page, the IC must have one of each of the following:

- 'Obligation to Respond'
- 'Affected Public'
- 'Line of Business'

If there is more than one value of any of these for the ICR, separate ICs will be required. For example, if the information is collected from 'State and Local Governments' and 'Individuals or Households', one IC must be created for each. For more information, refer to [Appendix A](#) of this document.

Completing the Fields of the 'Add/Edit IC' Page

'IC Title': Create the IC title with potential text search in mind.

'Agency IC Tracking Number': This field can provide the IT investment number (Exhibit 300 ITBRS number) when an information system is associated with the ICR.

'Is this a Common Form?': ROCIS will populate this field; no entry by the agency is required.

'IC Status': ROCIS will populate this field; no entry by the agency is required.

'Obligation to Respond': The options include 'Mandatory', 'Required to Obtain Benefits', or 'Voluntary'. Select the category that applies to the IC. If more than one category applies, you will need to create an IC for each affected category to account for the burden associated with that category.

- Select the 'Voluntary' option from the drop-down menu when the response is entirely discretionary and has no direct effect on any benefit or privilege for the respondent.
- Select the 'Required' option from the drop-down menu to obtain or retain benefits option when the response is elective but is required to obtain or retain a benefit.
- Select the 'Mandatory' option from the drop-down menu when the respondent must reply or face civil or criminal sanctions.

Edit IC

IC Title:

Agency IC Tracking Number:

Is this a Common Form? No

Obligation to Respond:

IC Status: Unchanged

Figure 52: 'Edit IC' Page

For each IC, either a CFR Citation or an ICI must be provided.

‘CFR Citation’: Enter the CFR Citation in the text box if the Information Collection has no form or survey and is required by statute or regulation. To identify the regulation that is the basis for collecting the information, enter the appropriate CFR Citation. Multiple CFR Citations can be entered for a single IC. Add as many CFR Citations as necessary by clicking on the ‘Add Another CFR Citation’ button.

‘Information Collection Instruments’: An instrument is the mechanism for collecting information. The most obvious and easily identified type of instrument is a paper or electronic form or a survey, but it may be a web-based application, a telephone script, or any other means used to collect the information.

If forms were recorded in the original ICR, they were migrated to the copied ICR. However, you will need to open the Instrument File by clicking on the link in the ‘Instrument File’ column in the Information Collection Instruments’ section to upload the current form, survey, or other instrument that is applicable to the IC. An IC may have multiple instruments. To remove the ICI, click on the ‘Remove’ checkbox and click the ‘Remove’ button.

The screenshot shows the 'Edit IC' page. At the top, there is a 'CFR Citation' section with a table that has columns for 'Title', 'CFR', 'Part', and 'Operation'. Below this table is a red-bordered button labeled 'ADD ANOTHER CFR CITATION'. Below that is the 'Information Collection Instruments' section, which contains a table with columns: 'Remove', 'Document Type', 'Form No.', 'Form Name', 'Instrument File', 'URL', 'Available Electronically?', 'Can Be Submitted Electronically?', and 'Electronic Capability'. Below this table are two buttons: 'REMOVE' (highlighted with a red box) and 'ADD INSTRUMENT'.

Figure 53: ‘Edit IC’ Page: ‘CFR Citation’ and ‘Information Collections Instruments’ Sections

How to Add a Collection Instrument

To add a new instrument, click the ‘Add Instrument’ button on the ‘Edit IC’ page, and a pop-up window will display.

This screenshot is identical to Figure 53, showing the 'Edit IC' page. The 'ADD INSTRUMENT' button at the bottom of the 'Information Collection Instruments' section is highlighted with a red box.

Figure 54: ‘Edit IC’ Page with ‘Add Instrument’ Button

On the 'Add/Edit IC Instrument' pop-up window, click the 'Choose File' button. To upload the file, locate the file on the computer, click the 'Open' button, and click the 'Upload' button.

Select a type from the 'Document Type' drop-down menu.

Note: If the form does not have a form number, enter N/A.

'Is this collection available electronically?': If the form is available online via computer or mobile device (fax is considered non-electronic), select the 'Yes' radio button and answer the next question. If not, select the 'No' radio button and do not answer the next question.

'If yes, can this collection be submitted electronically?': If the form can be submitted online via a computer or mobile device (fax is considered non-electronic), select the 'Yes' radio button. If not, select the 'No' radio button.

'Electronic capability': Select the appropriate option from the drop-down menu:

- 'Fillable Fileable': Can be filled in and submitted electronically.
- 'Fillable Printable': A fillable PDF that is filled, printed, signed, and then submitted non-electronically; fax is considered non-electronic.
- 'Fillable Fileable Signable': Can be filled in and submitted online, but adds identity verification, like a Digital Signature, and Personal knowledge (from a prior submission).
- 'Paper Only': ex. They would have to pick up a paper at a location and fill it out.
- 'Printable Only': The form is online, print it, fill it out, and submit it non-electronically.

'URL': If the form is available online, the URL should point to the location of your agency's Forms page, not the actual form since it has not yet been approved. If you do not have a forms page or similar page or do not know the location of the form yet, you can leave the field blank.

Click the 'Save' button to save the information and click the 'Ok' button on the 'Save IC Instrument' pop-up window. Click the 'Close' button to exit the pop-up window.

The screenshot shows a web-based form titled "Add/Edit IC Instrument". At the top, it displays the "Instrument Filename" as "PRAgency Preamble Document 2 for Training.docx" next to a "Choose File" button and the text "No file chosen". Below this is a blue "UPLOAD" button. The "Document Type:" is set to "Form and Instruction" in a dropdown menu. There are input fields for "Form Number:" and "Form Name:". The "Form File Size:" is listed as "12322 bytes". Two sets of radio buttons are present: "Is this collection available electronically?" (Yes/No) and "If yes, can this collection be submitted electronically?" (Yes/No). Below these is a dropdown for "Electronic Capability:" and a text field for "URL:". At the bottom right are "SAVE" and "CLOSE" buttons.

Figure 55: 'Add/Edit IC Instrument' Pop-up Window

Just as it is possible to list multiple CFR Citations for an IC, it is possible that an IC will have multiple Information Collection Instruments (ICIs), such as an electronic and a paper version of the same collection, or versions in more than one language.

‘Line of Business and Sub-function’: The line of business refers to the federal government’s lines of business in services to citizens and management of governmental resources affecting citizens, as defined by the Federal Enterprise Architecture Business Reference Model.

The Business Reference Model is a function-driven framework for describing the business operations of the federal government, independent of the agencies that perform them. The Business Reference Model lines of business provide a way to identify “government-wide common solutions for improved service to citizens.”

If an IT investment/system is related to an Information Collection, the line of business should be the one used by the agency to justify the IT investment in its Exhibit 300. If there is no system, use the line-of-business definition that most accurately reflects the collection’s business.

Because lines of business functionally cross organizations, assigning lines of business to ICs will also enable the identification of potential opportunities for merged and/or Common Forms and reduced burden.

‘Privacy Act System of Records Title’ and ‘FR Citation’: Enter the name of the SORN and then enter the FR Citation for the SORN, if applicable.

‘Number of Respondents’: This is the basis for the burden number calculated by ROCIS on the Burden Worksheet.

‘Number of Respondents for Small Entity’: Indicate the number of small entity respondents upon which the Information Collection will have a significant impact. A small entity may be (1) a small business which is deemed to be one that is independently owned and operated and that is not dominant in its field of operation; (2) a small organization that is any not-for-profit enterprise that is independently owned and operated and is not dominant in its field; or (3) a small government jurisdiction which is a government of a city, county, town, township, school district, or special district with a population of less than 50,000.

‘Affected Public’: Select one from the following options: ‘Federal Government’, ‘Households and Individuals’, ‘Private Sector’, and ‘State and Local Governments’. You may select one option per IC. If you select ‘Private Sector’, you will be presented with another set of options to select from: ‘Private Sector’, ‘Farms’, and ‘Not-for-Profit Institutions’. You may select more than one of them. No IC may have more than one affected public value. If more than one public is affected, a separate IC will be required for each of the four primary values listed above.

‘Percentage of Respondents Reporting Electronically’: Enter the estimated percentage of responses that will be submitted/collected electronically using electronic means, such as electronic mail or web-based transaction. **A fax is considered non-electronic.**

How to Calculate Burden If There is No Change for the Revision/Extension

ROCIS will populate the burden for Revisions/Extensions from the approved OMB burden-hour inventory. For requests for new OMB Control Numbers or Reinstatements, the current inventory is zero (0).

Note: No numbers may be changed on this page; instead, use the 'IC Burden Worksheet'.

If there is no change in burden for the revision or extension, click the 'This ICR Requests No Change in Net Burden' link to review the burden and its distribution among the three categories, and to enter the frequency of reporting if necessary.

On the 'IC Burden Worksheet' Short Form pop-up window, complete the following fields:

'Frequency of Reporting': You may select multiple options; this field does not affect calculations.

'Reporting': Enter the burden for Information Collections that involve reporting and select the frequency of reporting that is requested or required of a respondent. If the reporting is event-based, select the 'On Occasion' option.

'Recordkeeping': Enter the burden if the IC explicitly includes a recordkeeping requirement.

'Third-party Disclosure': Enter the burden if an IC includes third-party disclosure requirements as defined by 1320.3(c).

Click the 'Save' button and click the 'Ok' button on the 'Confirm' pop-up window.

How to Calculate Burden If There is a Change for the Revision/Extension

To request new burden or to change burden, select the 'This ICR Requests a Change in Burden' link. ROCIS will populate the 'Number of Respondents' field.

Enter the 'Number of Responses per Respondent' and select the 'per Time Period' from the drop-down menu of frequency options. ROCIS will calculate the 'Annual Frequency' and the 'Annual Number of Responses' based on your selection.

Note: please do NOT use commas in numeric input fields.

Number of Respondents: 1000

Number of Responses per Respondent: per Time Period:

Annual Frequency: 4.0 Annual Number of Responses: 4000

Type of Collection and Burden

Burden per Response:

	Time Per Response	Hours	Cost Per Response
Reporting	5 Minutes [60 per hour]	0.083333333333333	0.4
Record Keeping	15 Minutes [60 per hour]	0.25	1.5
Third Party Disclosure	0	0	0
Total		0.33	1.90

Frequency of Reporting:

☐ Biennially ☐ Daily
☐ Decade ☐ Hourly
☐ Monthly ☐ On occasion
☐ Once ☒ Quarterly
☐ Semi-annually ☐ Weekly
☒ Annually

Annual Burden:

	Annual Time Burden (Hours)	Annual Cost Burden (Dollars)
Reporting	333.33	1,600
Record Keeping	1000	6,000
Third Party Disclosure	0	0
Total	1333	7600

Annual Responses and Burden with Changes:

	Requested	Program Change Due to New Statute	Program Change Due to Agency Discretion	Change Due to Adjustment in Agency Estimate	Change Due to Potential Violation of the PRA	Previously Approved

Annual IC Cost Burden (Dollars)	7600	0	0	0	0	7600

SAVE **CLOSE**

Note: please do NOT use commas in numeric input fields.

Figure 60: 'IC Burden Worksheet' Pop-up Window

'Time Per Response Table': Enter the 'Time per Response' in seconds, minutes, or hours using the drop-down menu for the Reporting, Record Keeping, and/or Third-Party Disclosure, and ROCIS will calculate the hours and Annual Time Burden for each category and summarize the total in the Annual Responses and Burden with Changes summary table.

'Reporting': Enter the burden for Information Collections that involve reporting and select the 'Frequency of Reporting' option that is requested or required of a respondent. If the reporting is event-based, select the 'On occasion' option.

'Recordkeeping': Enter the burden if the IC explicitly includes a recordkeeping requirement.

Third Party Disclosure: Enter the burden if an IC includes third-party disclosure requirements as defined by 1320.3(c).

If any of the burden time is allocated to the reporting category, a 'Frequency of Reporting' schedule will display next to the 'Burden Per Response' checkbox. You may select multiple options. The 'Frequency of Reporting' selections do not affect burden calculations.

Note regarding hour burden estimation: Unless directed, agencies should not conduct special surveys to obtain information to support hour burden estimates. Consultation with a sample of potential respondents (fewer than 10) is desirable. Generally, estimates should not include burden hours for customary and usual business practices.

Also, if appropriate, enter the estimated 'Cost per Response', and ROCIS will calculate the 'Annual Cost Burden' for each category and summarize the total in the 'Annual Responses and Burden with Changes Summary' table.

Note: On this worksheet, do not report any burden in hours as a dollar cost. The supporting statement asks for this information, but it should not be noted here.

Cost Burden includes:

- the annualized dollar cost for capital investment or start-up costs in preparation for collecting information, such as purchasing computers and software; monitoring, sampling, drilling, and testing equipment; and record storage facilities.
- recurring annual dollar amount for all respondents associated with operating or maintaining systems or purchasing services.
- total annual reporting and recordkeeping cost burden. The estimates should account for costs associated with generating, maintaining, and disclosing or providing information.

Generally, Cost Burden should not include investments or purchases made:

- to achieve regulatory compliance with requirements not associated with the Information Collection or
- for reasons other than to provide information or keep records for the government or as part of customary and usual business or private practices.

In developing cost burden estimates, agencies may consult with a small sample of respondents (fewer than 10), utilize the 60-day pre-OMB submission public comment process, and use existing economic or regulatory impact analyses associated with the rulemaking that contains the Information Collection, as appropriate.

ROCIS will display the change between the current inventory and the request in the 'Program Change Due to Agency Discretion' column or the 'Change Due to Violation of the PRA' column to identify the reasons for the change.

Annual Responses and Burden with Changes:						
	Requested	Program Change Due to New Statute	Program Change Due to Agency Discretion	Change Due to Adjustment in Agency Estimate	Change Due to Potential Violation of the PRA	Previously Approved
Annual Number of Responses for this IC	4000	0	0	0	0	4000
Annual IC Time Burden (Hour)	1333	0	0	0	0	1333
Annual IC Cost Burden (Dollars)	7600	0	0	0	0	7600

Figure 61: 'Annual Responses and Burden with Changes' Table

You may adjust the number in the diagram if a box appears around the number. To change a number, move the tab to the box where you want the new number to appear, and enter the new value. ROCIS will automatically update the Program Change Due to Agency Discretion column. The Change Due to Violation of the PRA column cannot be changed, since the number results from a reinstatement due to expiration or a request for approval for collections not in compliance with the PRA.

‘Program Change due to New Statute’: Program change results from deliberate Federal government action. All new collections and any subsequent revision of existing collections (e.g., the addition or deletion of questions) are recorded as program changes. When the ‘Program Change due to New Statute’ option is selected at the IC level, you will be prompted to provide the statute citation on the ‘Edit ICR’ page.

‘Change Due to Adjustment in Agency Estimate’: Adjustment is a change that is not the result of a deliberate Federal government action. Changes resulting from new estimates or actions not controllable by the Federal government are recorded as adjustments.

IC Burden Worksheet

Note: please do NOT use commas in numeric input fields.

You have saved the burdens of the IC in ICR 202401-0910-002.

Annual IC Cost Burden (Dollars)	7600	0	7600	0	0	0

Note: please do NOT use commas in numeric input fields.

Figure 62: ‘Annual Responses and Burden with Changes’ Table and ‘Save’ Button

When you are satisfied with the data on the burden worksheet, click the 'Save' button. After the data has been saved, the system will display a confirmation message in green. Once you are finished, you can close the pop-up window by clicking the 'Close' button, and this will return you to the 'Edit IC' page. You can save the IC by clicking the 'Save' button at the bottom of the page or continue to add ICs by repeating the process.

Check IC for Completeness

When you are done, it is helpful to have the system check the 'Edit IC' page for errors or deletions. Click the 'Check IC Completeness' button and click the 'Ok' button to confirm this action.

The screenshot displays the 'Edit IC' page with various input fields and tables. A red box highlights the 'CHECK IC COMPLETENESS' button at the bottom. A 'Confirm' pop-up window is overlaid, asking for confirmation to check the IC's completeness.

Figure 63: 'Edit IC' Page: 'Check IC Completeness' and 'Confirm' Pop-up Window

Once you click the 'OK' button, the system will check the IC for missing or erroneous areas. This includes fields and documents within each IC. Errors will be reported at the top of the page in a red box. Each error will be displayed as a link, and if you click the link, it will take you to the field or section where the error is occurring.

The screenshot shows the ROCIS.GOV Training interface. At the top, there's a header with the ROCIS.GOV logo and navigation links. Below the header, there's a breadcrumb trail: Home > Paperwork Reduction Act (PRA) > ICR Package > Current ICR Package > IC List. The main content area displays metadata for an ICR package, including OMB Control No., Agency/Sub-Agency, Request Status, ICR Ref No., Agency Tracking No., Last Event, ICR Expiration Date, Title, Last Event User, ICR Status, and Last Event Date. Below this, a red box highlights two error messages: "Number of Respondents must be a non-negative integer." and "Number of Respondents for Small Entity must be a non-negative integer." Below the red box, there's an "Edit IC" link and a form with fields for IC Title, Agency IC Tracking Number, Is this a Common Form? No, and Obligation to Respond: Voluntary.

Figure 64: Check for Completeness Error Links

Once all errors have been corrected, run the check for completeness again. If ROCIS does not find any additional errors, the system will display a 'Passes Check for Completeness' message in green.

The screenshot shows the ROCIS.GOV Training interface, similar to Figure 64. The breadcrumb trail is the same. The main content area displays the same metadata. Below the metadata, a green box highlights a message: "Passes Check for Completeness." Below the green box, there's an "Edit IC" link and the same form as in Figure 64.

Figure 65: Passes Check for Completeness Message

Once you are done running an error check for each IC, click the 'Save' button on the 'Edit IC' page and then click the 'ICR Data' button to return to the 'Edit ICR' page.

'Burden' Section

Once you have finished entering ICs, you can view the 'Summary of Burden' table for the ICR at the bottom of the 'Edit ICR' page. If changes in burden have occurred because the ICR is new or due to a revision with changes, you will be prompted to answer questions about the changes. This information will be used to draft the Information Collection Budget Report to Congress.

'Citations for New Statutory Requirements': These are required if a summary change in burden is a 'Program Change Due to a New Statute'. The options are 'US Code', 'Public Law', 'Statute at Large', or 'Executive Order'. You can add multiples of each value by clicking the 'Add Another Statutory Requirement' button.

'Burden Increases Due To': When the summary indicates changes attributed to 'Program Change Due to Agency Discretion' (increase or decrease box checked), select the 'Information Collection' budget to which the increase or decrease is attributed from the drop-down menu. The options are 'Changing Regulations' and 'Miscellaneous Actions'.

'Short Statement': When there is a change in the burden of any kind in the ICs, the system will prompt you to provide a short explanation. This is the justification that was previously provided in the supporting statement. If you need more than 4000 characters to elaborate, offer a concise explanation in the space provided and write a longer version in the supporting statement.

'Add/Edit Supporting Statement and Other Documents': This link will take you to the 'Manage ICR Documents' page so that you can upload Supporting Statement A and/or B, Supplementary documents, and comments. Refer to the [Uploading ICR Documents](#) section for more information on this process.

The screenshot displays the 'Edit ICR' page with the 'Burden' section highlighted by a red box. The page includes a navigation bar with links like HOME, REQUEST, ICR PACKAGE, and ADMINISTRATION. The 'Burden' section contains the following elements:

- ICR Summary of Burden:** A table with 7 columns: Requested, Program Change Due to New Statute, Program Change Due to Agency Discretion, Change Due to Adjustment in Agency Estimate, Change Due to Potential Violation of the PRA, and Previously Approved.
- Citations for New Statutory Requirements:** A section with a 'REMOVE' button and an 'ADD ANOTHER STATUTORY REQUIREMENT' button.
- Burden Increase Due to:** A dropdown menu with options for 'At least one IC has a burden increase because of Program Change due to Agency Discretion' and 'At least one IC has a burden decrease because of Program Change due to Agency Discretion'.
- Short Statement:** A text area for providing a short explanation of the burden change.
- Buttons:** A row of buttons at the bottom: CHECK SPELLING, IC LIST, AGENCY REVIEW, SAVE, CHECK FOR COMPLETENESS, LOCK, SUBMIT, DELETE, CANCEL, and PRINT TO PDF.

	Requested	Program Change Due to New Statute	Program Change Due to Agency Discretion	Change Due to Adjustment in Agency Estimate	Change Due to Potential Violation of the PRA	Previously Approved
Annual Number of Responses	4,000	0	4,000	0	0	0
Annual Time Burden (Hr)	1,333	0	1,333	0	0	0
Annual Cost Burden (\$)	7,600	0	7,600	0	0	0

Figure 66: 'Edit ICR' Page: 'Burden' Section

Action Buttons

The buttons at the bottom of the module pages guide your actions. Some are for navigation, some invoke special features, and some trigger system actions.

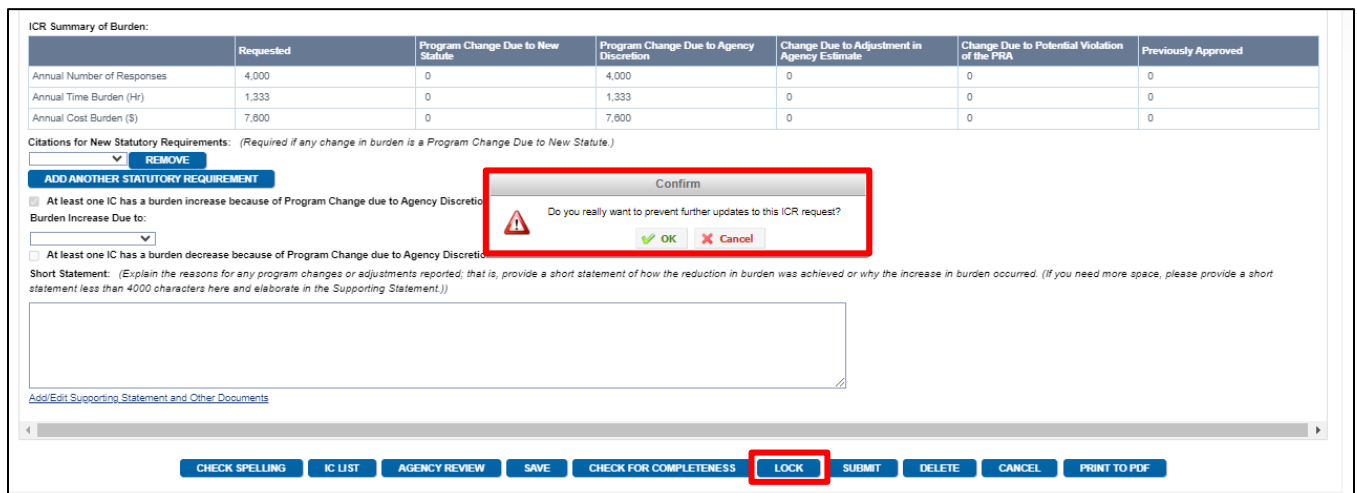

Redirect Buttons: these buttons direct the system to move the user to another section of the ICR. They include the 'IC List' and 'Agency Review' button.

Task Buttons: These buttons allow the users to perform specific tasks. These include the 'Check Spelling', 'Save', 'Check for Completeness', 'Lock', 'Submit', 'Delete', 'Cancel', and 'Print to PDF' buttons.

Figure 67: 'Edit ICR' Page: Action Buttons

Function Buttons: There are two function buttons that control the ICR's updateability: the 'Lock' and 'Unlock' buttons. If an Authorized Paperwork Contact (APC) user clicks the 'Lock' button, no other user may edit or submit the ICR until the 'Unlock' button has been clicked. The user must click the 'OK' button on 'Confirm' pop-up window to initiate the action.

ICR Summary of Burden:

	Requested	Program Change Due to New Statute	Program Change Due to Agency Discretion	Change Due to Adjustment in Agency Estimate	Change Due to Potential Violation of the PRA	Previously Approved
Annual Number of Responses	4,000	0	4,000	0	0	0
Annual Time Burden (Hr)	1,333	0	1,333	0	0	0
Annual Cost Burden (\$)	7,600	0	7,600	0	0	0

☐ At least one IC has a burden increase because of Program Change due to Agency Discretion.

Burden Increase Due to:

☐ At least one IC has a burden decrease because of Program Change due to Agency Discretion.

Short Statement: (Explain the reasons for any program changes or adjustments reported; that is, provide a short statement of how the reduction in burden was achieved or why the increase in burden occurred. (If you need more space, please provide a short statement less than 4000 characters here and elaborate in the Supporting Statement.))

[Add/Edit Supporting Statement and Other Documents](#)

Figure 68: 'Edit ICR' Page with 'Lock' Button and 'Confirm' Pop-up Window

Once the ICR is locked, the only action buttons available are the 'IC List', 'Agency Review', 'Check for Completeness', 'Unlock', and 'Print to PDF' buttons. The 'Unlock' button will only be visible to an APC user. A message that the ICR has been locked displays, along with the name of the user who locked it. To unlock an ICR, the APC must click the 'Unlock' button and confirm the action.

Figure 69: 'View ICR' Page: 'Unlock' Button

Special Function buttons: There are two special function buttons: ‘Check for Completeness’ and ‘Agency Review’ buttons. You will find a ‘Check for Completeness’ button at both the IC and ICR levels. These buttons allow the user to check that all required data for either the IC or the ICR have been entered. If there is missing data, the system will generate error links and icons. For more information on this process, refer to the [‘Check for Completeness’](#) section.

The second special button is the ‘Agency Review’ button, which allows the user to share information about the request with others in the agency. Click the ‘Agency Review’ button and the ‘Agency Review’ pop-up window will display. Use the ‘Brief Note’ text box to record the status of the ICR or provide an update to another user in the Agency ICR Review chain. Click the ‘Save’ button to save the information. Click the ‘Close’ button to exit the pop-up window. The ‘User ID’ and the ‘Date’ will appear in the ‘Agency Created Request List’ page’s ‘Last Reviewed By’ column but will not be viewable to OIRA.

Uploading ICR Documents

To upload Supporting Statements A and/or B, draft Rules, draft Federal Register Notices, Justification for Nonmaterial/Non-substantive changes (formerly 83C) documents, and public comments use the 'Manage ICR Documents' page.

You can access the 'Manage ICR Documents' page in three ways.

1. While in the 'Edit ICR' page, hover over the 'ICR Package' icon, hover over the 'Current ICR Package' option, and then select the 'ICR Documents' option from the drop-down menu.
2. At the top of the 'Edit ICR' page, click the 'Add/Edit Supporting Statement and Other Documents' link.
3. At the bottom of the 'Edit ICR' page, click the 'Add/Edit Supporting Statement and Other Documents' link.

Document Inspection

Documents are subject to public viewing on Reginfo.gov while the ICR is pending OIRA review and upon OIRA's conclusion of the review. Ensure documents are clean—without tracked changes and edits. It is important to use the Document Inspector feature in Microsoft Word to check for hidden properties or personal information. Locate it in the 'File' tab. Saving and uploading documents as PDFs is another way to prevent revisions from being displayed.

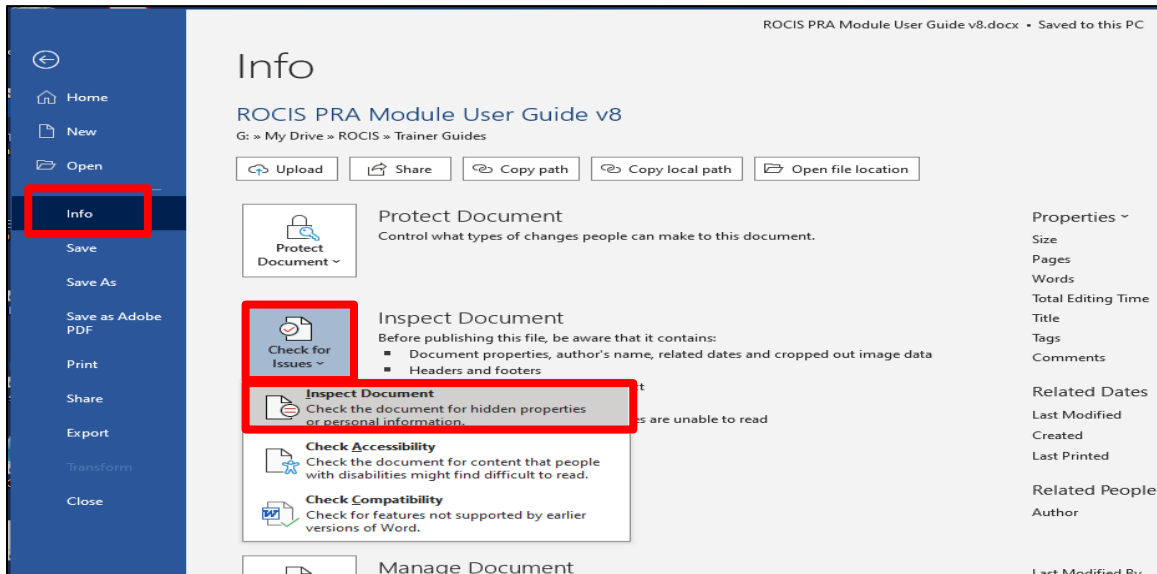

Figure 73: Microsoft Word Document Inspector Functionality

'Supporting Statement A' and 'B' Sections

Every new ICR request requires a Supporting Statement A. Supporting Statement B is only required if the user selects the 'Yes' radio button for the "Does this ICR contain surveys, censuses, or employ statistical methods?" question on the 'Edit ICR' page. Only upload one Supporting Statement A/B for each ICR; any attempt to upload a second statement document will result in overwriting the first.

To upload Supporting Statement A or B, click the 'Choose File' button under the appropriate document heading. Browse the computer files to locate the correct document file. Once the file is selected, click the 'Open' button.

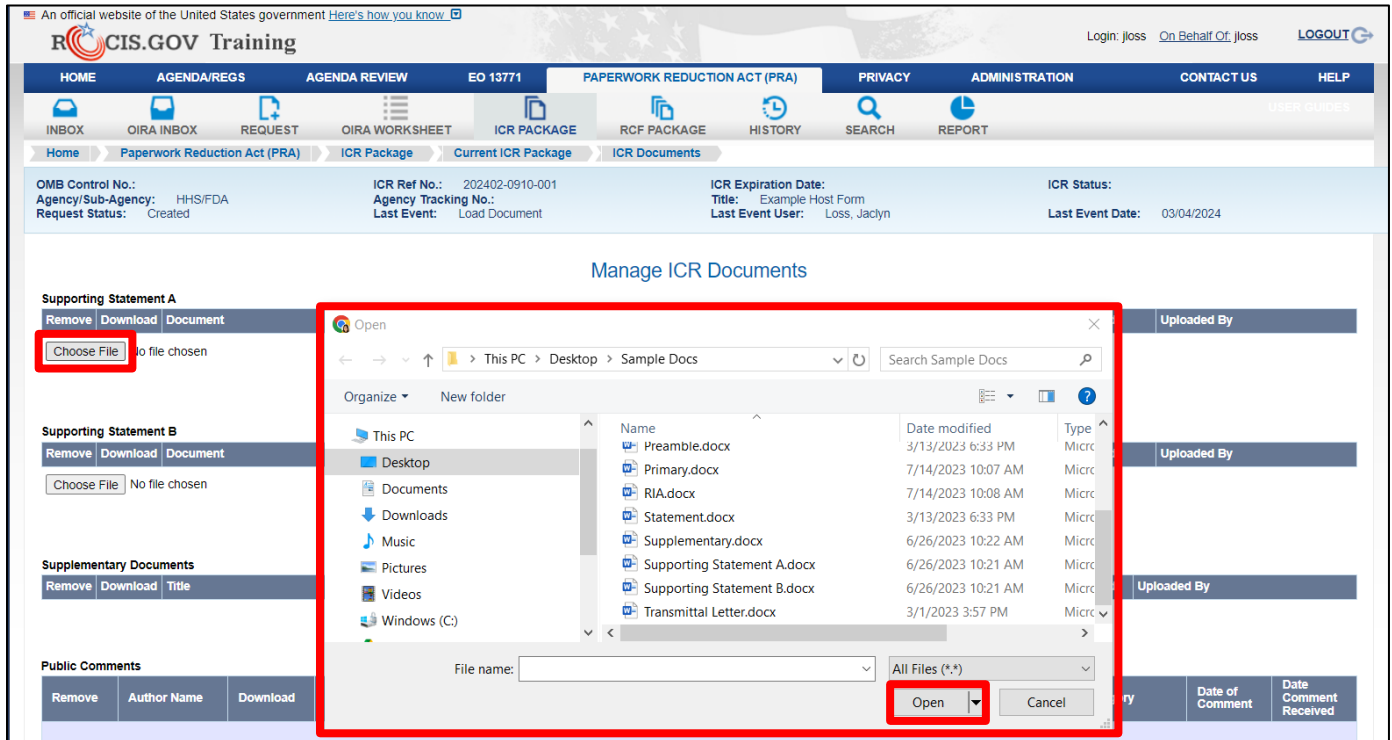

Figure 74: 'Manage ICR Documents' Page: Choose File Process

Click the 'Upload Document' button.

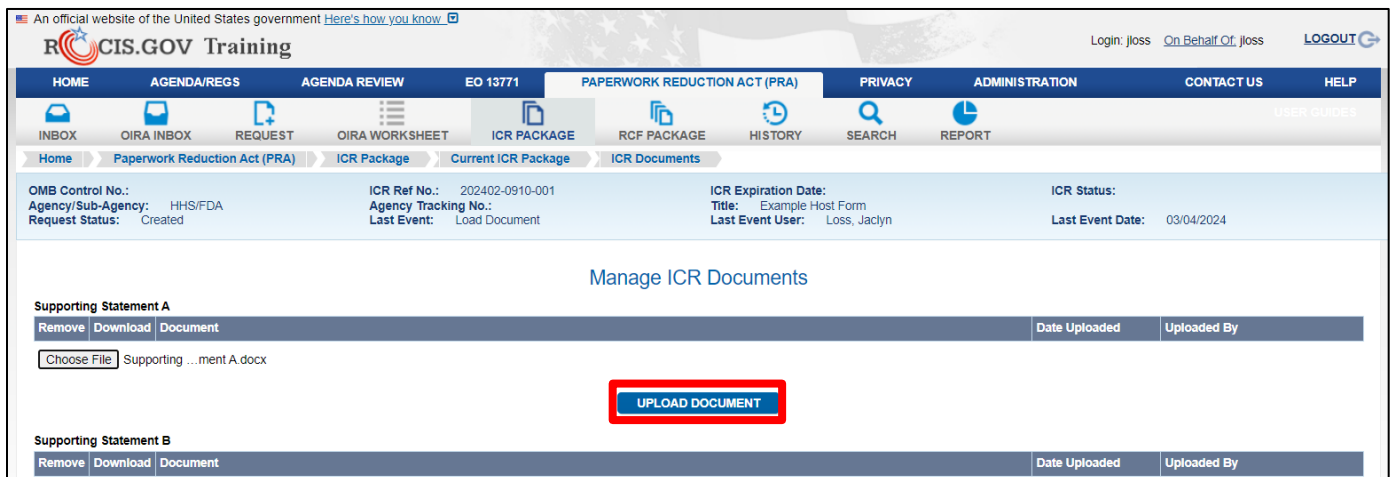

Figure 75: 'Manage ICR Documents' Page: 'Upload Document' Button

The file name will be displayed as a link in the appropriate section.

'Supplementary Documents' Section

Additional documents that are relevant to the OIRA review may be uploaded as supplementary documents. To upload a supplementary document, click the 'Upload Supplementary' button and the 'Upload Supplementary Document' pop-up window will display.

The screenshot shows the CIS.GOV Training interface. The 'Upload Supplementary Document' pop-up window is highlighted with a red border. The window contains the following fields and buttons:

- Title:
- Document Type:
- Document Date:
- Date Uploaded:
- Uploaded By:
- Document File: No file chosen
- Buttons:

The background interface shows the 'Paperwork Reduction Act (PRA)' section with various tabs and a table for 'Supplementary Documents'.

Figure 78: 'Upload Supplementary' Button & 'Upload Supplementary Document' Pop-up Window

Enter the document's title in the 'Title' text box and select a type from the Document Type drop-down menu options.

The screenshot shows the 'Upload Supplementary Document' pop-up window. The 'Title' text box and the 'Document Type' drop-down menu are highlighted with a red border. The drop-down menu is open, showing the following options:

- Supplementary Document
- Proposed Rule Document
- Final Rule Document
- Draft Federal Register Notice
- Justification for No Material/Nonsubstantive Change

The 'Title' text box is empty. The 'Document Type' drop-down menu is currently set to 'Supplementary Document'.

Figure 79: 'Title' Text box and 'Document Type' Drop-down Menu

Select a date from the 'Document Date' drop-down calendar. Click the 'Choose file' button, select the desired file, and click the 'Upload Document' button. The system will display a confirmation message that the document was uploaded. To exit the upload pop-up window, click the 'Close' button at the bottom. Follow the same procedure if you need to upload more documents.

Figure 80: 'Document Date' Text box and 'Choose File' and 'Upload Document' Buttons

Supplementary documents are never overwritten. If you wish to delete a supplementary document, click the checkbox in the 'Remove' column.

Submitting an ICR Package

When you are ready to submit your ICR package to OIRA, click the 'Submit' button at the bottom of the page. Only APC users can submit on behalf of the agency. On the 'Confirm' pop-up window, click the 'Ok' button to complete the action. The system will navigate to the 'Certification for Paperwork Reduction Act Submissions' page.

The APC must check the box for each statement to certify, on behalf of the agency Certifying Official, that the information collection request complies with [5 CFR 1320.9](#) and the related provisions of [5 CFR 1320.8\(b\)\(3\)](#). Provisions of this certification that the agency cannot comply with or that does not apply should be identified by leaving them unchecked and including an explanation in the Supporting Statement A.

Note: The office that develops and uses the information to be collected is the office that "conducts or sponsors" the collection. Refer to the [5 CFR 1320.3\(d\)](#) for more information.

Once the certification has been reviewed by the authorized submitter, click the 'Submit' button to officially submit the request. The request will then be moved from the 'Created Request List' page to the 'Submitted Request List' page.

Certification for Paperwork Reduction Act Submissions

On behalf of this Federal agency, I certify that the collection of information encompassed by this request complies with [5 CFR 1320.9](#) and the related provisions of [5 CFR 1320.8\(b\)\(3\)](#). The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- ☐ (a) It is necessary for the proper performance of agency functions;
- ☐ (b) It avoids unnecessary duplication;
- ☐ (c) It reduces burden on small entities;
- ☐ (d) It uses plain, coherent, and unambiguous language that is understandable to respondents;
- ☐ (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- ☐ (f) It indicates the retention periods for recordkeeping requirements;
- ☐ (g) It informs respondents of the information called for under 5 CFR 1320.8 (b)(3) about:
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, or mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- ☐ (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected;
- ☐ (i) It uses effective and efficient statistical survey methodology (if applicable); and
- ☐ (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of these provisions, or if not applicable, explain the reason in the Supporting Statement.

SUBMIT SAVE CANCEL

Figure 87: 'Certification for Paperwork Reduction Act Submissions' Page with 'Submit' Button

The Review Process and Open/Close for Amendment

When the ICR request is submitted, the system saves the agency submission, called the A Record, which is never altered. The system also makes an exact copy of the submission and provides it to OIRA. While the ICR is under review, OIRA may request that the agency revise the submission. These changes will be made to the OIRA Record (O Record).

For the agency to make changes to the O Record of the submission, an OIRA Desk Officer must open the request for amendment. Once the status is changed to 'Open for Amendment', the agency can make changes to the request by clicking the link in the 'Status' or 'ICR Reference Number' column on the 'Submitted Request List' page.

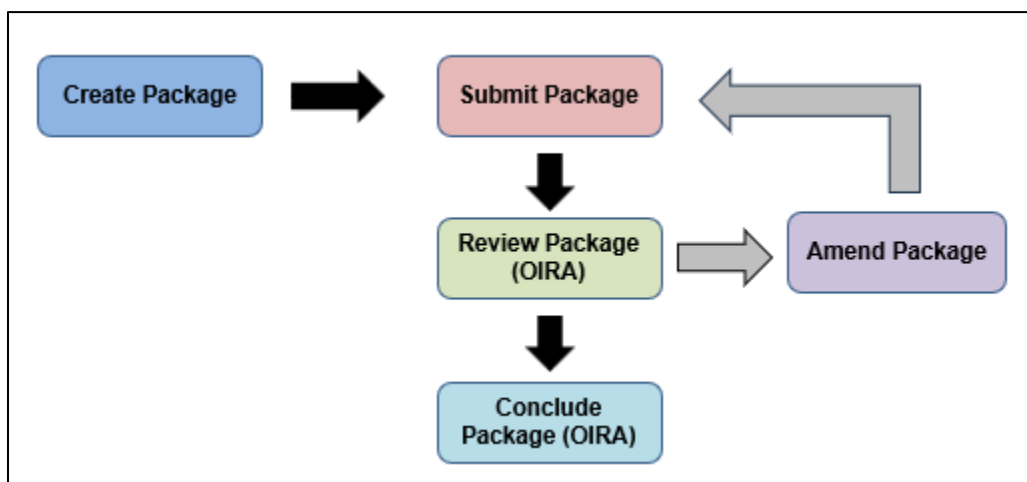

Figure 88: Request Package Review Process

Not every item can be changed when a request is in the 'Open for Amendment' status, but the user can add or modify information about ICs and upload new documents. Any uploaded documents at this time will be saved as versions in addition to the original documents.

Once the agency resubmits the request to OIRA, the system will automatically change the request status to 'Closed for Amendment' and the changes which were made to the O Record will no longer be viewable to the agency. When an agency user views the submission on the 'Submitted Request List' page, the user will be viewing the original version of the submission, the A Record, not the modified O Record. This will remain true until OIRA concludes the review. Once the review is concluded, the O Record will become the default version of the request displayed. However, the agency can always view the original submission by selecting the 'ICR Package' icon and choosing the 'Agency Submitted ICR Package' option.

Note regarding expirations: The PRA has a provision that allows an agency to use an already approved collection while a request for revision or extension is under review. Therefore, no OMB Control Number in the active inventory will expire while a new submission is under review by OIRA. Should an expiration date for such an OMB Control Number pass, the previous approval will be automatically extended for another month. It is not necessary to submit Emergency Extension requests when an ICR is under review by OIRA. Only one request per OMB Control Number can be under review at one time.

The Conclusion Process

When OIRA concludes the ICR review, ROCIS will display the request on the 'Concluded Request List' page for 30 days. The agency can review all the information on the concluded review by clicking the link in the 'Conclusion Action' column. This will cause the 'Notice of Action (NOA)' document to be generated and displayed as a PDF file.

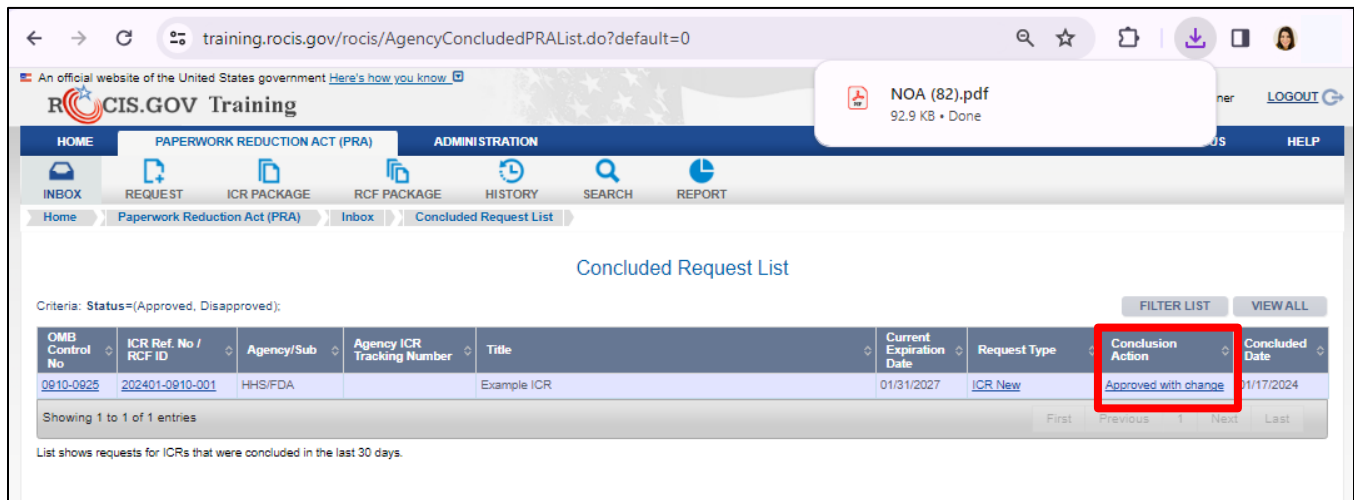

Figure 89: 'Concluded Request List' Page: 'Conclusion Action' Column Link

Conclusion Actions

OIRA can conclude the review with certain actions, which include:

- Approved without Change
- Approved with Change

Either of the above actions means that the request has been approved and is part of the active inventory.

Another set of conclusion actions indicates that the request was not approved. These include:

- Disapproved
- Withdrawn
- Not Subject to the PRA
- Improperly Submitted

Special Conclusion Actions

For submissions that are revisions or extensions of an active collection, the above decisions may be combined with the phrase "and continue." This means that the terms of the previous approval remain in effect. If there was an active collection under the same OMB Control Number at the time of the submission, and the phrase "and continue" is not used with this action, the prior approval is immediately ended, and the OMB Control Number is no longer a part of the active inventory.

There are two special actions that OIRA can use if the submission is related to a proposed rulemaking: 'Comment Filed on Proposed Rule' and 'Preapproved'.

'Comment Filed on Proposed Rule': This action is not an approval, and the agency will find OIRA's comments on the NOA. If there was an already approved ICR under the same OMB

Control Number and OIRA combines this decision with “and continue,” the terms of the previous approval remain in effect. If there was a previously approved ICR under this OMB Control Number and the “and continue” option is not part of OIRA’s decision, the collection is immediately ended.

‘Preapproved’: ICR submissions that are concluded with this action do not affect the current inventory. When the final version of the rule has been published, an agency can activate this approval, provided no other intervening requests or actions have occurred on this OMB Control Number. After the final rule is published, the agency can activate the preapproval on the ‘View ICR – OIRA Conclusion’ page by clicking the ‘Activate’ button. The ‘Enter Final Rule Information’ pop-up window will display. Enter the FR Citation in the ‘Final Rule FR Citation’ text box and select the publication date from the ‘FR Citation Date’ calendar drop-down. Click the ‘Submit’ button to submit the information. After submission, the preapproved ICR submission will be activated under the terms of the preapproval.

Figure 90: ‘View ICR- OIRA Conclusion’ Page with ‘Activate’ Button

Note on pre-approved submissions: If the preapproved submission was based on an OMB Control Number in the active inventory, and there are any intervening concluded requests in ROCIS on that same OMB Control Number (i.e., an Emergency Extension, Discontinuation, or Non-substantive Change) submitted after the preapproval, the preapproval will not be able to be activated.

Requesting a ‘No material/Non-substantive Change’

A ‘No Material/Non-substantive Change’ is processed as a new ICR request. The same directions for creating an ICR generally apply; however, there is no requirement for Federal Register Notices, and the information that is not subject to change is grayed out so that it cannot be modified.

To create this type of request, follow the same procedure for [creating an ICR](#). On the ‘Edit ICR’ page, select the ‘No Material/Non-substantive Change’ option from the ‘Type of Information Collection’ drop-down menu. Click the ‘Save’ button to save the changes. The ‘Change Request Type’ pop-up window will display.

Click the ‘Ok’ button to make the change or click the ‘Cancel’ button to close the pop-up window.

The screenshot shows the 'Edit ICR' page on the CIS.GOV Training portal. The page has a navigation bar with 'HOME', 'PAPERWORK REDUCTION ACT (PRA)', 'ADMINISTRATION', 'USER GUIDES', 'CONTACT US', and 'HELP'. Below this is a sub-navigation bar with 'INBOX', 'REQUEST', 'ICR PACKAGE', 'RCF PACKAGE', 'HISTORY', 'SEARCH', and 'REPORT'. The main content area is titled 'Edit ICR' and includes a 'BRIEF' section with various fields for agency information, OMB Control Number, ICR Reference Number, and Title. A 'Type of Information Collection' dropdown menu is set to 'No material or nonsubstantive change to a currently approved collection'. A 'Change Request Type' pop-up window is overlaid on the page, displaying a warning message: 'Certain fields cannot be modified on a non-substantive change and will be locked from being updated if you continue.' The pop-up has 'OK' and 'Cancel' buttons.

Figure 91: ‘Edit ICR’ Page and ‘Change Request Type’ Pop-up Window

Make the proposed changes on the appropriate pages. Once you are done making changes, navigate to the 'Manage ICR Documents' page.

Since the user is modifying the existing approval, no new Supporting Statement A' nor 'B' document is needed. Instead, upload a 'Justification for No Material/Non-substantive Change' document by clicking the 'Upload Supplementary' button in the 'Supplementary Documents' section. In the 'Upload Supplementary Document' pop-up window, enter the required information, choose the appropriate file, and click the 'Upload Document' button.

The screenshot displays the ROCIS.GOV Training interface. The top navigation bar includes links for HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, USER GUIDES, CONTACT US, and HELP. Below this, a secondary navigation bar shows INBOX, REQUEST, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. The main content area is titled 'Manage ICR Documents' and contains several sections: 'Supporting Statement A', 'Supporting Statement B', 'Supplementary Documents', and 'Public Comments'. The 'Supplementary Documents' section is currently active, showing a table with columns for 'Remove', 'Title', 'Date Uploaded', and 'Uploaded By'. A pop-up window titled 'Upload Supplementary Document' is overlaid on the page, featuring a 'Title' field, a 'Document Type' dropdown menu, a 'Date Uploaded' field, an 'Uploaded By' field, and a 'Document File' section with a 'Choose File' button. The 'Document Type' dropdown is open, showing options: 'Supplementary Document', 'Proposed Rule Document', 'Final Rule Document', 'Draft Federal Register Notice', and 'Justification for No Material/Nonsubstantive Change'. The 'Justification for No Material/Nonsubstantive Change' option is highlighted. The pop-up window also includes 'UPLOAD DOCUMENT' and 'CLOSE' buttons.

Figure 92: 'Upload Supplementary Document' Pop-up Window

Once you are finished with edits, resubmit the request using the same procedure outlined in the [Submitting an ICR](#) section. Once you submit the request, the ICR will be included on the 'Submitted Request List' page with a status of 'ICR Chg' in the 'Request Type' column.

Figure 93: 'Submitted Request List' Page

Requesting an Emergency Extension

An Emergency Extension (EE) is a request for OIRA to extend the expiration date of an active Information Collection by three to six months. Emergency Extensions do not require 60- or 30-day notices, so they are limited to 6 months of approval. It is expected that during the extended period, the agency will have time to prepare a regular ICR Review Request for submission to OIRA. As far as OIRA is concerned, the definition of emergency is:

- an act of Congress that requires some action by a specific date, **or**
- an act of God such as a naturally occurring disaster that is preventing the 60 and 30-days notices in the Federal Register.

One way to create a 'Request for Emergency Extension' is by selecting the active ICR for the desired OMB Control Number and then clicking the 'Emergency Extension (EE)' button.

Create New ICR Package

☐ Create a New ICR from Scratch

☒ Create a New ICR Based on Previously Reviewed or Approved ICR

- Enter OMB Control Number if the new ICR is based on the most recently approved ICR under the OMB Control Number;
- Otherwise, enter ICR Reference Number;

Will this ICR be generic? ☒

OMB Control Number: - Or ICR Reference Number: - -

Figure 111: 'Create a New ICR Based on a Previously Reviewed or Approved ICR' Option

If you selected the 'Create a New ICR Based on Previously Reviewed or Approved ICR' radio button and clicked the 'Will this ICR be generic?' checkbox, the 'Will this be a non-substantive change request?' question will populate along with the 'Yes' and 'No' radio buttons.

If you select the 'Yes' radio button, the system will create the non-substantive change request, copy the existing Generic ICs from the previous ICR, and calculate the burden budget appropriately.

If you select the 'No' radio button, the system will create the new ICR package and remove the non-substantive option from the 'Type of Information Collection' drop-down menu. Generic ICs will not be copied to the new Generic ICR if you indicate that the ICR is not for a non-substantive change. Click the 'Continue' button to create the request.

Figure 113: 'Edit Generic ICR' Page: 'ICR Summary or Burden' Table

You will need to upload a Supporting Statement on the 'Manage ICR Documents' page, but you will not be required to complete an 'Edit IC' page unless you would like to submit one or more Generic ICs with the Generic ICR.

Upon approval from OIRA, the Generic ICR will have a burden budget. The burden for any Generic ICs submitted with the ICR, and for any Generic ICs submitted in the future under this request, will be deducted from the available burden budget. The entire number of responses, hours, or costs cannot exceed the approved budget. If the budget is exhausted, a new Generic ICR will need to be submitted.

How to Create a Generic IC

To request a Generic IC, hover over the 'Request' icon and select the 'New IC to Generic ICR (Gen IC)' option from the drop-down menu. On the 'Add New Generic IC to Existing OMB Control Number' page, enter the OMB Control Number of the Generic ICR and click the 'Next' button.

The screenshot shows the ROCIS.GOV Training interface. The top navigation bar includes links for HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, USER GUIDES, CONTACT US, and HELP. Below this, there are icons for INBOX, REQUEST, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. The 'REQUEST' icon is highlighted with a red box. A dropdown menu is open under 'REQUEST', showing options: Information Collection Request (ICR), New IC to Generic ICR (Gen IC) (highlighted with a red box), Discontinue OMB Control Number (D), Emergency Extension (EE), Transfer OMB Control Number (T), Request for Common Forms (RCF), and Discontinue RCF (RCF D). The main content area is titled 'Add New Generic IC to Existing OMB Control Number'. It features a form with the label 'OMB Control Number:' followed by two input fields separated by a hyphen. Below the form are two buttons: 'NEXT' (highlighted with a red box) and 'CANCEL'.

Figure 114: 'Request' Icon: 'New IC to Generic ICR (Gen IC)' Option

On the 'Add New Generic IC to Existing OMB Control Number' page, enter the IC information, including the burden worksheet, and upload a Supplementary Document if OIRA requires it. Click the 'Save' button and click the 'Submit Generic IC' button to submit the request.

Figure 116: 'IC List' Table

Creating an ICR that Hosts Common Forms

To accurately account for the burden imposed on the public by federal government agencies through government-wide forms, ROCIS and RegInfo.gov support Common Forms. A Common Form allows other agencies to use the Host Agency's IC. Once the ICR is approved by OIRA, all Information Collections included in the ICR are considered Common Forms, and Using Agencies can submit a 'Request for Common Forms (RCF)' to inform OIRA of the agency's use of the form(s). [Appendix B](#) of this document provides a list of Frequently Asked Questions (FAQ) on the usage of Common Forms.

The process of managing a Host ICR is very similar to managing a regular ICR, with a few exceptions.

To create a Host ICR hover over the 'Request' icon and select the 'Information Collection Request (ICR)' option from the drop-down menu.

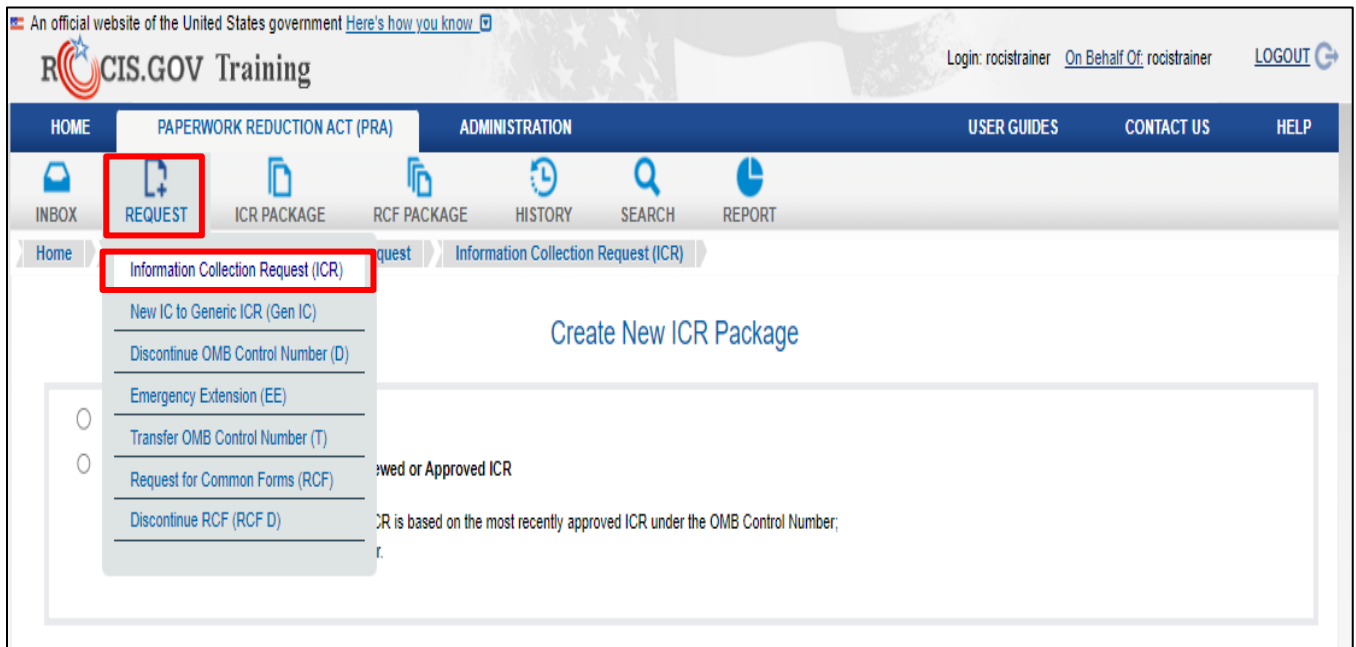

Figure 117: 'Request' Icon: 'Information Collection Request' Option

Select either the 'Create a New ICR from Scratch' or 'Create an ICR from a Previously Reviewed or Approved ICR' radio button, complete all the required fields, and click the 'Will this ICR sponsor Common Form(s)?' checkbox. When the 'Will this ICR sponsor common form(s)?' checkbox is selected, all ICs contained in the ICR will be available for use by other agencies. Click the 'Create' button.

Note: An ICR cannot be both a Generic ICR and a Common Form Host ICR.

ABSTRACT

Abstract (4000 characters maximum):
 Test

Description/Changes for Common Form Usage (4000 characters maximum):

Figure 119: 'Edit Host ICR' Page

Like a regular ICR, a Common Form Host ICR must contain at least one Information Collection (IC) but it can contain more than one. The process for creating and updating a Common Form IC is identical to the process of creating and updating a regular ICR with two exceptions.

First, for each regular IC, at least one CFR Citation or at least one Information Collection Instrument (ICI) must be provided. For a Common Form IC, at least one ICI must be provided; additional ICIs may be included. A Common Form IC can include one or more CFR Citations, but it must still include at least one ICI.

While all ICs on a regular ICR must have some burden, the agency can set the burden of a Host IC to zero by specifying zero as the Number of Respondents. This will be useful if the Host Agency no longer uses the Common Form, but other agencies still do.

Additional Information on Common Form ICRs

Common Form ICRs cannot be transferred, even if the Host Agency is no longer using the form. The Host Agency must still maintain approval of the Host ICR, but it can set the 'Number of Respondents' to zero, and therefore, not impose a burden on the public.

Unless its burden has been set to zero, a Host ICR cannot be directly discontinued, but if there are no active or pending RCFs referencing the Host ICR, it can be converted to a regular ICR and then discontinued. The conversion to a regular ICR is immediate and does not require OIRA approval. To convert a Host ICR to a regular ICR, click the 'Convert to Regular ICR' button on the 'View Host ICR – OIRA Conclusion' page. The agency can then continue using the form or discontinue it.

Note: Because ICs on a regular ICR must have at least some burden associated with it, any ICs with zero respondents will automatically be removed from the Host ICR when converted to a regular ICR.

The screenshot displays the ROCIS.GOV Training interface. The top navigation bar includes links for HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, USER GUIDES, CONTACT US, and HELP. Below this, there are icons for INBOX, REQUEST, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. The main content area is titled 'View Host ICR - OIRA Conclusion' and contains a list of sections on the left, each with a right-pointing arrow. The sections are: BRIEF AND OIRA CONCLUSION, ABSTRACT/JUSTIFICATION, LEGAL STATUTES, RULEMAKING, FR NOTICES / COMMENTS, IC LIST, BURDEN, MISC., COMMON FORM INFO., and CERTIFICATION. At the bottom of the page, there are four buttons: 'EMERGENCY EXTENSION (EE)', 'CREATE HOST ICR PACKAGE', 'CONVERT TO REGULAR ICR' (which is highlighted with a red box), and 'PRINT TO PDF'.

Figure 122: 'View Host ICR – OIRA Conclusion' Page with 'Convert to Regular ICR' Button

If the burden hours of a Host ICR are zero and there are no active or pending RCFs referencing the Host ICR, the Host ICR can be discontinued directly. The discontinuation of the Host ICR is immediate and does not require OIRA approval and is processed by clicking the 'Discontinue (D)' button on the 'View ICR – OIRA Conclusion' page for the Host ICR.

CERTIFICATION

[EMERGENCY EXTENSION \(EE\)](#) **DISCONTINUE (D)** [TRANSFER \(T\)](#) [CREATE ICR PACKAGE](#) [PRINT TO PDF](#)

When a Common Form ICR expires, all Using Agency's RCFs will expire as well.

When an Emergency Extension to an active Host ICR is approved, all Using Agency's RCFs will be automatically extended.

Creating a Request for Common Forms

To utilize a Common Form defined in a Host ICR, a Using Agency must create and submit a Request for Common Forms (RCF). Although an RCF shares many characteristics with ICRs, RCFs impose far fewer requirements on the Using Agency than an ICR.

First, because public comment has already been conducted on the Host ICR, RCFs require no Federal Register Notices prior to submission to OIRA.

Second, no supporting statement or other documents are required when submitting an RCF.

Third, the Using Agency is not required to submit a request for review every three years. Upon approval, the expiration date of an RCF is automatically set to the Host ICR's expiration date. Whenever the Host ICR's expiration date is updated through either a renewal or an Emergency Extension, ROCIS will automatically recertify any active related RCFs, with no action required by the Using Agency. Alternatively, when the Host ICR expires, all the Using Agency's active RCFs will also expire.

[Appendix B](#) of this document provides a list of Frequently Asked Questions (FAQ) on the usage of Common Forms.

Searching for Common Forms

You can search for Common Forms that are currently approved for use by hovering over the 'Search' icon and selecting the 'Common Form Search' option from the drop-down menu.

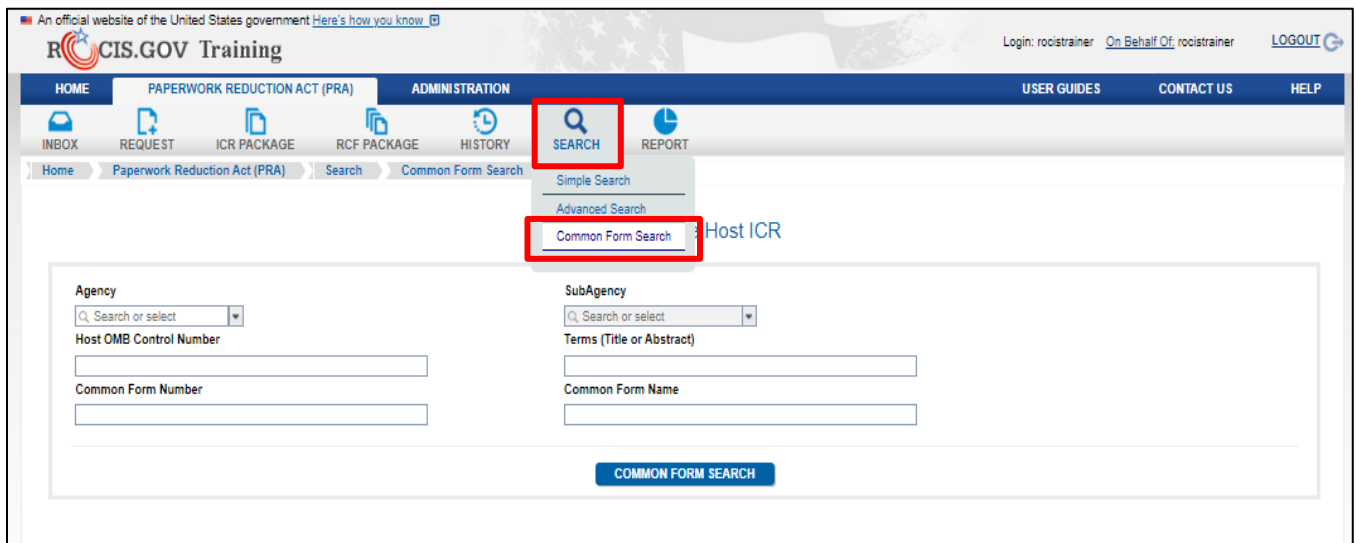

Figure 123: 'Search' Icon: 'Common Form Search' Option

You can search by 'Agency', 'Sub-agency', 'OMB Control Number', 'Common Form Number', any terms within the 'Title' or 'Abstract', or 'Common Form Name'. You can also leave the search criteria blank and click the 'Common Form Search' button to see a list of all active Common Forms.

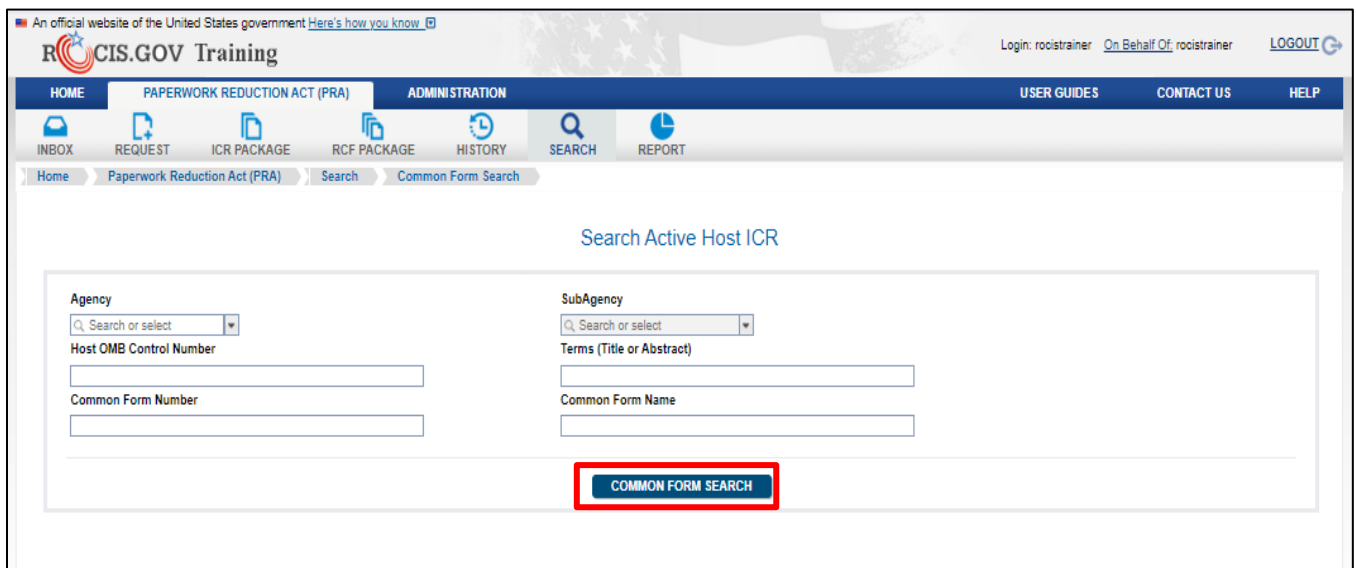

Figure 124: 'Search Active Host ICR' Page with 'Common Form Search' Button

On the 'Search Active Host ICR' page, click the link in the 'ICR Ref. No' column to view the Host ICR. To download a Common Form, click the link in the 'Form Name' column. The system will download a copy of the form to the computer's 'Downloads' Folder.

Figure 127: 'Request' Icon: 'Request for Common Forms' Option

To create a new RCF, select the 'Create a New Request for Common Forms (RCF)' radio button and select the 'Agency' and 'Sub-agency' from the drop-down menus. Populate the 'Title' and 'Description of Agency Usage' text boxes, and then click the 'Create' button. The 'Creating a Non-Substantive Change to an Active RCF' option will be addressed in a later section of this document.

Figure 128: 'Create New RCF Package' Page with 'Create' Button

Next, on the 'Search Active Host ICR' page, search for and identify the Host ICR that contains the Common Form you would like to use by entering the necessary data and clicking the 'Common Form Search' button. Refer to the [Common Form Search](#) section for more information.

Figure 129: 'Search Active Host ICR' Page with 'Common Form Search' Button

On the search results table, click the radio button in the far-left column and click the 'Continue' button.

Note: An RCF can only be associated with one currently active Host ICR. To request the usage of Common Forms from multiple Host ICRs, you will need to submit a separate RCF for each Host ICR.

The screenshot displays the 'Search Active Host ICR' page on the ROCIS.GOV Training portal. The page includes a navigation bar with links like HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, USER GUIDES, CONTACT US, and HELP. Below the navigation bar, there's a search form with the following fields:

- Agency: 3090 GSA
- SubAgency: Search or select
- Host OMB Control Number: (empty)
- Terms (Title or Abstract): (empty)
- Common Form Number: (empty)
- Common Form Name: (empty)

A 'COMMON FORM SEARCH' button is located below the form. Below the search form, the criteria 'Agency=3090 GSA' are displayed. A table shows the search results:

	OMB Control No	ICR Ref. No	Agency/Sub	Title	Current Expiration Date	Form Number	Form Name
☐	3090-0118	202311-3090-001	GSA	Statement of Witness, Standard Form (SF) 94	01/31/2027	SF 94	Statement of Witness

Below the table, it says 'Showing 1 to 1 of 1 entries'. At the bottom of the page, there are two buttons: 'CONTINUE' (highlighted with a red box) and 'RETURN TO RCF'.

Figure 130: 'Search Active Host ICR' Page with Search Results Table and 'Continue' Button

After selecting the Host ICR, a list of Information Collections associated with the Host ICR will display. In the example below, the selected Host ICR includes one Common Form IC, which can be requested as part of the RCF. If there are multiple ICs to choose from, click the link in the 'IC Title' column to view information on the IC and its burden, or click the link in the 'Form Name' column to download and view the form. Once you have identified the desired Information Collections, place a check mark in their respective checkboxes and click the 'Add to RCF' button.

You must select at least one IC, but you do not have to select all the ICs. The same Common Form IC can be included multiple times in an RCF, either to apply it to multiple affected publics/obligations to respond/lines of business or to track uses of the form by separate programs within the Using Agency.

After clicking the 'Add to RCF' button, ROCIS will display the 'Edit RCF' page.

The screenshot shows the ROCIS.GOV Training interface. At the top, there's a navigation bar with links like HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, USER GUIDES, CONTACT US, and HELP. Below this is a sub-navigation bar with icons for INBOX, REQUEST, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. The main content area shows a 'Common Form Search' result for 'Statement of Witness: Standard Form (SF) 94'. A table lists the IC details, including Form Number (SF 94), Form Name (Statement of Witness), and Affected Public (Federal Government). A red box highlights the checkbox in the first column of the table. Below the table, there are two buttons: 'ADD TO RCF' (highlighted with a red box) and 'RETURN TO RCF'.

Figure 131: 'Common Form IC' Page with 'Add to RCF' Button

Completing the Fields of the 'EDIT RCF' Page

A Request for Common Form (RCF) is structured much like an ICR, with some data applying to the entire RCF and some applying only to specific ICs. These instructions should be used in conjunction with 5 CFR 1320, which provides information on coverage, definitions, and other procedural and interpretive matters under the Paperwork Reduction Act of 1995.

'Title': This field provides the official title of the Request for Common Forms. If an official title does not exist, provide a description that distinguishes this collection request from others and enables text searches by title.

'Agency RCF Tracking Number': This field is for agency use only and is not viewable by OIRA. It can be used to identify ICRs by divisions, branches, or individuals. This field may be used as one criterion for the Advanced Search feature and is displayed in the 'Inbox Request List' tables.

'Description of Agency Usage': This field is like the 'Abstract' text box of an ICR. The agency provides a statement, limited to 4,000 characters, explaining the agency's need for the information and its uses, and providing a brief description of the respondents. You may want to include keywords (descriptors) from the "Federal Register Thesaurus of Indexing Terms" that describe the subject area(s) of the Information Collection in 'Title' and 'Abstract' fields.

‘Agency Contact’: The Agency Contact is the person who is best able to answer questions regarding the content of this submission. The person’s name is published on Reginfo.gov. You may also consider using the name of the agency’s Clearance Officer.

The ‘Agency Contact’ drop-down menu lists people who are current ROCIS users or were previously listed as an Agency Contact for the PRA Module. If the name of the desired Agency Contact is in the drop-down menu, select it. If the name of the person you want to reference is not in the drop-down menu, click the ‘Add New Contact’ button. [Refer to the previous instructions on how to enter a new Agency Contact.](#)

‘Authorizing Statute’: Enter the statute that is the source of the RCF. First select the type from the drop-down menu, if one exists; otherwise, leave it blank. Once you select the type, additional text boxes will display. Enter the data in the text boxes. To remove the statute, click the ‘Remove’ button. To add additional statutes, click the ‘Add Another Authorizing Statute’ button and repeat the process.

‘RCF Summary of Burden’: Burden is accounted for at the IC-level; that is, per collection, whether one collection or multiple collections within one RCF. For a RCF, the ICs are largely defined in the Host ICR, including the Information Collection Instruments (ICI) and the Hours/Cost per Response, but the Using Agency does provide information about how the form will be used (ex. affected public, obligation to respond, and line of business) and how often the form will be used (ex. annual number of responses). Therefore, the ‘Edit RCF’ page will display the total burden entered on the ‘Burden Worksheets’ for each IC. To enter the Using Agency’s burden request, first save the RCF data by clicking the ‘Save’ button, and then click the link in the ‘IC Title’ column in the ‘Common Form IC(s) in this RCF’ table to navigate to the ‘Review RCF IC’ page.

Adding Additional ICs

To add an additional IC(s) from the Host ICR, click the ‘Add Common Form IC’ button to navigate to the ‘Common Form IC for OMB’ page. Click the checkbox(es) for the desired IC(s) in the table and click the ‘Add to RCF’ button. The system will then display the ‘Edit RCF’ page again with the added IC(s).

A selected IC can be removed from the RCF by selecting the checkbox in the ‘Remove’ column. Every time an IC is removed from the RCF, the system will automatically recalculate the RCF Summary of Burden.

Downloading ICs

To download the documents in the ‘Common Form IC(s) in the RCF’ table, click the checkbox(es) in the ‘Download’ column and click the ‘Download Selected Documents’ button. To download all the documents, click the ‘Download All’ checkbox and click the ‘Download Selected Documents’ button.

Figure 132: 'Edit RCF' Page

Completing the Fields of the 'EDIT RCF IC' Page

Each IC must have one obligation to respond, one affected public, and one line of business. If there is more than one value of any of these items for the RCF, then separate ICs will be required. For example, if the information is collected from 'State and Local Governments' and 'Individuals and Households', an IC must be created for each one. For more information on this topic, refer to [Appendix C](#) of this document.

'Common Form IC Title': The title will be copied from the Host ICR.

'IC Status': This field will be populated automatically; no entry by the agency is required.

'Information Collection Instruments': An Information Collection Instrument is the mechanism used for gathering information. The most obvious and easily identified type of instrument is a paper or electronic form or a survey, but it may be a web-based application, a telephone script, or any other means used to collect the information. For RCF ICs, the Information Collection Instruments are defined by the Host ICR and cannot be changed by the Using Agency.

'Obligation to Respond': The system will automatically assign the value from the Host ICR, but the Using Agency can change it if necessary. Select an option from the 'Obligation to Respond' drop-down menu. If more than one category applies, create an IC for each affected category to account for the burden associated with that category.

- Select the 'Voluntary' option when the response is entirely discretionary and has no direct effect on any benefit or privilege for the respondent.
- Select the 'Required to Obtain or Retain Benefits' option when the response is elective but is required to obtain or retain a benefit.
- Select the 'Mandatory' option when the respondent must reply or face civil or criminal sanctions.

'Agency RCF Tracking Number': This field is optional. One possible use of this field is to provide the IT investment number (Exhibit 300 ITBRS number) when an information system is associated with the ICR.

'Federal Enterprise Architecture Business Reference Model Line of Business and Sub-function': By default, the system will assign the value from the Host ICR, but the Using Agency can change it if necessary. The line of business refers to the federal government's lines of business in services to citizens and management of governmental resources affecting citizens, as defined by the Federal Enterprise Architecture Business Reference Model.

The Business Reference Model is a function-driven framework for describing the federal government's business operations, independent of the agencies that perform them. The Business Reference Model lines of business provide a way to identify "government-wide common solutions for improved service to citizens."

If an IT investment/system is related to Information Collection, the line of business should be the one used by the agency to justify the IT investment in its Exhibit 300. If there is no system, use the line-of-business definitions that most accurately reflect the collection's business.

Because lines of business functionally cross organizations, assigning lines of business to ICs will also enable the identification of potential opportunities for merged and/or Common Forms and reduced burden.

'Privacy Act System of Records Title': Enter the name of the SORN.

'FR Citation': Enter the Federal Register Citation for the SORN.

‘Number of Respondents’: Enter the number of respondents for this collection. This number is the basis for the burden number calculated by the system on the ‘Burden Worksheet’.

‘Number of Respondents for Small Entity’: Indicate the number of small entity respondents upon which the Information Collection will have a significant impact. A small entity may be:

- a small business which is deemed to be one that is independently owned and operated and that is not dominant in its field of operation,
- a small organization that is any not-for-profit enterprise that is independently owned and operated and is not dominant in its field, or
- a small government jurisdiction which is a government of a city, county, town, township, school district, or special district with a population of less than 50,000.

‘Affected Public’: By default, the system will assign the value from the Host ICR, but the Using Agency can change if necessary. Select one from the following options: ‘Federal Government’, ‘Households and Individuals’, ‘Private Sector’, or ‘State and Local Governments’. Select only one option per IC. If you select the ‘Private Sector’ option, an additional ‘Private Sector’ section will display the following options: ‘Business or other for-profits’, ‘Farms’, and ‘Not-for-profit Institutions’. You may select more than one option. No IC may have more than one affected public value. If more than one public is affected, separate ICs will be required.

‘Percentage of Respondents Reporting Electronically’: Enter the estimated percentage of responses that will be collected using electronic means, such as email or web-based transaction. A fax is not considered an electronic submission.

‘Annual IC Burden (Select appropriate IC Burden Worksheet)’: Burden is calculated and accounted for at the IC level. Therefore, new burden and increases/decreases to existing burden are requested on the ‘Edit IC’ page and, more specifically, through the ‘Burden Worksheet’ pop-up window.

Figure 133: ‘Edit RCF IC’ Page

How to Calculate and Record Burden at the RCF IC level

To request new burden or to change burden, enter the number in the 'Number of Respondents' field and click the 'RCF IC Burden Worksheet' link. ROCIS will populate the 'Burden Worksheet' with the 'Number of Respondents' entered on the 'Edit IC' page.

Enter a number in the 'Number of Responses per Respondent' field and select the appropriate option from the 'per Time Period' drop-down menu. The system will populate the 'Annual Frequency' and the 'Annual Number of Responses' fields based on your selection.

Because they are determined by the Host ICR, the values for 'Time per Response' and 'Cost per Response' cannot be edited in the RCF.

If any of the burden time is allocated to the 'Reporting' category, you will need to click the checkbox for one or more options for the 'Frequency of Reporting Schedule'. The 'Frequency of Reporting' selections do not affect burden calculations.

ROCIS will place the change between the current inventory and the request in the 'Program Change Due to Agency Discretion' column or in the 'Change Due to Violation of the PRA' column to identify the reasons for the change.

You may adjust the numbers in the 'Annual Response and Burden with Changes' table if a box appears around the number. To change the number, move the cursor to the box where you want the new number to appear, and enter the new value. ROCIS will automatically update the 'Program Change Due to Agency Discretion' column. The 'Change Due to Violation of the PRA' column cannot be changed.

'Program Change Due to New Statute': This indicates program change that results from deliberate Federal government action. All new collections and any subsequent revision of existing collections (e.g., the addition or deletion of questions) are recorded as program changes. When the 'Program Change due to New Statute' option is selected at the IC level, you will be prompted to provide the statute citation on the 'Edit RCF' page.

'Change Due to Adjustment in Agency Estimate': This indicates that the adjustment is a change that is **not** the result of a deliberate Federal government action. Changes resulting from new estimates or actions not under the control of the Federal government are recorded as adjustments.

When all data has been completed, click the 'Save' button. Click the 'Close' button to exit the pop-up window and the system will navigate to the 'Edit RCF IC' page. Click the 'Save' button.

If you have additional ICs, repeat this process for each one. When you are done, return to the 'ICR Data' page to finish adding ICR data.

Burden results are summarized and displayed on the 'Edit RCF' page. If changes in burden have occurred because the RCF is new or due to a revision with changes, you will be prompted to answer questions related to the changes. This information will be used to draft the "Information Collection Budget Report" to Congress.

The 'Citations for New Statutory Requirements' entries are required if a summary change in burden is a 'Program Change Due to a New Statute'.

When the summary indicates changes attributed to 'Program Change Due to Agency Discretion', select an option from the 'Burden Increase Due To' drop-down menu.

When there is a change in burden of any kind in the ICs, provide an explanation in the 'Short Statement' text box.

RCF Summary of Burden:

	Requested	Program Change Due to New Statute	Program Change Due to Agency Discretion	Change Due to Adjustment in Agency Estimate	Change Due to Potential Violation of the PRA	Previously Approved
Annual Number of Responses	5	0	5	0	0	0

Burden Increase Due to:

☐ At least one IC has a burden decrease because of Program Change due to Agency Discretion

Short Statement: *(Explain the reasons for any program changes or adjustments reported; that is, provide a short statement of how the reduction in burden was achieved or why the increase in burden occurred. (4000 characters maximum))*

Figure 135: 'Edit RCF IC' Page with 'RCF Summary of Burden' Table

When all relevant data has been entered, click the 'Save' button and then the 'Check for Completeness' button. If the request passes the check for completeness, then click the 'Submit' button to submit the RCF for OIRA review.

RCF Summary of Burden:

	Requested	Program Change Due to New Statute	Program Change Due to Agency Discretion	Change Due to Adjustment in Agency Estimate	Change Due to Potential Violation of the PRA	Previously Approved
Annual Number of Responses	5	0	5	0	0	0
Annual Time Burden (Hr)	2	0	2	0	0	0
Annual Cost Burden (\$)	1,400	0	1,400	0	0	0

Citations for New Statutory Requirements: *(Required if any change in burden is a Program Change Due to New Statute.)*

☐ At least one IC has a burden increase because of Program Change due to Agency Discretion

Burden Increase Due to:

☐ At least one IC has a burden decrease because of Program Change due to Agency Discretion

Short Statement: *(Explain the reasons for any program changes or adjustments reported; that is, provide a short statement of how the reduction in burden was achieved or why the increase in burden occurred. (4000 characters maximum))*

Figure 136: 'Edit RCF IC' Page with 'Submit' Button

Updating an Active Request for Common Forms

To make a change to the usage of a Common Form, create a Non-Substantive Change for the RCF. A Non-Substantive Change RCF can be created in two ways. First, hover over the 'Request' icon and select the 'Request for Common Forms (RCF)' option in the drop-down menu.

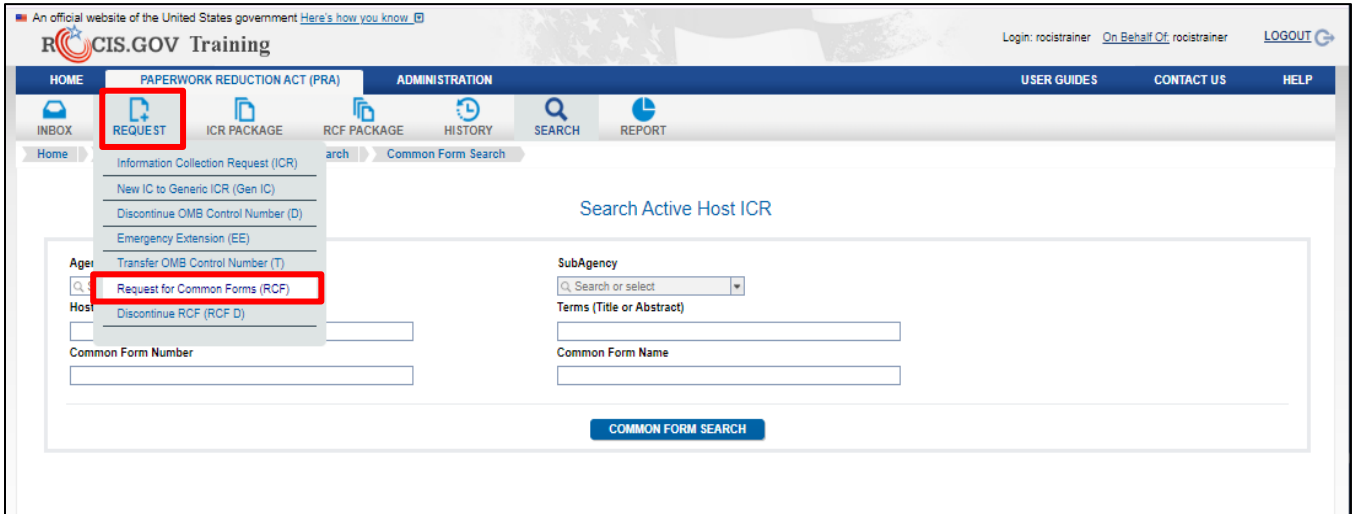

The screenshot shows the CIS.GOV Training application interface. At the top, there's a header with the CIS.GOV logo and navigation links. Below the header, a navigation bar contains icons for INBOX, REQUEST, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. The 'REQUEST' icon is highlighted with a red box. A dropdown menu is open from the 'REQUEST' icon, showing options like 'Information Collection Request (ICR)', 'New IC to Generic ICR (Gen IC)', 'Discontinue OMB Control Number (D)', 'Emergency Extension (EE)', 'Transfer OMB Control Number (T)', 'Request for Common Forms (RCF)', and 'Discontinue RCF (RCF D)'. The 'Request for Common Forms (RCF)' option is highlighted with a red box. The main content area displays a 'Search Active Host ICR' form with fields for SubAgency, Terms (Title or Abstract), and Common Form Name. A 'COMMON FORM SEARCH' button is at the bottom.

Figure 137: 'Request' Icon: 'Request for Common Forms' Option

Click the 'Create a Non-Substantive Change to a Currently Active RCF' radio button, populate the 'Active RCF ID' text box, and click the 'Create' button.

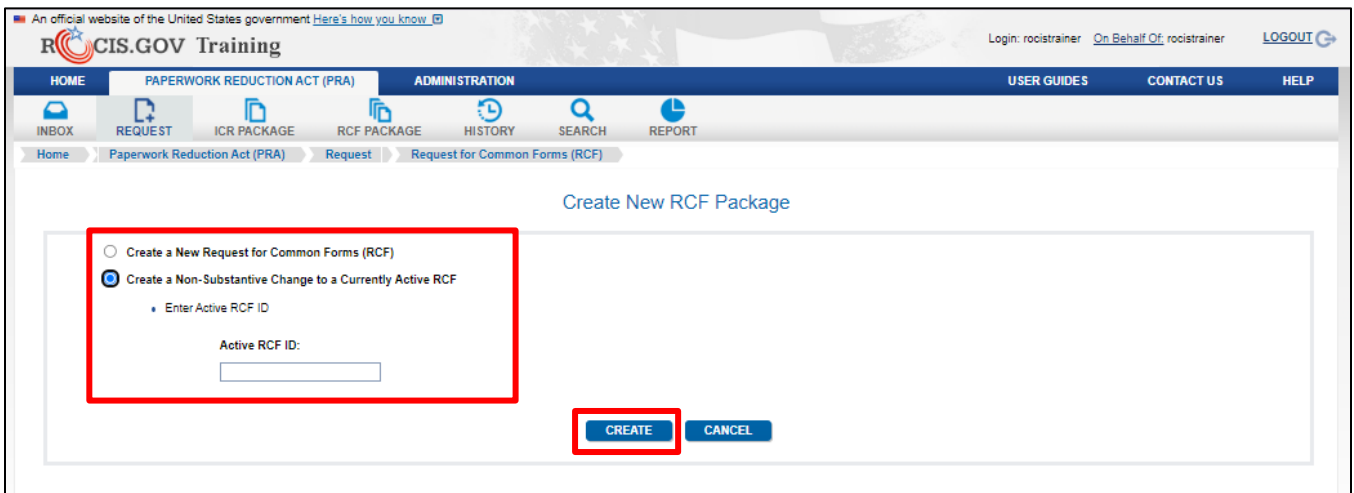

The screenshot shows the 'Create New RCF Package' page in the CIS.GOV Training application. The page has a header and a navigation bar. The main content area is titled 'Create New RCF Package'. It contains two radio button options: 'Create a New Request for Common Forms (RCF)' and 'Create a Non-Substantive Change to a Currently Active RCF'. The second option is selected and highlighted with a red box. Below this option, there is a text box labeled 'Active RCF ID:'. At the bottom right of the form, there are two buttons: 'CREATE' and 'CANCEL'. The 'CREATE' button is highlighted with a red box.

Figure 138: 'Create New RCF Package' Page with Radio Button Options and 'Create' Button

You can also create a Non-substantive Change Request from the 'View RCF – OIRA Conclusion' page by clicking the 'Create Non-substantive Change (RCF Chg)' button.

Figure 139: 'View ICR – OIRA Conclusion' Page with 'Create Non-substantive Change' Button

Once a Non-Substantive Change RCF is created, the process for editing and submitting it is the same as for a new RCF. A Non-Substantive Change to a Currently Active RCF must go through the submission and review process before it takes effect.

Requesting to Discontinue a Request for Common Forms

When an agency no longer needs to use the Common Form(s) referenced in the RCF, the agency must discontinue the RCF by creating an RCF Discontinue Request. An RCF Discontinue request can be created in two ways. First, hover over the 'Request' icon and select the 'Discontinue RCF (RCF D)' option from the drop-down menu.

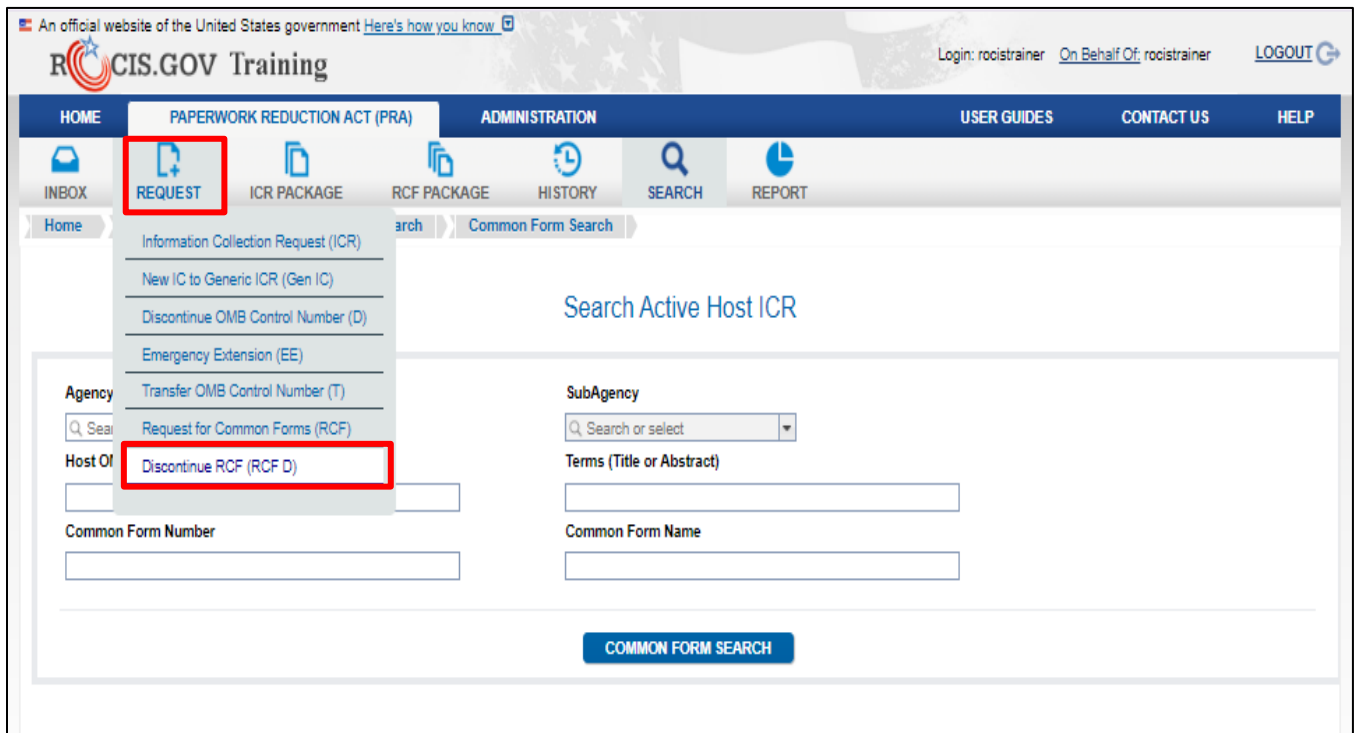

Figure 140: 'Request' Icon: 'Discontinue RCF' Option

Populate the 'RCF ID' text box and click the 'Next' button.

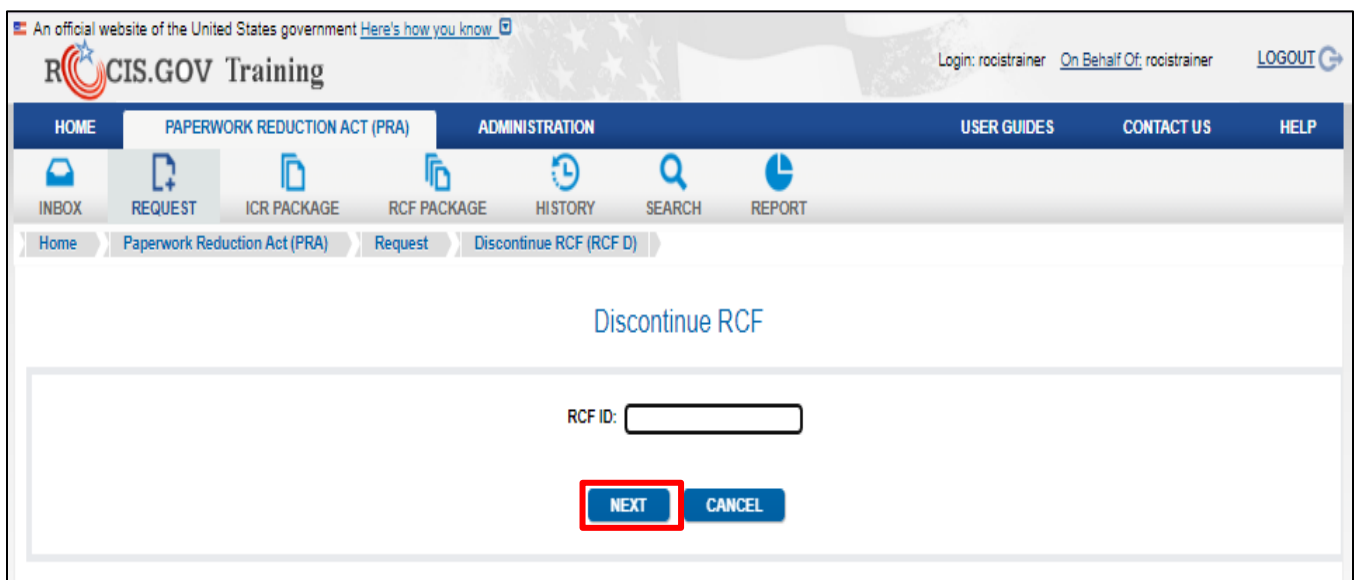

Figure 141: 'Discontinue RCF' Page with 'Next' Button

You can also create a Discontinue RCF Request directly from the 'View RCF – OIRA Conclusion' page by clicking the 'Discontinue (RCF D)' button.

DISCONTINUE (RCF D) **CREATE NON SUBSTANTIVE CHANGE (RCF CHG)**

Figure 142: 'View RCF – OIRA Conclusion' Page with 'Discontinue' Button

On the 'Create Request to Discontinue RCF' page, select an option from the 'Program Change Due To' drop-down menu. If you select the 'New Statute' option, you will be required to identify the statute or statutes. Enter an explanation for the discontinuation request in the 'Justification' text box, click the 'Save' button, and then click the 'Submit' button.

Unlike the Discontinue Request for ICRs, the RCF Discontinue Request does not require OIRA approval. Once you click the 'Submit' button, ROCIS will immediately remove the RCF from the agency's active inventory, and the discontinued request will appear on the 'Concluded Request List' page.

The screenshot shows the 'Create Request to Discontinue RCF' page within the ROCIS.GOV Training system. The page header includes the ROCIS.GOV logo, navigation tabs (HOME, PAPERWORK REDUCTION ACT (PRA), ADMINISTRATION, USER GUIDES, CONTACT US, HELP), and a top navigation bar with icons for INBOX, REQUEST, ICR PACKAGE, RCF PACKAGE, HISTORY, SEARCH, and REPORT. A breadcrumb trail shows the path: Home > Paperwork Reduction Act (PRA) > Request > Discontinue RCF (RCF D). A metadata section displays details for the current request, including RCF ID, Agency/Sub-Agency, Request Status, Host OMB Ctl. No., Agency Tracking No., Last Event, Host ICR Ref No., RCF Title, Last Event User, Host ICR Exp. Date, and Last Event Date. The main content area is titled 'Create Request to Discontinue RCF' and contains a disclaimer: 'A discontinue of an active RCF does not require OIRA approval. As soon as you submit this request, ROCIS will automatically approve it. The RCF will be discontinued on the same date you submit this request.' Below this, there is a form with an 'Expiration Date' field set to 12/31/2025 and a 'Program Change Due to:' dropdown menu. A large 'Justification:' text box is provided for the user to enter an explanation. At the bottom of the form, there are five buttons: 'CHECK SPELLING', 'SAVE', 'SUBMIT', 'DELETE', and 'CANCEL'.

Reports

ROCIS has several report options. To access the report options, click the 'Report' icon.

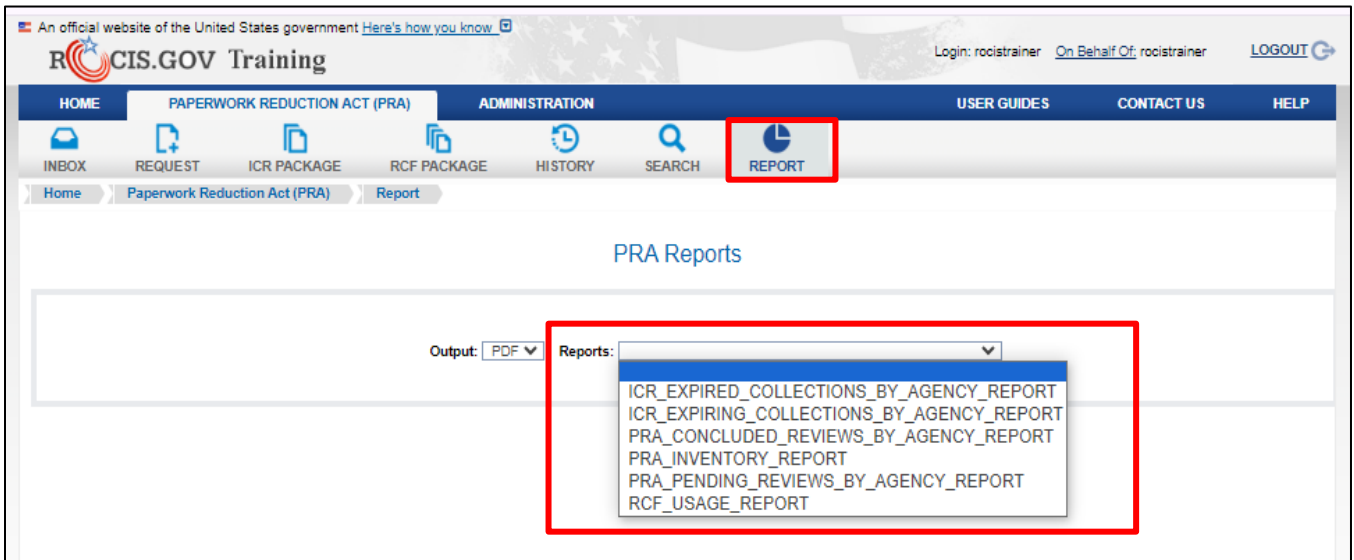

Figure 148: 'Reports' Icon: 'PRA Reports' Page and 'Reports' Drop-down Menu Options

On the 'PRA Reports' page, select an option from the 'Output' drop-down menu: 'PDF' or 'CSV'. Selecting the 'CSV' option generates an editable spreadsheet.

Select a report from the 'Reports' drop-down menu. Depending on the report that is chosen, other fields will display.

The 'ICR **Expiring** Collections by Agency Report' displays agencies whose OMB Control Numbers will be expiring soon. To allow agencies to track any work already underway for renewals or extensions, the report will also include if a new submission has been created or submitted to OIRA for an OMB Control Number.

The system defaults to the 'Next 5 months' radio button option; however, you can select the 'Start Month' radio button and enter a start and end month and year. Click the 'Run Report' button to download the report to your computer's 'Downloads' folder.

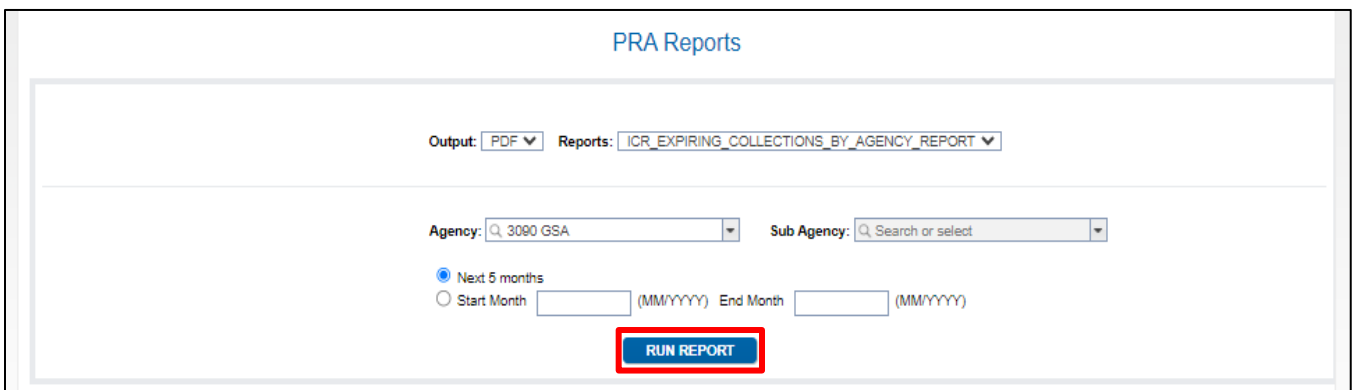

Figure 149: 'PRA Reports' Page: 'ICR Expiring Collections by Agency Report' Selected

Note: There is a related report which details ICR packages that **have expired** called the 'ICR **Expired** Collections by Agency Report'.

Reginfo.gov – the ROCIS Public Website

Reginfo.gov is the public website for ROCIS data. All information about data collected under the PRA is displayed on this website. In addition to allowing the public to access standard reports on ICRs under review, those that have recently concluded, and the active inventory, there is an advanced search feature that allows data mining across many fields.

Figure 150: Reginfo.gov

Appendix A - Creating a Supporting Statement

General Instructions

A Supporting Statement, including the text of the notice to the public required by 5 CFR 1320.5(a)(i)(iv) and its actual or estimated date of publication in the Federal Register, must accompany each request for approval of a collection of information. The 'Supporting Statement' must be prepared in the format described below and must contain the information specified in Section A. If any item is not applicable, the agency must provide a brief explanation. When the question, 'Does this ICR contain surveys, censuses, or employ statistical methods?' is answered by checking the 'Yes' option, Section B of the Supporting Statement must be completed. OMB reserves the right to require additional information for any request for approval.

Specific Instructions

A. Justification

1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.
2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.
3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses, and the basis for the decision to adopt this means of collection. Also, describe any consideration of using information technology to reduce the burden.
4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in [Step 2](#) above.
5. If the collection of information impacts small businesses or other small entities, describe any methods used to minimize burden.
6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.
7. Explain any special circumstances that would cause an Information Collection to be conducted in a manner:
 - requiring respondents to report information to the agency more often than quarterly.
 - requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it.
 - requiring respondents to submit more than an original and two copies of any document.
 - requiring respondents to retain records, other than health, medical, government contract, grant-in-aid, or tax records, for more than three years.
 - in connection with a statistical survey, that is not designed to produce valid and reliable results that can be generalized to the universe of study.
 - requiring the use of a statistical data classification that has not been reviewed and approved by OMB.

- that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or
- requiring respondents to submit proprietary trade secrets, or other confidential information, unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.

8. If applicable, provide a copy and identify the date and page number of publications in the Federal Register of the agency's notice, required by 5 CFR 1320.8(d), soliciting comments on the Information Collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments. Specifically address comments received on cost and hour burden.

- Describe efforts to consult with people outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.
- Consult with representatives of those from whom information is to be obtained or those who must compile records at least once every 3 years - even if the collection of information activity is the same as in prior periods. There may be circumstances that may preclude consultation in a specific situation. These circumstances should be explained.

9. Explain any decision to provide any payment or gift to respondents, other than remuneration of contractors or grantees.

10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to people from whom the information is requested, and any steps to be taken to obtain their consent.

12. Provide estimates of the hour burden of the collection of information. The statement should:

- Indicate the number of respondents, frequency of response, annual hour burden, and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information for hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity, show the range of estimated hour burden, and explain the reasons for the variance. Generally, estimates should not include burden hours for customary and usual business practices.
- If this request for approval covers more than one form, provide separate hour burden estimates for each form, and aggregate the hour burdens.
- Provide estimates of annualized cost to respondents for the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for Information Collection activities should not be included here. Instead, this cost should be included under the Annual Cost to the Federal Government.

13. Provide an estimate for the total annual cost burden to respondents or record keepers resulting from the collection of information. (Do not include the cost of any hour burden already reflected on the burden worksheet).

- The cost estimate should be split into two components: (a) a total capital and start-up cost component (annualized over its expected useful life) and (b) a total operation and maintenance and purchase of services component. The estimates should consider costs associated with generating, maintaining, and disclosing or providing information. Include descriptions of methods used to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, the discount rate(s), and the period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling, and testing equipment; and record storage facilities.
- If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of purchasing or contracting out Information Collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10), utilize the 60-day pre-OMB submission public comment process, and use existing economic or regulatory impact analysis associated with the rulemaking containing the Information Collection, as appropriate.
- Generally, estimates should not include purchases of equipment or services, or portions thereof, made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the Information Collection, (3) for reasons other than to provide information or keep records for the government, or (4) as part of customary and usual business or private practices.

14. Provide estimates of annualized costs to the Federal government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), and any other expenses that would not have been incurred without this collection of information.

15. Agencies may also aggregate cost estimates from Items 12, 13, and 14 in a single table.

16. Explain the reasons for any program changes or adjustments reported on the burden worksheet.

17. For collections of information whose results will be published, outline plans for tabulation and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of the report, publication dates, and other actions.

18. If seeking approval to not display the expiration date for OMB approval of the Information Collection, explain the reasons that display would be inappropriate.

19. Explain exceptions to the topics of the certification statement identified in Certification for Paperwork Reduction Act Submissions.

B. Collections of Information Employing Statistical Methods

The agency should be prepared to justify its decision not to use statistical methods in any case where such methods might reduce burden or improve the accuracy of results. When the question "Does this ICR contain surveys, censuses, or employ statistical methods?" is answered Yes, the

following documentation should be included in the Supporting Statement to the extent that it applies to the methods proposed:

1. Describe (including a numerical estimate) the potential respondent universe and any sampling or other respondent selection methods to be used. Data on the number of entities (e.g., establishments, State and local government units, households, or persons) in the universe covered by the collection and in the corresponding sample are to be provided in tabular form for the universe as a whole and for each of the strata in the proposed sample. Indicate expected response rates for the collection. If the collection had been conducted previously, include the actual response rate achieved during the last collection.

2. Describe the procedures for the collection of information including:

- Statistical methodology for stratification and sample selection,
- Estimation procedure,
- Degree of accuracy needed for the purpose described in the justification,
- Unusual problems that require specialized sampling procedures, and
- Any use of periodic (less frequent than annual) data collection cycles to reduce burden.

3. Describe methods to maximize response rates and to deal with issues of non-response. The accuracy and reliability of information collected must be shown to be adequate for intended uses. For collections based on sampling, a special justification must be provided for any collection that will not yield reliable data that can be generalized to the universe studied.

4. Describe any tests of procedures or methods to be undertaken. Testing is encouraged as an effective means of refining collections of information to minimize burden and improve utility. Tests must be approved if they call for answers to identical questions from 10 or more respondents. A proposed test or set of tests may be submitted for approval separately or in combination with the main collection of information.

5. Provide the name and telephone number of individuals consulted on statistical aspects of the design and the name of the agency unit, contractor(s), grantee(s), or other person(s) who will collect and/or analyze the information for the agency.

OIRA has produced several documents that may serve as useful reference material for completing Supporting Statement B. These can be found at [the OMB Statistical Programs & Standards web page](#).

Appendix B - FAQs

ICR FAQ

1. What is an Information Collection (IC)?

An IC is a set of information collected by an agency that is associated with a given affected public, obligation to respond, and line of business. The set of information may be defined by the instrument (e.g., a form), an activity (e.g., loans, filing taxes), or any other logical grouping determined by the agency that will provide explicit burden estimates by the affected public, obligation to respond, and line of business.

2. What is an Information Collection Instrument (ICI)?

An instrument is the mechanism for gathering information. The most obvious and easily identified type of instrument is a paper form or a survey, but it may be a web-based application, a telephone script, or any other means used to gather information.

3. What does “affected public” refer to?

The affected public includes individuals, the private sector, and state and local governments.

4. What does the “obligation to respond” refer to?

The obligation to respond is the public’s responsibility to complete the instrument. The options are ‘Mandatory’, ‘Required to Obtain Benefits’, and ‘Voluntary’.

5. What does “line of business” refer to?

The line of business refers to the federal government’s lines of business in services to citizens and management of governmental resources affecting citizens, as defined by the Federal Enterprise Architecture Business Reference Model. (For more information refer to [the Business Reference Model](#)).

6. Why does OMB require that Information Collection Requests (ICRs) be divided into Information Collections (ICs)?

Under the current system, aggregate statistics on paperwork burden provide limited information, particularly at the ICR level. The IC concept has been developed to provide more informative statistics about the Information Collection burden of the Federal government. For example, the ROCIS PRA Module will facilitate a more accurate accounting of paperwork burden by the affected public and by reporting, recordkeeping, or third-party disclosures. In addition, the system will allow a more accurate accounting of the burden imposed on small entities, and the burden imposed by a new statute. Collecting data at the IC level will facilitate the creation of an online catalog of forms and other instruments for forms.gov.

7. What will OIRA do with the IC-level data?

From the IC-level data, OMB will be able to obtain a detailed accounting of the burden imposed by the Federal Government with respect to:

- the affected public
- the affected line of business
- the obligation to respond (mandatory, voluntary, required to determine benefits)
- the type of collection (reporting, recordkeeping, or third-party disclosures) and
- small entities

Such information will help answer questions frequently posed by Congress, and it will allow a more focused evaluation of paperwork burden for those interested in burden reduction. The IC and accompanying form and related instruments, such as instructions, are also a fundamental building block in establishing a catalog of forms for forms.gov, part of the Business Gateway E-gov initiative.

8. How do I break down an ICR into ICs?

There are three components which must be considered when breaking down an ICR into ICs:

- the affected public
- the obligation for respondents to respond and
- the line of business

A single ICR can have multiple ICs. Each of the ICs can have different affected publics, lines of business, or obligations to respond. However, any single IC can have only one line of business, one obligation to respond, and one affected public selected for each IC. These are system constraints. We recommend that each form or ICI have a separate IC, but the system will allow for multiple forms within an IC. [Refer to Question 6 for more information.](#)

When breaking an ICR into ICs, the agency should consider these three components which will determine the minimum number of ICs within a collection. Refer to information in [Appendix A](#) for a detailed example of how to determine the minimum number of ICs and [Appendix B](#) for case studies of existing ICRs. Beyond the constraints in the ROCIS module for affected public, obligation to respond, and line of business, an agency has the flexibility to determine how many ICs will be created.

9. How many ICs should each ICR have?

The number of ICs required in each ICR depends on the nature of the collection and the agency's preferences for organizing the collection. We encourage agencies to organize their ICs in a manner that provides a meaningful and easily understandable summary of the burden estimates associated with an ICR.

There is no limit on the number of ICs, but there is a minimum number that the agency must provide. The minimum number of ICs can be found by determining whether the ICR:

- affects more than one segment of the affected public
- affects more than one line of business
- contains more than one type of obligation to respond

If any of these conditions are true, the agency will have to create multiple ICs. Refer to [Appendix A](#) for a detailed example of how one might determine the minimum number of ICs.

10. Can one ICR only have one corresponding IC?

Yes, an ICR can have only one IC, but only in cases when the ICR involves just one line of business (e.g., health), one category of affected public (e.g., individuals), one type of response obligation (e.g., voluntary).

10. My agency has an ICR that has reporting, recordkeeping, and third-party disclosures. Are we required to provide a separate IC for each type of burden?

No, the agency to determine how many ICs are appropriate. Consider organizing them in a manner that provides a meaningful and easily understandable summary of the burden estimate, but there are no system constraints on grouping them into one IC.

The system will require the user to provide separate estimates associated with each type of burden (reporting, recordkeeping, and third-party disclosures) within the IC.

11. I have an ICR that has different reporting frequencies (e.g., biennially, monthly, on occasion). Am I required to provide a separate IC for each frequency?

No, the agency has the flexibility to determine how many ICs are appropriate. Consider organizing them in a manner that provides a meaningful and easily understandable summary of the burden estimate, but there are no system constraints on grouping them into one IC.

12. Our agency has a letter that accompanies a form/ survey. Should this be a separate IC?

No. A letter can be considered supporting documentation for an IC and, therefore, should be submitted as part of the same IC as the form/ survey. However, if the letter supports documentation for the ICR (not just the IC), it should be submitted in the supporting documents section for the entire ICR.

13. Our agency has an ICR that accompanies a proposed/final rule. Should each of the Information Collection requirements associated with the rule be its own IC?

Not necessarily. Determine whether the rule affects more than one line of business, has more than one type of obligation to respond, and/or affects more than one segment of the public. This, in turn, will determine the minimum number of ICs associated with the rule. Consider how the Information Collection requirements contained in the rule might be organized into ICs to provide the most meaningful information to the public. Depending on the ICR, this could mean numerous ICs or just one IC. Refer to [Appendix A](#) and [Appendix B](#) for information on determining the minimum number of ICs for a collection and for case studies.

14. How does the agency determine the “line of business” for an IC?

The line of business refers to the federal government’s lines of business in services to citizens and management of governmental resources affecting citizens as defined by the Federal Enterprise Architecture Business Reference Model. If an Information Collection is associated with an IT investment, the line of business for the IC must be the line of business reported by the agency CIO to OMB for the IT system. If the IC does not relate to an IT investment (e.g., a third-party disclosure), the line of business should reflect the functional purpose of the IC.

15. Our agency has an IC that could reasonably be categorized under two different lines of business. How do we decide which line of business to choose?

If the IC is associated with an IT investment, categorize the IC the same way the IT investments have been categorized by the agency CIO. If the information is not associated with an existing IT investment, consult the individuals responsible for IT investments within the agency and the

OIRA Desk Officer to decide which line of business is the most appropriate classification for the IC.

16. Our agency has an ICR that consists of regulatory reporting requirements, but no forms. Do I need a separate IC for each provision in the Code of Federal Regulations (CFR)?

No. If the reporting requirements affect one line of business, one category of affected public, and one type of response obligation, one IC can be used. If this is not the case, you must, at the very least, provide separate ICs for each affected public, line of business, and response obligation. Refer to [Appendix A](#).

17. Is there a maximum on the number of ICs that can be part of an ICR?

No, the agency will determine how many ICs are appropriate; however, the agency should consider organizing the ICRs in a manner that provides a meaningful and easily understandable summary of the Information Collection to the public, but there are no system constraints on the number of ICs. Consult your OIRA Desk Officer for additional guidance.

18. Are there specific requirements for forms?

The recommendation is that the agency consider having one IC for each form. The system was designed with this capability, and this approach will provide a meaningful and easily understood estimate of the burden associated with the form. However, the system will allow multiple forms within an IC and there are reasons why this approach might be appropriate. For example, if a form is published in multiple languages or if a form has both a paper version and a web version, it may be more practical to include them in the same IC but list each form as a separate ICI within the IC.

19. Is an ICR that consists of a single form always equal to one IC?

Not always. It can be one IC only if there is one line of business, one category of affected public, and one type of response obligation.

20. Our agency has two forms related to the same reporting requirements. Is that one IC or two?

Two or more forms can be part of the same IC if the line of business, the affected public, and the type of response are ALL identical across the forms. In such cases, the agency has the flexibility to select one or more ICs, depending on the agency's preference. For example, if the forms are to be submitted with different frequencies (i.e., one is submitted annually, the other is submitted bi-annually) but request the same information, an agency could choose one IC (i.e., both forms) or two ICs (i.e., one for each form).

21. Our agency has an ICR that contains multiple ICs, but we do not have the necessary information to determine what proportion of respondents fit into the various affected public categories, nor are the number of small businesses. What level of precision/effort is expected?

Do your best to make accurate and reasonable estimates of the burden for each IC and the burden imposed on small entities. In the case of extensions to existing approvals, experience with a collection can provide a reasonable guide for estimating the burden for the various affected public categories. With new collections, agencies must exercise due diligence in providing their best estimate and soliciting input on potentially affected parties.

22. Does the agency have to provide information about the IC-level data in the Federal Register Notice required by the PRA?

The regulatory requirements for Federal Register Notices have changed. The agency may provide information at the IC level if it is believed that it is informative, but this type of information is not required.

23. Who should the agency contact to get answers to questions regarding ICRs being divided into ICs?

The agency should contact its assigned OIRA Desk Officer.

1. What is a Common Form?

A Common Form is an Information Collection that can be used by two or more agencies, or government-wide, for the same purpose. A Host Agency can obtain Office of Management and Budget approval of an Information Collection for use by one or more agencies. After OMB grants approval, any prospective Using Agency that seeks to collect identical information for the same purpose can obtain approval to use the Common Form by providing its agency-specific information to OMB (e.g., burden estimates and number of respondents).

Is there a difference between a Standard Form and a Common Form?

Yes. A Standard Form, as currently defined, is a type of Common Form but its use by all agencies is required. For example, the Office of Personnel Management requires that the Standard Form (SF)-86, "Questionnaire for National Security Positions," be used for all agencies who are hiring personnel for national security positions. A Standard Form is thus a Common Form, but not necessarily vice versa. OIRA will refer to all forms for this new module—including Standard Forms—as Common Forms.

Why is this module or process necessary?

We created the Common Forms Module to encourage agencies to seek common data solutions, increase efficiency, and better account for the burden imposed on the public by Federal agencies. Prior to the implementation of the Common Forms Module, a Host Agency was unable to disaggregate the reporting burden imposed through its use of a Common Form from the burden imposed by other agencies' use of the Common Form.

For example, Grants.gov owned the SF-424 series (grant-related application Common Forms), which meant that the Department of Health and Human Services (the Host Agency for Grants.gov) was required to include in its burden inventory the entire burden imposed by all grant-making agencies that used the SF-424 forms. Although this process was simple for the Using Agencies, it posed several problems. First, a Host Agency became responsible for burden that was not within its control. This discouraged agencies from adopting Common Formats for Information Collections and created inefficiencies and redundancies in both the approval process and the Information Collections. Second, the process for estimating use of the forms and calculating burden was not always consistent across agencies. This led to potential underreporting of burden and weak accountability regarding the approved use of these forms.

What process do agencies follow to obtain OMB approval to convert existing Common Forms or create new Common Forms using the module?

A Host Agency will follow the procedural requirements of the Paperwork Reduction Act (PRA) and OMB's PRA regulations (refer to [5 CFR Part 1320](#)). These requirements include publishing notices in the Federal Register for public comments and submitting Information Collection Requests (ICRs) to OMB to obtain approval of a Common Form. The Host Agency will indicate in the Federal Register notices that it is requesting approval of a Common Form and, if known, identify other agencies that may use the Information Collection. Both the Federal Register notices and the ICR should account only for the burden imposed by the Host Agency's use of the Common Form. Once the Host Agency has received approval from OMB, any agency will be able to request OMB approval for its use of the Common Form in ROCIS by providing its agency-specific information to OMB (e.g., burden estimates and number of respondents). Additional public notice by those agencies will not be required.

What are the responsibilities of the Host Agencies to inform Using Agencies that they are converting forms, using the new module?

To facilitate this new process, after consulting with OIRA, Host Agencies will notify other agencies that a Common Form has been converted. In addition, we will be sending emails through the Chief Information Officer Council to inform agencies of the new Common Forms Module requirements and provide banner notification alerts via ROCIS to remind agencies that this new module exists.

When should agencies start using this module?

The Common Forms Module is operational, and an agency may request approval now. We encourage agencies, as appropriate, to use the Common Forms Module to convert existing forms into Common Forms as soon as possible. Existing forms that have already been PRA-approved, however, will not be required to be converted to Common Forms through this new module before their current three-year approval expires.

Does a prospective Host Agency need to know whether a Common Form will be used by other agencies before it requests OMB's approval of the Common Form?

No. However, agencies should consider whether the information they plan to collect might be information that other agencies might also collect, or whether other agencies have used their forms in the past. We encourage agencies to consult with each other to identify common sets of information to be collected and coordinate their requests for OMB approval. We also encourage agencies that use other agencies' forms to contact those agencies and suggest that a Common Form approach be used.

Can the Common Forms Module approach be used for Common Forms hosted and used by components within the same agency?

If an agency has OMB Control Numbers with distinct four-digit prefixes for individual components within the agency, it will be possible to use this approach. The Host Agency could be any of the components and the Users are any other sub-agency component with a distinct four-digit prefix. For example, USDA might request approval using this approach under a departmental office (Control Number OMB 0505-xxxx). As explained above, the Host Agency would only request approval for the burden imposed by their collection. Once approved, any other component within USDA with an OMB Control Number prefix (e.g., APHIS 0579, GIPSA 0580), could obtain approval from OMB by providing component-specific information. Additional public notice would not be required.

If a Host Agency includes several forms in their request, is it possible for a Using Agency to request approval for only one of the forms?

Yes. If the Host Agency has identified the forms as separate Information Collections (IC) within its request, a Using Agency will be able to request approval of its use of a specific IC.

Can a Using Agency obtain approval if the information is collected using a different instrument (e.g., the Host Agency requests approval for a web application, but the Using Agency develops a different web application)?

Yes, but only if the Host Agency included the different instruments as separate ICs as part of their Common Form approval. A Using Agency can then request approval for the specific IC instrument applicable to them. Therefore, it would not be permitted for a Using Agency to collect information via paper format if the Host Agency only requested to collect the information electronically since the burden of those instruments will vary.

To what extent may a Using Agency change the information collected with a Host Agency's approved Common Form?

The only changes that a Using Agency can make to an approved Common Form are those that are necessary to identify the Using Agency with the instrument itself and in the instructions. For example, to use the Department of Veterans Affairs (VA) Form 4939, a Using Agency would need to replace references to the Host Agency (in this case, VA) with references to the Using Agency throughout the form. In addition, the Using Agency is allowed to make necessary text modifications in the instructions, so respondents know how to send information back to their specific agency.

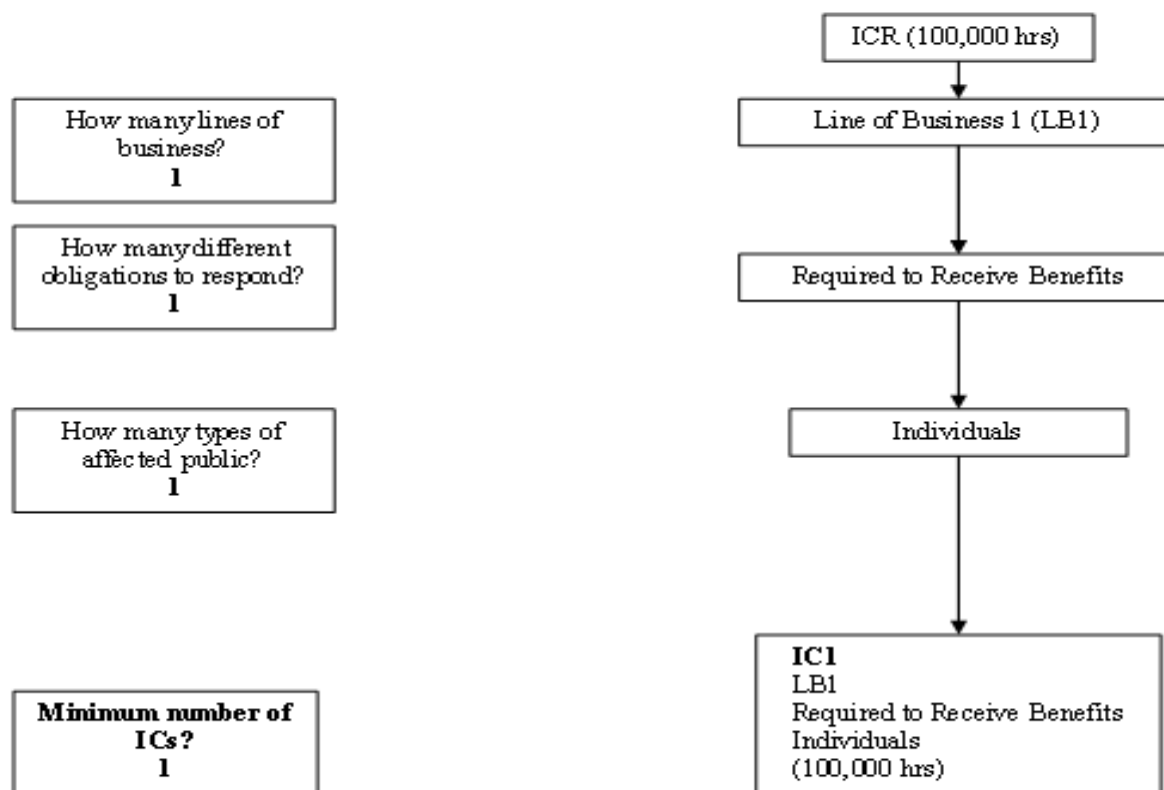

To what extent may a Using Agency change the purpose for which a Host agency's approved Common Form is used?

If the Using Agency's purpose for the Information Collection is different from the purpose identified by the Host Agency, the Using Agency cannot use the Common Form. To use a Common Form for a different purpose, the Using Agency would be required, pursuant to the PRA and OMB's PRA regulations, to allow for public notice and comment and obtain OMB approval. OMB's review would consider the Using Agency's proposed use of the information within the context of the agency's stated purpose.

Appendix C: Determining the Number of ICs

Example 1

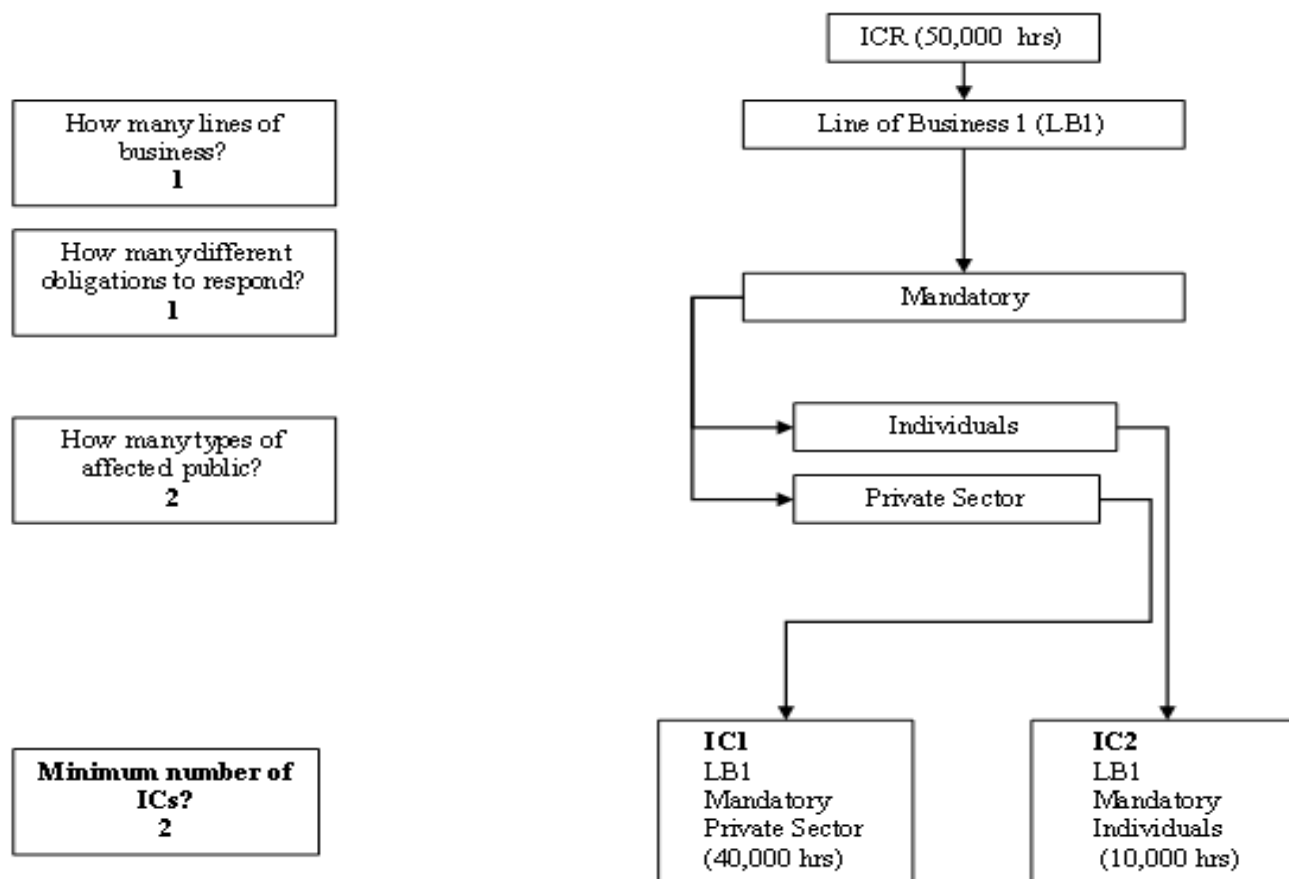

Example 1: The collection under consideration gathers information from individuals. There are three forms. Individuals must submit these forms in order to receive benefits from the Federal Government. The information gathered can be classified under a single line of business. The total burden for the ICR is 100,000 hours.

Note: An estimate of overall ICR burden will not have to be entered. The ROCIS system will sum the burden entered for the ICs to obtain the overall ICR-level burden estimate.

Example 2

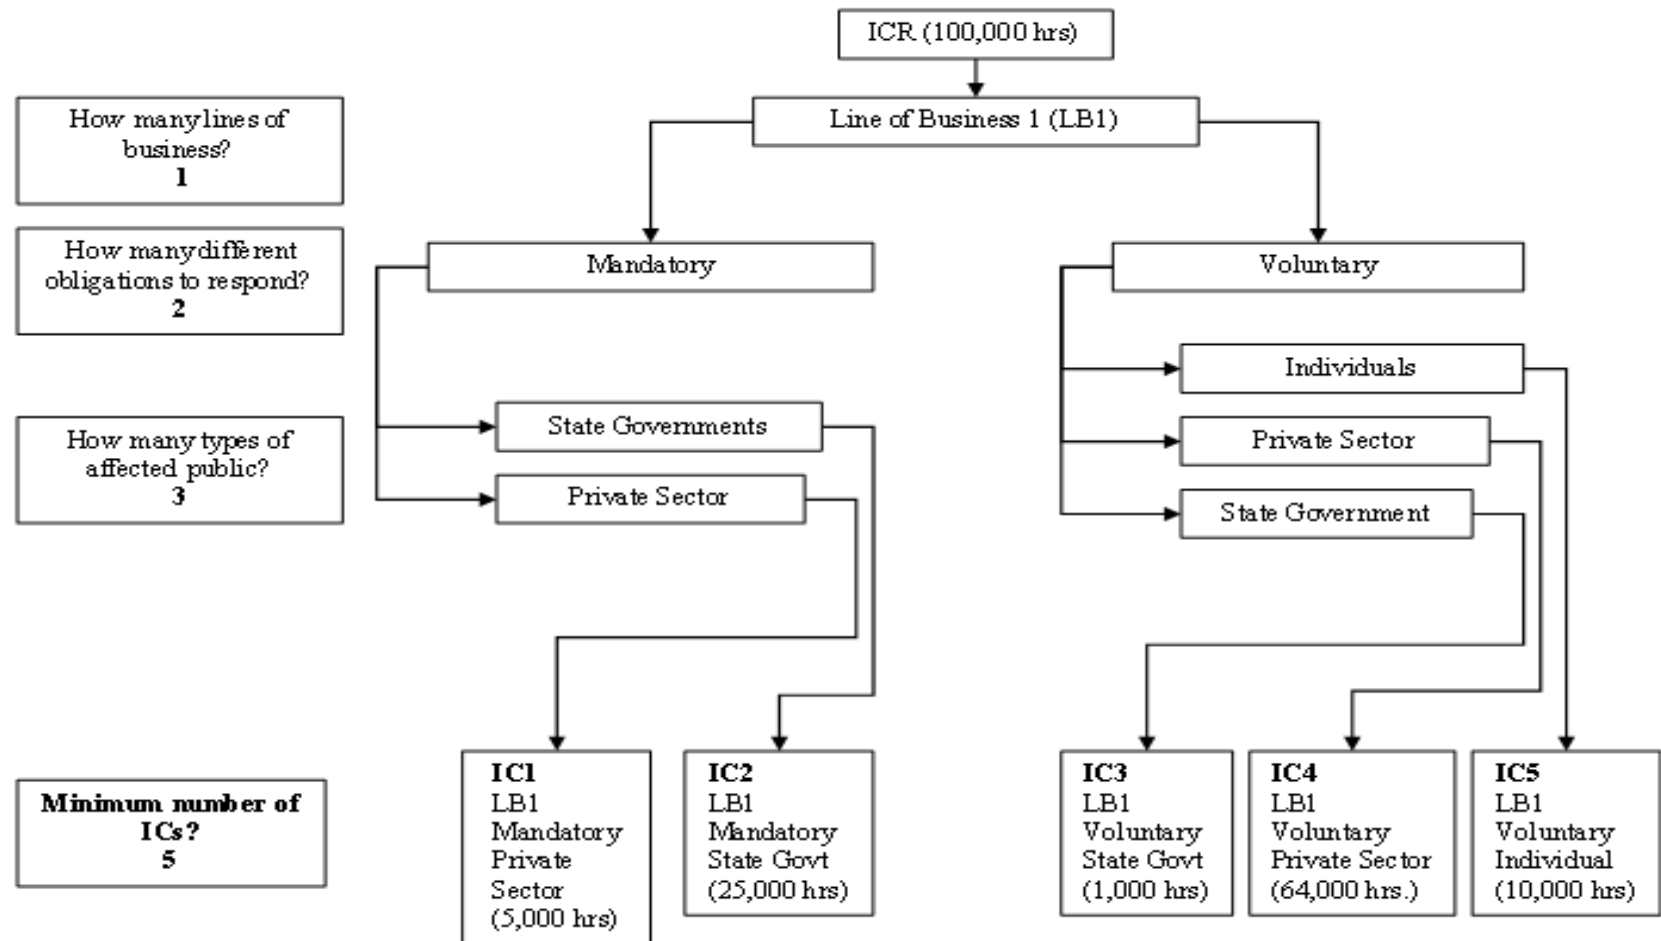

Example 2: The collection under consideration gathers information from individuals and the private sector (businesses). There are two mandatory reporting requirements (one is a form; the other is specified in regulation). The information gathered can be classified under a single line of business. The total burden for the ICR is 50,000 hours: 40,000 hours are imposed on the private sector; 10,000 hours are imposed on individuals.

Note: An estimate of overall ICR burden will not have to be entered. The ROCIS system will sum the burden entered for the ICs to obtain the overall ICR-level burden estimate.

Example 3

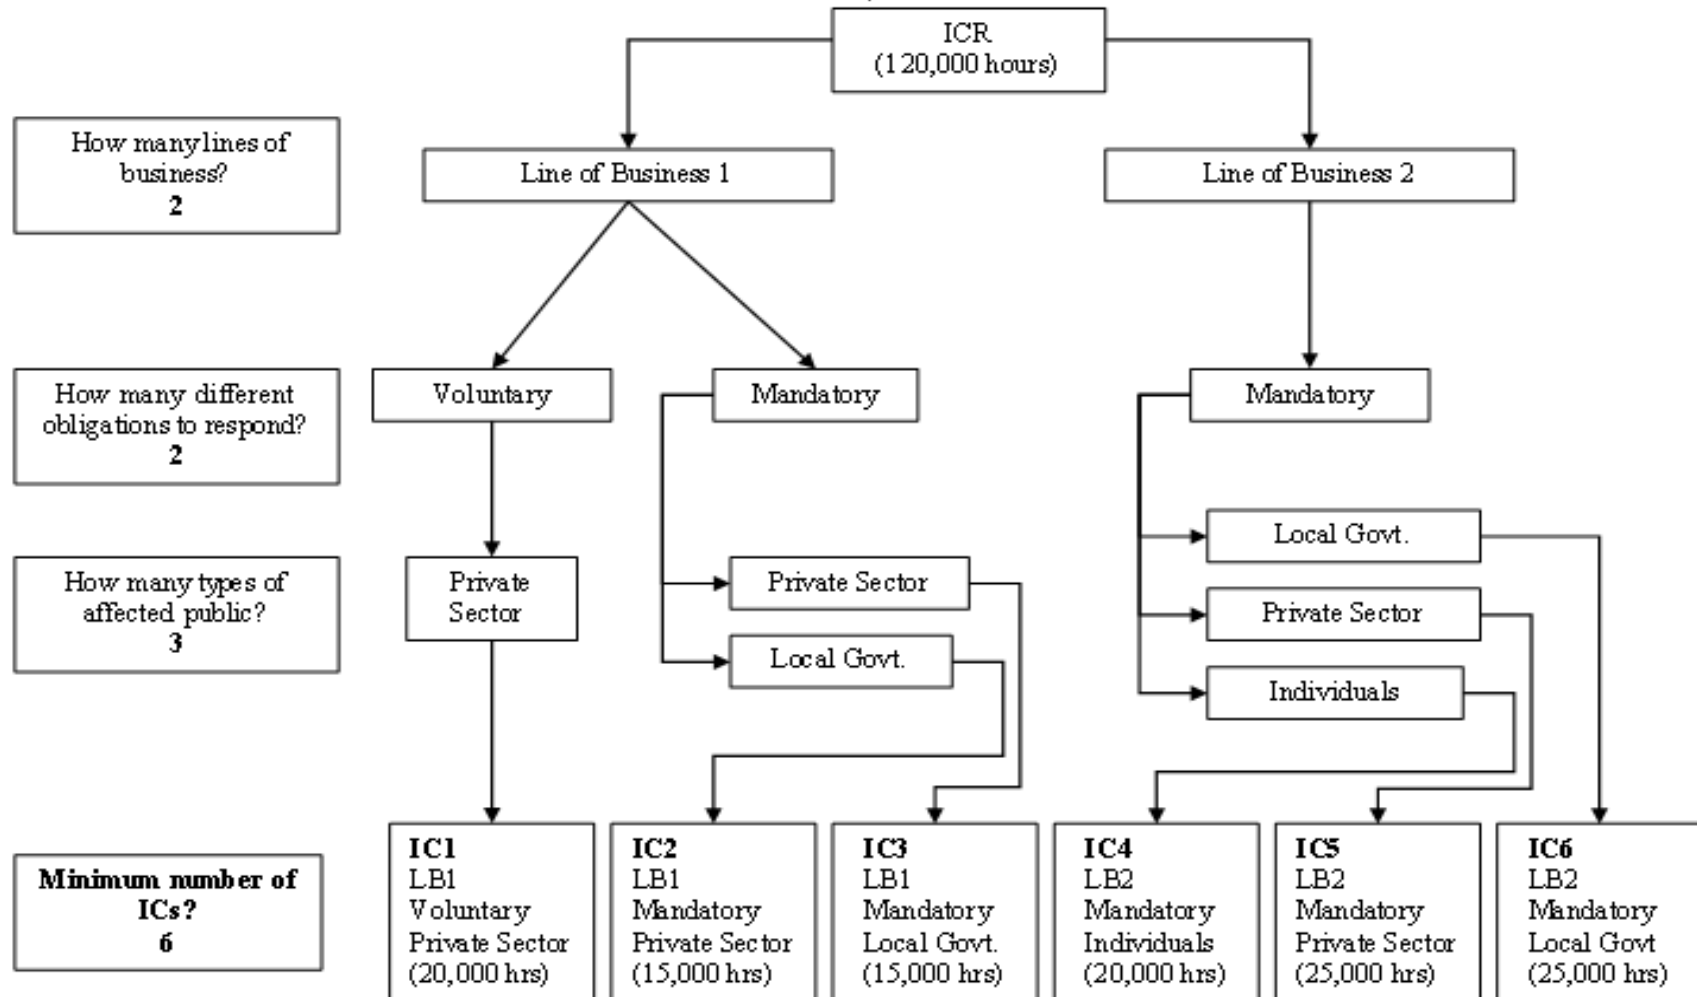

Example 3: The collection under consideration gathers information from individuals, the private sector (businesses and non-profits), and state governments. There are two forms, one is voluntary; one is mandatory. The information gathered can be classified under a single line of business. The total burden for the ICR is 100,000 hours; 30,000 hours are mandatory; 70,000 hours are voluntary

Note: An estimate of overall ICR burden will not have to be entered. The ROCIS system will sum the burden entered for the ICs to obtain the overall ICR-level burden estimate.

Example 4

Example 4: The collection under consideration gathers information from individuals, the private sector (businesses), and local governments. There are two forms: Form 1 is voluntary for small businesses, but mandatory for others; Form two is mandatory for all respondents. The information gathered for Form 1 and form 2 are classified under separate lines of business. The burden for the ICR is 120,000 hours.

Appendix D: Case Studies of ICRs

Case Study 1:

Title: Underground Storage Tanks: Technical and Financial Requirements, and State Program Approval Procedures. (OMB# 2050-0068)

Description: This ICR covers Information Collections associated with EPA's regulations for underground storage tanks. There are two sets of regulatory requirements in the Code of Federal Regulations (CFR): one set covers state governments, and one set covers businesses that operate underground storage tanks. In the currently approved ICR, the agency has provided exhibits (i.e., Exhibits I and II) that organized their regulations and the associated burden into 12 categories that correspond to subparts of the CFR (4 for state requirements and 8 for business requirements.)

Analysis: The first step in determining the ICs associated with this ICR involves determining the number of unique combinations of the affected public, reporting obligation, and the line of business. For this ICR, all reporting requirements are mandatory, and they can all be categorized within the same line of business (environmental management). There are, however, two different segments of the affected public: state and local government and businesses.

Using the most recent supporting statement for this ICR, the agency could choose to divide the ICR into ICs in several different ways. At a minimum the ICR would have to contain 2 ICs, but it could be divided into 12 ICs, or perhaps more. To divide the IC into two ICRs, the agency would divide the ICR into: 1) information required from states and 2) information required from businesses. To divide this ICR into 12 ICs, the agency could use the information in Exhibits I and II of the supporting statement and create an IC for each subcategory of the CFR in these exhibits. In addition, the agency could choose to divide the ICR into more than 12 ICs to correspond to more specific portions of the CFR.

Case Study 2:

Title: Permanent Program Performance Standards – Surface and Underground Mining Activities (OMB#: 1029-0007)

Description: The ICR covers regulations implementing environmental performance standards for Surface Mining Activities [30 CFR 816] and Underground Mining Activities [30 CFR 817]. It includes an application, ongoing reporting and sampling of sites, permit/waivers, and third-party disclosure requirements. There are no forms associated with the collection.

In the most recent supporting statement, the agency provides a breakdown of burden estimates by CFR provision; but, because part 816 and 817 contain 15 provisions with essentially the same type of requirements, the agency provides combined burden estimates for the relevant provisions in both parts. For example, 30 CFR 816.43 and 817.43 both require permits for stream channel diversion and preparation of a certified report following construction. Rather than providing an estimate for surface mining and one for underground mining, the agency provides a single estimate of burden for both provisions. In addition to the 15 dual provisions, there are two provisions that apply only to underground mining in this collection.

Analysis: The first step in determining the ICs associated with this ICR involves determining the number of unique combinations of the affected public, reporting obligation, and the line of business. For this ICR, the requirements are mandatory, and they can all be categorized within the same line of business (environmental management). There are, however, two different segments of the affected public: state/local/tribal government and businesses. In the current supporting statement, the agency provides a break-out of the burden for each group.

Using the most recent supporting statement for this ICR, the agency could choose to divide the ICR into ICs in several different ways. At a minimum the ICR would have to contain 2 ICs, but it could be divided into 18 ICs, or more. To divide the ICR into two ICs, the agency would divide the ICR by the: 1) information required from states and 2) information required from businesses. To divide this ICR into 18 ICs, the agency could use the information in the supporting statement that breaks out burden by CFR provisions: 14 of the ICs would cover dual provisions that apply only to businesses; 2 of the ICs would cover the provisions that apply only to underground mining; and one of the dual provisions would have two ICs (one for burden on states/local, one for burden on businesses). The agency could choose to divide the ICR into more than 18 ICs to correspond to more specific portions of the CFR.

Appendix C: PRA Agency User Roles

There are four user roles within ROCIS that are specifically associated with the agency portion of the PRA module:

Paperwork Data Entry Contact (PDEC) – This individual can create and edit any type of PRA-related request. To obtain a ROCIS account, they must go through the agency's Clearance Officer (see role description), attend training (see document on 'ROCIS Login' Page) and sign a security agreement.

Authorized Paperwork Contact (APC) – This individual can do everything that a PDEC can but can also submit any type of PRA-related request on behalf of the agency's Certifying Official (CO). To obtain a ROCIS account, the APC must go through the agency's Clearance Officer (CL), attend training (see document on 'ROCIS Login' page), and sign a security agreement. Additionally, the ROCIS technical team must receive approval from the agency's CO, authorizing the new APC to submit requests for review. *Each agency must have at least one of these.*

Clearance Officer (CL) – This person is the primary Point of Contact for an agency regarding new accounts. If someone from an agency wants an account with access to the PRA module, the request must be made through the Clearance Officer (CL). The CL will inform the ROCIS technical team of the user's role and, if applicable, the sub-agencies within the agency to which the user should have access. *Each agency must have one of these (only 1 CL per agency code).*

This CL role has no ROCIS privileges associated with it, so there are no requirements for a security agreement or training. In practice, almost all CLs are also APCs, and all the conditions for an APC apply to them. A change in an agency CL is normally handled by the outgoing CL, who notifies the ROCIS technical team of his replacement. If there is any question about who the CL for an agency is, the ROCIS technical team will ask the agency's CO to name the new CL.

Certifying Official (CO) – This person is ultimately responsible for verifying the accuracy and completeness of the information contained in each of the agency's PRA submissions (often this is the agency's Chief Information Officer, Chief Data Officer, or other agency official). Every ROCIS PRA-related submission carries the CO's identifying information.

Like the CL, the CO role has no ROCIS privileges associated with it, so there are no requirements for a security agreement or training. Unlike the CL, COs are rarely ROCIS users who log into the system, but they may request other roles as needed.

The CO is responsible for delegating authority to agency APCs, and, when necessary, naming the agency's CL. *Each agency must have one of these (only 1 CO per agency code).*
